needs to pinch herself to make sure she's not dreaming Lila is shocked and scared at the same time It is both exciting and scary to explore this huge world She wants to know what adventures are in store for her and how she got to be where she is now But Lila's natural interest quickly takes over her first worry She makes the brave and exciting choice to get up and explore this much bigger version of her world Lila is looking into more than just taking a stroll through the park Every step she takes brings her closer to things that are amazing and hard on a huge scale Her feet feel like they're on a huge green carpet because the ground is different softer and more living Every breath is a mixture of smells and the air is thick with the sweet smell of flowers She feels even closer to the sun because its warm rays cover her in golden light As Lila walks through the yard she pays close attention to the ants Even though they are big they look like they are doing their normal jobs bringing food and pieces of leaves back to their nests By moving in a purposeful well organized line they tell us that there is order even in the very large universe Lila learns that these once tiny but now giant animals can teach her a lot about endurance working together and how important it is for everyone to play their part in the community

The Awakening in the Giant's Garden tells us about Lila's first adventure and sets the tone for the whole story This book takes us to a world where even the tiniest creatures can have the most amazing adventures and anything is possible It shows kids the importance of being brave and interested as well as the amazing things that can happen when they step out of their safe zones Lila's journey shows how exciting it is to find new things and how many options there are for people who are willing to look at the world from different points of view

Chapter 2 The Ant Highway In the interesting chapter **The Ants Highway** our brave explorer Lila makes friends with a group of ants in the yard When Lila wakes up to a much bigger world than she is used to her path changes This shows her how important it is to work with others She slowly walks up to a colony of ants and they meet her with hospitality and kindness instead of hostility showing how friendly these small but strong animals can be Lila thinks the ants are huge even though they are really very small Their home is a complicated web of paths and caves that run across the garden floor and they offer to show her around The way ants live is very interesting to Lila They carefully and purposefully move through the yard following paths that are just as important to them as roads are to people From where Lila is now the thick grass looks like a dense forest because these paths are going through it The ants say that their paths are like freeways because they connect different parts of the garden and make it easier for people to talk to each other share resources and help each other Each ant has a specific job to do in this complicated system which shows how powerful it is to work together to reach a shared goal Lila watches the ants work and realizes that they are pulling leaf pieces that are much bigger than their bodies into the air Teamwork makes the dream work the ants teach her by saying it over and over again They work well together and each ant plays a big part in helping the group find food build a nest and protect their environment Lila is impressed by how well this group works together and sticks together This makes her think that each person no matter how small can make a big difference in the group's success This chapter tells the story of a girl and some ants and also talks about how important

it is to work together talk to each other and be a part of a community It shows kids that they can do a lot more when they work together than when they do it alone The ants highway is a metaphor for our trips as a whole showing that problems can be solved with the help of friends and working together Lila is motivated to see how important each person is to reaching goals after learning to appreciate how hardworking ants are This makes people want to read more The Ants Highway is a fun and unique way to teach kids about working together It s a story that shows how powerful teamwork can be and how exciting it can be to work with other people in our community Lila s experience with the ants shows that even small animals can teach us important lessons about getting along with others Chapter 3 The Flight of the Bumblebee In the interesting chapter The Flight of the Bumblebee Lila s trip takes her off the ground and into the air This gives her a new view of the huge world she has found herself in This chapter tells the sweet story of how Lila sees the garden s beauty from a whole new angle after making friends with a bumblebee Hops on the bumblebee s back and holds on tight to its fluffy shell She is carried through the air and on an exciting and amazing trip With its wide open spaces and tall plants the garden below her turns into a beautiful patchwork a mosaic of green yellow and red colors that goes in every direction The bumblebee which is buzzing with pride is Lila s guide From this unique height it shows her how the flowers dance and the secrets that are hidden in the treetops From above Lila looks at the garden with awe as she holds on to her flying friend She knows how big the world is and how small her part is in it which is both exciting and sad But instead of making her feel small this knowledge makes her appreciate how complicated and beautiful nature is even more The Flight of the Bumblebee is a fun flying story that also teaches kids how important it is to look at things from different points of view Lila s encounter with the bumblebee reminds us of how important it is to learn about our surroundings and how beautiful differences can be Through the bumblebee s eyes Lila and the readers learn about how trees are put together how fragile the ecosystem is and how flowers and insects work together to make everything better This flight is a metaphor for the trips of discovery that lie ahead if we are willing to try new things and see things from different points of view This part does a great job of showing a curious mind and a strong desire to learn It helps kids understand how big and different the world is and encourages them to look beyond where they are right now Lila s happiness as she looks down at the garden from above is a touching reminder of how amazing nature is and how important it is to protect it Children learn to appreciate the beauty of nature understand their place in it and understand that even the tiniest species like bumblebees are important in the bigger picture through her eyes The Flight of the Bumblebee makes Lila s trip better by teaching her about ecology how important it is to see things from different points of view and how amazing it is when different species work together This chapter soars both literally and figuratively It shows kids that the world is a big beautiful place full of lessons and gifts just waiting to be found
