**The Ethics of Illegal Action and Other Essays** D. C. S. Oosthuizen, 1973      **Dictionary of Ethics, Theology and Society** Paul A. B. Clarke, Andrew Linzey, 2013-11-05 This Dictionary provides a unique and groundbreaking survey of both the historical and contemporary interrelations between ethics theology and society In over 250 separately authored entries a selection of the world s leading scholars from many disciplines and many denominations present their own views on a wide range of topics Arranged alphabetically entries cover all aspects of philosophy theology ethics economics politics and government Each entry includes a concise definition of the term a description of the principal ideas behind it analysis of its history development and contemporary relevance a detailed bibliography giving the major sources in the field The entire field is prefaced by an editorial introduction outlining its scope and diversity Selected entries include Animal Rights Capital Punishment Communism Domestic Violence Ethics Evil Government Homophobia Humanism Liberation Theology Politics Pornography Racism Sexism Society Vivisection Women s Ordination      **Philosophical Theologies in South Africa: Genealogies, Traditions, and Speculations** Khegan M. Delport, 2024-10-22 The relationship between philosophy and theology has been a live question since the origins of Christianity Attending to a genealogy of how theology and philosophy have been related is important for conceiving their ongoing engagement However the question of context of where they are so related and practiced has only recently begun to be reflected upon The current volume aims to make a contribution to this recounting by focusing on some of the ways theology and philosophy have been and are being interfaced in the Global South and more specifically in South Africa      [The Morality of Brutality](#) Michael Spence Lowdell Morris, 1981      **God in South Africa** Albert Nolan, 2024-02-01 This is a reprint of the 1988 publication which is now out of print The book was written while Albert Nolan was in hiding during the State of Emergency in South Africa This volume includes reviews of the book used with permission from the South African Grace and Truth journal from 1990 The author believes that in South Africa the practice of the struggle is the practice of faith and to show this he reviews the central themes of the Christian faith as found in the Old Testament and the preaching of Jesus the nature of sin and salvation and of God s action in the world He also faces the dilemma of Christians who can no longer support the apartheid state but are uncertain where the liberation struggle will lead Like his best selling Jesus before Christianity God in South Africa is a contextual theology a theology rooted in the painful conversion of a church to the cause of liberation It can be regarded the author says as a conversation between South African Christians but out of that conversation comes a challenge to Christians everywhere to discover the meaning of the gospel to find God in their situation This profound book written in the 1980s to guide those seeking to deploy the gospel message against the repressive and abhorrent South African apartheid regime continues to speak powerfully to all peoples in all times and in all places It continues to show how the gospels respond to the signs of the times anywhere that people are in crisis providing the tools to build a contextualised and local theology that can preach the good news of God s liberating power

against all forms of injustice Albert Nolan South Africa s Gustavo Gutierrez revealed hope that God cares for and finds the poor and oppressed wherever they are For my own community the potential to construct a contextualised and local Ukrainian theology offers hope that the good news always challenges those who oppress and forever speaks liberation for those burdened by an unjust war and the despair found in its wake

The Routledge Companion to Christian Ethics D. Stephen Long,Rebekah L. Miles,2023-01-01 The Routledge Companion to Christian Ethics brings together two different but related disciplines the first is contemplative or theoretical asking what are the beliefs or doctrines that characterize Christianity whilst the second is practical asking what are the ethical practices that attend its teachings The movement between the theoretical and practical aspects is not however one way as doctrine and life are mutually informing In this comprehensive volume leading scholars address key topics problems and debates in

this hotly debated topic within a truly global context. Comprising over 35 chapters by a team of international contributors, the handbook is divided into three parts based on the three persons of the Trinity: God the Father, God the Son, and God the Holy Spirit. Within these sections, cutting edge issues are examined, including God and genetics, War, peace and violence, White supremacy, Creation and sexuality, Digital ethics, Transgender studies, Climate change, Immigration and refugees. Adopting a practical approach that must consider new concerns that have arisen with recent social, political, and cultural shifts, *The Routledge Companion to Christian Ethics* is essential reading for students and researchers in Christian ethics, religious ethics, and Christianity studies. The handbook will also be very useful for those in related fields such as ethics and philosophy.

*Report of the Commission of Inquiry Into South African Council of Churches* South Africa. Commission of Inquiry into South African Council of Churches, 1983      Subject Catalog, 1978 Library of Congress, 1978      **The Ethics of Destruction** Ward Thomas, 2014-06-14. Many assume that in international politics and especially in war, anything goes. Sherman famously declared war is all hell. The implication behind the maxim is that in war, there is no order, only chaos, no mercy, only cruelty, no restraint, only suffering. Ward Thomas finds that this 'anything goes' view is demonstrably wrong. It neither reflects how most people talk about the use of force in international relations, nor describes the way national leaders actually use military force. Events such as those in Europe during World War II, in the Persian Gulf War, and in Kosovo cannot be understood, he argues, until we realize that state behavior even during wartime is shaped by common understandings about what is ethically acceptable and unacceptable. Thomas makes extensive use of two cases: the assassination of foreign leaders and the aerial bombardment of civilians, to trace the relative influence of norms and interests. His insistence on interconnections between ethical principle and material power leads to a revised understanding of the role of normative factors in foreign policy and the ways in which power and interest shape the international system.      **Anglicans Against Apartheid, 1936-1996** Bob Clarke, 2008      *The Handbook of Information and Computer Ethics* Kenneth E. Himma, Herman T. Tavani, 2008-06-23. This handbook provides an accessible overview of the most important issues in information and computer ethics. It covers foundational issues and methodological frameworks, theoretical issues affecting property, privacy, anonymity, and security; professional issues and the information-related professions; responsibility issues and risk assessment; regulatory issues and challenges; access and equity issues. Each chapter explains and evaluates the central positions and arguments on the respective issues and ends with a bibliography that identifies the most important supplements available on the topic.
