Barkcloth Fanny Wonu Veys, 2017-01-26 Tongan barkcloth made from the inner bark of the paper mulberry tree still features lavishly in Polynesian ceremonies all over the world Yet despite the attention paid to this textile by anthropologists and art historians alike little is known about its history Providing a unique insight into Polynesian material culture this book explores barkcloth's rich cultural history and argues that its manufacture decoration and use are vehicles of creativity and female agency Based on twelve years of extensive ethnographic and archival research the book uncovers stories of ceremony gender the senses religion and nationhood from the 17th century up to the present day Placing the materiality of textiles at the heart of Tongan culture Veys reveals not only how barkcloth was and continues to be made but also how it defines what it means to be Tongan Extending the study to explore the place of barkcloth in the European imagination she examines international museum collections of Tongan barkcloth from the UK and Italy to Switzerland and the USA addressing the bias of the European gaze and challenging traditional gendered understandings of the cloth A nuanced narrative of past and present barkcloth manufacture designs and use Unwrapping Tongan Barkcloth demonstrates the importance of the textile to both historical and contemporary Polynesian culture

Altered Ecologies Simon Haberle, Janelle Stevenson, Matthew Prebble, 2010-11-01 Like a star chart this volume orientates the reader to the key issues and debates in Pacific and Australasian biogeography palaeoecology and human ecology A feature of this collection is the diversity of approaches ranging from interpretation of the biogeographic significance of plant and animal distributional patterns pollen analysis from peats and lake sediments to discern Quaternary climate change explanation of the patterns of faunal extinction events the interplay of fire on landscape evolution and models of the environmental consequences of human settlement patterns The diversity of approaches geographic scope and academic rigor are a fitting tribute to the enormous contributions of Geoff Hope As made apparent in this volume Hope pioneered multidisciplinary understanding of the history and impacts of human cultures in the Australia Pacific region arguably the globe's premier model systems for understanding the consequences of humans colonization on ecological systems The distinguished scholars who have contributed to this volume also demonstrate Hope's enduring contribution as an inspirational research leader collaborator and mentor Terra Australis leave no doubt that history matters not only for land management but more importantly in alerting settler and indigenous societies alike to their past ecological impacts and future environmental trajectories

Art and Exoticism Paul van der Grijp, 2009 This book is about the yearning for authenticity via art and exoticism Exoticism related to art cannot be reduced to primitivism alone and also encompasses a search in one s own unconsciousness among other things The yearning for authenticity through exoticism is explored in a cultural anthropological perspective in the realms of Western philosophy capita selecta and colonial literature currents of art and in the appreciation of Western art conceptions in non Western societies An array of firsthand ethnographic illustrations of art production in Asian and Pacific societies demonstrates complementary processes in the non Western world A major hypothesis is that exoticism is closely related to and often motivated by eroticism a reason why exoticism should be considered as gendered Case studies of the falsification of authentic art the de sacralization of sacred objects and of the use of natural materials deriving from endangered species complete the analysis

Nontimber Forest Products in the United States Eric T. Jones, Rebecca Jean McLain, James F. Weigand, 2002 A quiet revolution is taking place in America s forests Once seen primarily as stands of timber our woodlands are now prized as a rich source of a wide range of commodities from wild mushrooms and maple sugar to hundreds of medicinal plants whose uses have only begun to be fully realized Now as timber harvesting becomes more mechanized and requires less labor the image of the lumberjack is being replaced by that of the forager This book provides the first comprehensive examination of nontimber forest products NTFPs in the United States illustrating their diverse importance describing the people who harvest them and outlining the steps that are being taken to ensure access to them As the first extensive national overview of NTFP policy and management specific to the United States it brings together research from numerous disciplines and analytical perspectives such as economics mycology history ecology law entomology forestry geography and anthropology in order to provide a cohesive picture of the current and potential role of NTFPs The contributors review the state of scientific knowledge of NTFPs by offering a survey of commercial and noncommercial products an overview of uses and users and discussions of sustainable management issues associated with ecology cultural traditions forest policy and commerce They examine some of the major social economic and biological benefits of NTFPs while also addressing the potential negative consequences of NTFP harvesting on forest ecosystems and on NTFP species populations Within this wealth of information

are rich accounts of NTFP use drawn from all parts of the American landscape from the Pacific Northwest to the Caribbean. From honey production to a review of nontimber forest economies still active in the United States such as the Ojibway harvest of plants recounted here the book takes in the whole breadth of recent NTFP issues including ecological concerns associated with the expansion of NTFP markets and NTFP tenure issues on federally managed lands. No other volume offers such a comprehensive overview of NTFPs in North America. By examining all aspects of these products it contributes to the development of more sophisticated policy and management frameworks for not only ensuring their ongoing use but also protecting the future of our forests.

Changing Contexts, Shifting Meanings Elfriede Hermann, 2011-09-30. This book sheds new light on processes of cultural transformation at work in Oceania and analyzes them as products of interrelationships between culturally created meanings and specific contexts. In a series of inspiring essays noted scholars of the region examine these interrelationships for insight into how cultural traditions are shaped on an ongoing basis. The collection marks a turning point in the debate on the conceptualization of tradition. Following a critique of how tradition has been viewed in terms of dichotomies like authenticity vs inauthenticity contributors stake out a novel perspective in which tradition figures as context bound articulation. This makes it possible to view cultural traditions as resulting from interactions between people, their ideas, actions and objects and the ambient contexts. Such interactions are analyzed from the past down to the Oceanian present with indigenous agency being highlighted. The work focuses first on early encounters initially between Pacific Islanders themselves and later with the European navigators of the late eighteenth and early nineteenth centuries to clarify how meaningful actions and contexts interrelated in the past. The present day memories of Pacific Islanders are examined to ask how such memories represent encounters that occurred long ago and how they influenced the social, political, economic and religious changes that ensued. Next contributors address ongoing social and structural interactions that social actors enlist to shape their traditions within the context of globalization and then the repercussions that these intersections and intercultural exchanges of discourses and practices are having on active identity formation as practiced by Pacific Islanders. Finally two authorities on Oceania who themselves move in the intersecting space between anthropology and history discuss the essays and add their own valuable reflections. With its wealth of illuminating analyses and illustrations *Changing Contexts, Shifting Meanings* will appeal to students and scholars in the fields of cultural and social anthropology, history, art history, museology, Pacific studies, gender studies, cultural studies and literary criticism.

Polynesian Herbal Medicine W. Arthur Whistler, 1992. The aim of this book is to present a picture of past and present Polynesian medicinal plants. Although several books have been published on herbal medicine in Polynesia these are either limited in geographic scope mostly to Hawai'i or

are unscientific in basis Restricting the study of herbal medicine to a single Polynesian island or archipelago is a disadvantage because the early accounts of medicinal practices are so sketchy A more comprehensive approach is rewarding because so much can be learned from the similarities among the various Polynesian cultures A scientific approach is necessary because of the nature of the subject medicine and plants To establish a comprehensive and scientific basis for this book three types of research were conducted 1 an extensive review of the literature on Polynesia 2 interviews with scores of Polynesian healers in Hawai i Samoa Tonga Tahiti the Cook Islands and Tokelau and 3 botanical collecting work in Polynesia over a twenty year period involving over forty research trips to the South Pacific from the Preface Pacific Studies ,1995

Embracing the Track of Appearance: An Psychological Symphony within **The Ethnobotany Of Tonga The Plants Their Tongan Names And Their Uses**

In a world consumed by displays and the ceaseless chatter of instantaneous transmission, the melodic beauty and mental symphony produced by the prepared term often disappear in to the back ground, eclipsed by the persistent noise and interruptions that permeate our lives. Nevertheless, nestled within the pages of **The Ethnobotany Of Tonga The Plants Their Tongan Names And Their Uses** a charming literary treasure filled with organic feelings, lies an immersive symphony waiting to be embraced. Crafted by a masterful musician of language, this interesting masterpiece conducts visitors on a psychological journey, well unraveling the hidden songs and profound influence resonating within each carefully constructed phrase. Within the depths of this poignant examination, we shall explore the book is central harmonies, analyze its enthralling writing design, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
