Narratives of Nostalgia and Repair in American Comics and Literature Aanchal Vij, 2025-08-21 Through a study of both novels and comic books of 20th and 21st century this book claims that it is not possible to create any narrative of exceptionalism without also manufacturing a sense of nostalgia for a past that may or may not have existed Acts of personal or historical repair are central to such nostalgia and symptomatic of a desire to both escape and confront difficult pasts The myth of American exceptionalism is one such narrative of nostalgia that in its conception of damage and acts of repair disables histories Through works by Michael Chabon Art Spiegelman Philip Roth Alan Moore and Ta Nehisi Coates this book reframes the idea of heroism and locates it outside of the hegemonic narrative of American exceptionalism This book puts comics studies and literature in dialogue with disability studies to argue that an able history just like an able body is a myth The figure of the superhero or the trope of heroism is central to the moments of historical repair as well as the identity politics of who repairs the damage The corpus illustrates how American escapism and counterfactual conception of a nation s past can prolong the trauma of beleaguered communities cultures bodies and histories This book reveals how prostheticising one version of history can amputate another there is no narrative of exceptionalism that is also not simultaneously a narrative of disability

Central to its overall theme is an investigation of how individual and collective violence affect one's capacity to remember, to act, and to love; how violence can challenge theological understandings of grace; and even how the traumatic experience of Jesus' death is remembered. Jones focuses on the long-term effects of collective violence on abuse survivors, war veterans, and marginalized populations, and the discrete ways in which grace and redemption may be exhibited in each context. At the heart of each essay are two deeply interrelated faith claims that are central to Jones's understanding of Christian theology: 1. We live in a world profoundly broken by violence, and 2. God loves this world and desires that suffering be met by words of hope, love, and grace. This timely and relevant cutting-edge book is the first trauma study to directly take into account theological issues. *Handbook on 3D3C Platforms* Yesha Sivan, 2015-11-04 This book presents 3D3C platforms—three-dimensional systems for community creation and commerce.
