The Lady and the Virgin Penny Schine Gold,2010-01-15 Penny Schine Gold provides a bold analysis of key literary and artistic images of women in the Middle Ages and the relationship between these images and the actual experience of women She argues that the complex interactions between men and women as expressed in both image and experience reflect a common pattern of ambivalence and contradiction Thus women are seen as both helpful and harmful powerful and submissive and the actuality of women s experience encompasses women in control and controlled autonomous and dependent Vividly recreating the rich texture of medieval life Gold effectively and eloquently goes beyond a simple equation of social context and representation In the process she challenges equally simple judgments of historical periods as being either good or bad for women The Lady and the Virgin presents its findings in a form that should attract students as well as their instructors The careful and controlled use of so many different kinds of sources offers us a valuable medieval case study in the inner relationship between the segments of society and its ethos or value system Joel T Rosenthal The History Teacher Something of a tour de force in an interdisciplinary approach to history Jo Ann McNamara Speculum A well written extremely well researched book The Lady and the Virgin is useful readable and well informed R Howard Bloch Modern Philology

Old French Narrative Cycles Luke Sunderland,2010 This is a study of four colossal medieval works the Cycle de Guillaume d Orange the Vulgate Cycle the Prose Tristan and the Roman de Renart that are normally considered separately By placing them side by side for analysis Luke Sunderland is able to argue for an aesthetic of cyclicity that cuts across genre He combines detailed readings of the narrative infrastructure of each cycle with attention to the shifts and transformations that come with successive acts of rewriting Book Jacket

The New Crusades Emran Qureshi,Michael A. Sells,2003-11-26 Not since the Crusades of the Middle Ages has Islam evoked the degree of fear hostility and ethnic and religious stereotyping that is evident throughout Western culture today As conflicts continue to proliferate around the globe the perception of a colossal unyielding and unavoidable struggle between Islam and the West has intensified These numerous conflicts both actual and ideological have revived fears of an ongoing clash of civilizations an intractable and irreconcilable conflict of values between Western cultures and an Islam that is portrayed as hostile and alien The New Crusades takes head on the idea of an emergent Cold War between Islam and the West It explores the historical political and institutional forces that have raised the specter of a threatening and monolithic Muslim enemy and provides a nuanced critique of much received wisdom on the topic particularly the clash of civilizations theory Bringing together twelve of the most influential thinkers in Middle Eastern and religious studies including Edward Said Roy Mottahedeh and Fatema Mernissi this timely collection confronts such depictions of the Arab Islamic world showing their inner workings and how they both empower and shield from scrutiny Islamic radicals who operate from similar paradigms of inevitable and absolute

conflict **The Chansons de Geste in the Age of Romance** Sarah Kay, 1995 This is a major reassessment of the relation between the medieval French chansons de geste and the romance genre Critics have traditionally seen romance as a superior development of the chanson de geste The chanson de geste are seen as formulaic composed from a public fund of pre-existent and primarily oral narratives and motifs romance on the other hand is seen as a more sophisticated product of a newly literary story telling line with the more complex social and political conditions of the time Sarah Kay rejects this developmental model of literary history and through detailed readings of large numbers of texts from the well known Renaut de Montauban or Raoul de Cambrai to the unjustly neglected Doon de la Roche or Orson de Beauvais reveals the simultaneity of the chansons de geste and romance in medieval culture Drawing tellingly on recent literary and feminist theory Kay argues that the chanson de geste and romance are engaged in a productive and telling dialogue moreover each genre illuminates the political unconscious of the other those political conflicts and contradictions that the text attempts to evade and disguise In particular Kay contends that romance brings with it new forms of sexism and patriarchy forms much closer to those of the present and that these need to be read against the politics of sexual difference inscribed in chansons de geste
