The Essence Of Humanism Free Thought Versus Relig:

The Essence of Humanism Glenn M. Hardie, 2004-10-25 The book is arranged in two Parts Part One deals with the principles and practices of Humanism and Free Thought Part Two deals with the reasons why many people hold Religious Beliefs and reviews many major cosmic views both theistic and non theistic held by such people There is also an introductory Prologue to the subject matter and an Epilogue which addresses some of the more controversial issues raised in both Parts The book concludes with some Appendices such as names of various associations and publications of interest to humanists a comprehensive bibliography and a detailed index Reasoner Journal of Freethought and Positive Philosophy ,1854 **The Oxford Handbook of Humanism** Anthony B. Pinn, 2021 As a system of thought that values human needs and experiences over supernatural concerns humanism has gained greater attention amid the rapidly shifting demographics of religious communities This outlook has taken on global dimensions with activists artists and thinkers forming a humanistic response not only to religion but to the pressing social and political issues of the 21st century The Oxford Handbook of Humanism aims to explore the subject by analyzing its history its philosophical development and its influence on culture It will also discuss humanism as a global phenomenon an approach that has often been neglected in more Western focused works Dictionary Of Atheism Skepticism & Humanism Bill Cooke, 2009-12-30 In the tradition of Voltaire s Philosophical Dictionary Ambrose Bierce s Devil s Dictionary and Joseph McCabe s Rationalist Encyclopedia this accessible dictionary addresses the contemporary need for a reference book that succinctly summarizes the key concepts current terminology and major contributions of influential thinkers broadly associated with atheism skepticism and humanism In the preface author Bill Cooke notes that his work is intended for freethinkers in the broadest sense of the word people who like to think for themselves and not according to the preplanned routes set by others This dictionary will serve as a guide for all those people striving to lead fulfilling morally responsible lives without religious belief Readers are offered a wide range of concepts from ancient well known notions such as God free will and evil to new concepts such as eupraxsophy Also included are current buzzwords that have some bearing on the freethought worldview such as metrosexual The names of many people whose lives or work reflect freethought principles form a major portion of the entries Finally a humanist calendar is included on which events of interest to freethinkers are noted This unique accessible and highly informative work will be a welcome addition to the libraries of open minded people of all philosophic persuasions **Humanism: In Command or in Crisis?** Michael A. Schuler, 2023-08-31 According to bestselling historian Yuval Noah Harari today s average American has their foot in three ideological camps nationalism free market capitalism and humanism The first two might seem obvious but the third It s entirely possible that most who qualify for that label would be hard pressed to explain its meaning much less use it self descriptively This book is designed to serve two important purposes First to provide an accessible resource for anyone curious about the humanist tradition and the arguments advanced by leading contemporary proponents Second to address

what the author believes is a critical question for our time the era of the Anthropocene Is humanism s seemingly benign package of values at least partially responsible for some of the world s most pressing problems To answer the last question Schuler draws from an eclectic collection of commentators including life scientists spiritual writers public intellectuals technologists novelists and even poets In the end this wide ranging survey will help the reader determine whether humanism makes sense for them

Max Stirner's Dialectical Egoism John F. Welsh,2010-01-01 Max Stirner 1806 1856 is recognized in the history of political thought because of his egoist classic *The Ego and Its Own* Stirner was a student of Hegel and a critic of the Young Hegelians and the emerging forms of socialist and communist thought in the 1840s Max Stirner s *Dialectical Egoism A New Interpretation* examines Stirner s thought as a critique of modernity by which he meant the domination of culture and politics by humanist ideology In Stirner s view humanity is the supreme being of modernity and humanism is the prevailing legitimization of social and political domination Welsh traces Stirner s thought from his early essays to *The Ego and Its Own* and Stirner s responses to his critics He also examines how Benjamin Tucker James L Walker and Dora Marsden applied Stirner s dialectical egoism to the analysis of a the transformations of capitalism b culture ethics and mass psychology and c feminism socialism and communism All three viewed Stirner as a champion of individuality against the collectivizing and homogenizing forces of the modern world Welsh also takes great care to dissociate Stirner s thought from that of the other great egoist critic of modernity Friedrich Nietzsche He argues that the similarities in the dissidence of Stirner and Nietzsche are superficial The book concludes with an interpretation of Stirner s thought as a form of dialectical egoism that includes a a multi tiered analysis of culture society and individuality b the basic principles of Stirner s view of the relationship between individuals and social organization and c the forms of critique he employs Stirner s critique of modernity is a significant contribution to the growing literature on libertarianism dialectical analysis and post modernism

Christian and Humanist Foundations for Statistical Inference Andrew M. Hartley,2007-12-01 The *Philosophy of the Law Idea* PLI analyzes the manner in which religious beliefs control scientific theorizing Religious beliefs control philosophical overviews of reality Overviews of reality also called ontologies try to discover and disclose the essential nature of reality They are concerned with what kinds of things exist and with the connections between the various types of properties and laws in human experience Among such overviews are the biblically consistent overview provided by the PLI and certain humanist mathematicist and subjectivist overviews The science of statistical inference seeks to evaluate the credibility of scientific hypotheses given empirical data This essay reviews various popular paradigms or systems of theories concerning the ways that credibility may be evaluated and identifies some ways that these religiously controlled overviews of reality have in turn controlled statistical paradigms In particular one paradigm harmonizes with the PLI s overview another with the subjectivist overview and two others with the mathematicist overview

Religion, Rationality and Community Robert Gascoigne,2012-12-06 This study is an attempt to examine the relationships between religious belief and the

humanism of the Enlightenment in the philosophy of Hegel and of a group of thinkers who related to his thought in various ways during the 1840 s It begins with a study of the ways in which Hegel attempted to evolve a genuinely Christian humanism by his demonstration that the modern understanding of man as a free and rational subject derived its strength and validity from the union of God and human existence in the incarnation The rest of this study is concerned with two different forms of opposition to Hegel first the critical discipleship of the Young Hegelians and Moses Hess who insisted that Hegel s notion of Christian humanism was false because religious belief was necessarily inimical to a clear consciousness of social evil and the determination to abolish it second the religious opposition to the Enlightenment in the thought of Schelling and Kierkegaard which emphasized God s transcendence to human reason and the insignificance of secular history In the years leading up to the revolution of 1848 Hegel s synthesis was rejected in favour of the assertion of atheistic humanism or religious otherworldliness Chapter One after discussing the young Hegel s critique of the social and political effects of Christianity examines the union of religious belief speculative philosophy and the rational state in Hegel s mature system

The Truth Seeker ,1928 *Deconstructing Transhumanism* Michael G. Sherbert,2025-09-30 Deconstructing Transhumanism A Religion Without Religion challenges the widely held view that transhumanism a movement advocating for the enhancement of human life through technology is purely secular and scientific Instead this groundbreaking study reveals how transhumanist thought remains deeply shaped by religious ideas particularly those rooted in Christianity Drawing on the philosophy of Jacques Derrida Michael G Sherbert explores how religious concepts like the sacred messianism salvation and transcendence quietly persist within transhumanist visions of the future often without reflection on the potential dangers they carry From artificial intelligence to the dream of digital immortality this book uncovers how technological aspirations often mirror age old religious hopes Through a careful analysis of leading figures such as Ray Kurzweil David Pearce and Nick Bostrom Sherbert shows that even the most futuristic goals often retain hidden religious structures what Derrida calls a religion without religion Spanning philosophical inquiry ethical reflection and cultural critique Deconstructing Transhumanism invites readers to rethink the assumptions behind some of today s most influential ideas about technology progress and the future It offers a timely examination of the religious undercurrents shaping Western technological imaginaries urging greater awareness of the powerful and sometimes perilous narratives we carry into our increasingly high tech future

Readings in Western Religious Thought: The Middle Ages through the Reformation Patrick V. Reid, 1987 [Humanist Outlook](#) , 1993 **Secularity and Non-Religion** Elisabeth Arweck, Stephen Bullivant, Lois Lee, 2016-03-16 The present collection brings together a set of essays which shed light on recent research into non religion secularity and atheism topics which have been emerging as important areas of current research in a number of different disciplines The essays cover a wide span in terms of the various stances they discuss secular atheist non religious the settings in which these topics are relevant families wider society politics demography and the different perspectives which relate to socialisation and social relations belief acquisition discrimination Written by authors from a variety of national settings and academic disciplines the collection presents a range of methodologies combining theoretical approaches with quantitative and qualitative research findings The authors address issues related to an important academic field which had been neglected for some time but which has been made relevant by the increasing percentage of people professing a non religious stance This collection represents a major contribution to this area of
