Swaziland Small and Medium Business Directory ,2006 *Bringing Finance to Pakistan's Poor* Tatiana Nenova,Cecile Thioro Niang,Anjum Ahmad,2009-11-13 Although access to financing in Pakistan is expanding quickly it is two to four times lower than regional benchmarks Half of Pakistani adults mostly women do not engage with the financial system at all and only 14 percent have access to formal services Credit for small and medium size enterprises is rationed by the financial system The formal microfinance sector reaches less than 2 percent of the poor as opposed to more than 25 percent in neighboring countries Yet it is the micro and small businesses along with remittances that help families escape the poverty trap and participate in the economy Bringing Finance to Pakistan s Poor is based on a pioneering and comprehensive survey and dataset that measures the access to financial products by Pakistani households The survey included 10 305 households in all areas of the country excluding the tribal regions The accompanying CD contains summary statistics The authors develop a picture of access to and usage of financial services across the country and across different population groups and they identify policy and regulatory priorities Reform measures in Pakistan have been timely but alone are not enough financial institutions have lagged behind in adopting technology segmenting customer bases diversifying products and simplifying processes and procedures Gender bias and low levels of financial literacy remain barriers as is geographical remoteness However the single strongest cause of low financial access is lack of income not location education or even gender Bringing Finance to Pakistan s Poor will be of great interest to readers working in the areas of business and finance economic policy gender and rural development and microfinance
