The Ethnography Of Variation Selected Writings On Pidgins And Creoles

John A. Holm

The Ethnography Of Variation Selected Writings On Pidgins And Creoles:

The Ethnography of Variation Hugo Schuchardt, 1979 **The English Languages** Thomas Burns
McArthur, 1998-04-23 Plural monolithic legion Tom McArthur explores the nature of English in its local and global contexts

Pidgins and Creoles: Volume 1, Theory and Structure John A. Holm, 1988-05-05 This first volume of Holm's major survey of pidgins and creoles provides an up to date and readable introduction to a field of study that has become established only in the past few decades Written for both students and general readers with a basic knowledge of linguistics the book's original perspective will also attract specialists in the field seeking a broad overview of the linguistic relationships among these languages Creolized or restructured versions of English French Spanish Dutch Portuguese and other languages arose during European colonial expansion These resulted in such creoles as Jamaican Haitian Papiamentu and some one hundred others as well as such semi creoles as Afrikaans non standard Brazilian Portuguese Papiamentu and American Black English Scholars have tended to work on particular language varieties in relative isolation making comparative research into the genesis development and structure of creoles difficult In writing this book Holm draws on broad studies of many languages to make clear how far reaching creoles similarities are and to challenge current linguistic theories on creoles and pidgins The emphasis of this volume is largely empirical rather than descriptive Its core is a comparative study of creoles based on European languages in Africa and the Caribbean that demonstrates the striking similarities among the languages in terms of their lexical semantics phonology and syntax A forthcoming volume provides a socio historic overview of variety development and text examples with translations of the restructured languages *An Introduction to Pidgins and Creoles* John Holm, 2000 A clear and concise introduction to the study of how new languages come into being **Pidgin and Creole Languages** Suzanne Romaine, 2017-09-08 This book defines and describes the linguistic features of these languages and considers the dynamic developments that bring them into being and lead to changes in their structure **The Handbook of Pidgin and Creole Studies** Silvia Kouwenberg, John Victor Singler, 2009-02-11 Featuring an international contributor list this long awaited and broad ranging collection examines the key issues topics and research in pidgin and creole studies A comprehensive reference work exploring the treatment of core aspects of pidgins creoles focusing on the questions that animate creole studies Brings together newly commissioned entries by an international contributor team Accessibly structured into four sections covering the character of pidgins and creoles the relation of pidgins creoles to other language phenomena and other languages issues in pidgin creole genesis and the role of pidgins creoles in society Provides a valuable resource for students scholars and researchers working across a number linguistic disciplines including sociolinguistics historical linguistics and the anthropology of language **Pidgins and Creoles: Volume 2, Reference Survey** John A. Holm, 1988 An overview of the socio historical development of some one hundred different pidgins and creoles *Issues in the Study of Pidgin and Creole Languages* Claire Lefebvre, 2004-01-01 The content of this book is concerned with various

issues at stake in Creole studies that are also of interest for general linguistics These include the general issue of Creole genesis and of the accelerated linguistic change that characterizes the emergence of these languages as compared to ordinary cases of linguistic change the problem of the development of morphology in incipient Creoles the problem of the validity of data in linguistic analysis the issue of multifunctionality as regards the concept of lexical entry the question of whether Creole languages are semantically more transparent than languages not known as Creoles the issue of whether Creole languages constitute a typologically identifiable class and the problem of the interaction between the processes involved in the emergence and development of Creole languages The purpose of this book is to present the major debates that are currently taking place in the field of Creole studies evaluate the arguments against data mainly drawn from Haitian Creole and address the issues at stake within the framework of new paradigms The various positions on each issue are summarized on the basis of a thorough review of the literature

Shades of Decolonial Voices in Linguistics

Sinfree Makoni, Cristine Severo, Ashraf Abdelhay, Anna Kaiper-Marquez, Višnja Miložićić, 2023-09-12 This book argues that Linguistics in common with other disciplines such as Anthropology and Sociology has been shaped by colonization It outlines how linguistic practices may be decolonized and the challenges which such decolonization poses to linguists working in diverse areas of Linguistics It concludes that decolonization in Linguistics is an ongoing process with no definite end point and cannot be completely successful until universities and societies are decolonized too In keeping with the subject matter the book prioritizes discussion debate and the collaborative creative production of knowledge over individual authorship Further it mingles the voices of established authors from a variety of disciplines with audience comment and dialogue to produce a challenging and inspiring text that represents an important step along the path it attempts to map out

Migrating

Words, Migrating Merchants, Migrating Law, 2019-11-26 Migrating Words Migrating Merchants Migrating Law examines the connections that existed between merchants journeys the languages they used and the development of commercial law in the context of late medieval and early modern trade The book edited by Stefania Gialdroni Albrecht Cordes Serge Dauchy Dave De ruyscher and Heikki Pihlajamäki takes advantage of the expertise of leading scholars in different fields of study in particular historians legal historians and linguists Thanks to this transdisciplinary approach the book offers a fresh point of view on the history of commercial law in different cultural and geographical contexts including medieval Cairo Pisa Novgorod Lbeck early modern England Venice Bruges nineteenth century Brazil and many other trading centers Contributors are Cornelia Aust Guido Cifoletti Mark R Cohen Albrecht Cordes Maria Fusaro Stefania Gialdroni Mark H berlein Uwe Israel Bart Lambert David von Mayenburg Hanna Sonkajärvi and Catherine Squires

Diachronic Syntax Ian Roberts, 2007 This text considers syntactic change from the perspective of generative theory It explains how diachronic generative theory may be used in the study of linguistic change in different languages shows how diachronic generative syntax links with the study of first language acquisition computational linguistics sociolinguistics

The Lingua Franca

Natalie Operstein, 2021-11-17 Whose name is hidden behind the anonymity of the key publication on Mediterranean Lingua Franca What linguistic reality does the label Lingua Franca conceal These and related questions are explored in this new book on an enduringly important topic The book presents a typologically informed analysis of Mediterranean Lingua Franca as documented in the Dictionnaire de la langue franque ou petit mauresque which provides an important historical snapshot of contact induced language change Based on a close study of the Dictionnaire in its historical and linguistic context the book proposes hypotheses concerning its models authorship and publication history and examines the place of the Dictionnaire s Lingua Franca in the structural typological space between Romance languages on the one hand and pidgins on the other It refines our understanding of the typology of contact outcomes while at the same time opening unexpected new avenues for both linguistic and historical research

Linguistics Encyclopedia Kirsten Malmkjaer, 2003-09-01 Alphabetically arranged encyclopedia contains 80 main articles covering 150 sub areas of the discipline discussing their development methodology terminology theoretical issues and controversies from syntax to speech therapy

Linguistics and Biblical Hebrew Walter Ray Bodine, 1992 The essays in this volume arose out of the Society of Biblical Literature section on linguistics and Biblical Hebrew and have been selected to provide a summary and statement of the state of the question with regard to a number of areas of investigation The sixteen articles are organized into sections on phonology morphology syntax semantics discourse analysis historical comparative linguistics and graphemics

Cambridge and the Torres Strait Anita Herle, Sandra Rouse, 1998-09-24 Centenary volume of the Torres Strait Expedition suggesting new ways of looking at its work

Substrata Versus Universals in Creole Genesis Pieter Muysken, Norval Smith, 1986-01-01 Two of the most prominent hypotheses about why the structures of the Creole languages of the Atlantic and the Pacific differ are the universalist and the substrate hypotheses The universalist hypothesis claims essentially that the particular grammatical properties of Creole languages directly reflect universal aspects of the human language capacity and thus Creole genesis involves then the stripping away of the accretions of language history The substrate hypothesis claims on the other hand that creole genesis results from the confrontation of two systems the native languages of the colonized groups and the dominant colonial language and that the native language leaves strong traces in the resulting Creole The contributions of this ground breaking collection present new and historical research on the old debate of substrata versus universals in Creole languages

Progression and Regression in Language Kenneth Hylden, Ake Viberg, 1993 First published in 1994 this crosslinguistic collection looks at changes and developments in language involving gain or loss in structural complexity or utility The dynamics of these processes of progression and regression are examined at the societal and the individual level and the two are compared In the former the focus is on the social and cultural forces that influence groups of speakers to create new languages or abandon old ones In the latter the acquisition and attrition of both first and second languages are considered Questions raised include Can parallel structural patterning be observed in whole languages and in the individual

s version of a language Is there parallelism between progression and regression Can changes occurring in progression and regression be interpreted in a typological framework These are addressed from sociological neuropsychological and linguistic perspectives

Language Contact in a Postcolonial Setting Eric A. Anchimbe, 2012-10-01 This timely book brings together research on the features and evolution of Cameroon English and Cameroon Pidgin English approached from a variety of innovative multilingual frameworks that focus on the emergence of mother tongue speakers The authors illustrate how language and population contact history colonialism multilingualism translation and indigenization have contributed to shaping the norms of postcolonial Englishes and Pidgins Employing naturalistic data the volume provides a new fascinating perspective that better situates and supplements existing research in the fields of African Englishes and Creolistics It is particularly of key interest to sociolinguists contact linguists Africanists Anglicists creolists and historical linguists

Principles of Historical Linguistics Hans Henrich Hock, 2021-10-25 Historical linguistic theory and practice consist of a large number of chronological layers that have been accepted in the course of time and have acquired a permanence of their own These range from neogrammarian conceptualizations of sound change analogy and borrowing to prosodic lexical morphological and syntactic change and to present day views on rule change and the effects of language contact To get a full grasp of the principles of historical linguistics it is therefore necessary to understand the nature of each of these layers This book is a major revision and reorganization of the earlier editions and adds entirely new chapters on morphological change and lexical change as well as a detailed discussion of linguistic palaeontology and ideological responses to the findings of historical linguistics to this landmark publication

Vernacular Universals and Language Contacts Markku Filppula, Juhani Klemola, Heli Paulasto, 2009-01-13 Non standard varieties of English all over the world share a striking number of grammatical features which are hard to explain because of the widely differing sociolinguistic and historical backgrounds of these varieties Contributors to this book discuss two major factors behind the shared features vernacular universals and contact induced change
