**History of the European Family: Family life in early modern times (1500-1789)** David I. Kertzer, Marzio Barbagli, 2001-01-01 This opening volume of a three part history of the family in Europe examines the material conditions of family life housing diet and domestic organisation and the economic and social factors that influenced its development

*Russia in the European Context, 1789-1914* S. McCaffray, M. Melancon, 2005-05-12 This volume surveys Nineteenth century Russian society and economy and finds that Russian institutions practices and ideas fit the general European pattern for that period of rapid change Even apparently distinctive Russian features deepen our understanding of Europeaness In the Nineteenth century there were still many different ways to be European and excessive generalization based on the experiences of one or two countries obscures the great diversity that still characterized European civilization Moreover these essays bring to light several points at which Russian legislation and thinking provided models and examples for others to follow The authors focus on key elements of how Russians envisaged and constructed their economy and society This is an important contribution that increases understanding of Russian history at a time when Russia s relationship with the West is again debated

**European Cosmopolitanism** Gurminder Bhambra, John Narayan, 2016-10-26 This book provides a fresh examination of the cosmopolitan project of post war Europe from a variety of perspectives It explores the ways in which European cosmopolitanism can be theorized differently if we take into account histories which have rarely been at the forefront of such understandings It also uses neglected historical resources to draw out new and unexpected entanglements and connections between understandings of European cosmopolitanism both in Europe and elsewhere The final part of the book places European cosmopolitanism in tension with contemporary postcolonial configurations around diaspora migration and austerity Overall it seeks to draw attention to the ways in which Europe s posited others have always been very much a part of Europe s colonial histories and its postcolonial present

The Rule of Law in the European Union Theodore Konstadinides, 2017-09-21 This is a book about the internal dimension of the rule of law in the European Union EU The EU is a community based on law which adheres to and promotes a set of common values between the Member States The

preservation of these values such as legality legal certainty prohibition of arbitrariness respect for fundamental rights is pivotal to the success of European integration and the well being of the individuals within it Yet the EU rule of law suffers from an imposter syndrome and has been the subject of criticism ie that it is only part of the EU agenda in order to legitimise sweeping new powers and policies and that it plays little or no role in promoting a culture of compliance for either deviant EU Institutions or for Member States This book will examine whether the EU rule of law deserves those criticisms It will offer an analytical guide to the EU rule of law by conceptualising it and locating it within the sources of EU law It will then ask whether the EU is based on the rule of law a question which is answered in the affirmative but one which has to be considered in the context of compliance and the overall effectiveness of the EU enforcement acquis It is argued that while the EU means well in its aim to preserve unity in an increasingly diversified Europe the extent to which it can pave the way to a better world based on a transnational rule of law concept akin to good governance and improvement of citizens lives is dependent on the commitment of all European integration stakeholders to the EU project

The European Family Jacques Commaille,F. de Singly,1997-10-31 Will the European Union have its single family a European family as it will have a single currency This is the question at the origin of this book Studies of family behavior and the organization of private life among European citizens as well as of family member social status children in relation to adults parents women in relation to men and of social functions of the family for example social reproduction reveal so much convergence among European families that the reality of a European family seems inevitable and more so if one looks at foreign studies done in Australia the United States or Japan of the family in Europe However studies of the different judicial and public policy laws in the different European Union member countries lead one to refine this first impression The family does not have the same legal meaning in all places and the ways in which it is defined by law and public policy continue to differ strongly due in particular to historical factors cultural traditions and conceptions of the role of the State In order for the family to be part of the construction of a European citizenship the pluralistic nature of its political definitions will have to be recognized Putting the family into the context of evolving European integration has never been done before It was made possible in this study thanks to the joint efforts of two editors with long experience in social science studies of the family and as expert advisors to the European Commission and by the work of the best international specialists in the field This is a book intended for specialists working in the social sciences for social and government policy makers in the fields of family and social policy and for all those interested in European integration

The History of the European Family: Family life in the long nineteenth century (1789-1913) David I. Kertzer,Marzio Barbagli,2001-01-01 The penultimate volume in this series explores the effect that industrialisation new technology the growth of cities and the revolutions in transport and in communication had on the family between 1789 and 1913

Europe and Empire Massimo Cacciari,2016-01-04 The European Union and the single currency have given Europe more stability than it has known in the past thousand years yet Europe seems to be in perpetual

crisis about its global role The many European empires are now reduced to a multiplicity of ethnicities traditions and civilizations Europe will never be One but to survive as a union it will have to become a federation of islands both distinct and connected Though drawing on philosophers of Europe s past Cacciari calls not to resist Europe s sunset but to embrace it Europe will have to open up to the possibility that in few generations new exiles and an unpredictable cultural hybridism will again change all we know about the European legacy Though scarcely alive in today s politics the political unity of Europe is still a necessity however impossible it seems to achieve The European Economy since 1945 Barry

Eichengreen,2008-07-01 In 1945 many Europeans still heated with coal cooled their food with ice and lacked indoor plumbing Today things could hardly be more different Over the second half of the twentieth century the average European s buying power tripled while working hours fell by a third The European Economy since 1945 is a broad accessible forthright account of the extraordinary development of Europe s economy since the end of World War II Barry Eichengreen argues that the continent s history has been critical to its economic performance and that it will continue to be so going forward Challenging standard views that basic economic forces were behind postwar Europe s success Eichengreen shows how Western Europe in particular inherited a set of institutions singularly well suited to the economic circumstances that reigned for almost three decades Economic growth was facilitated by solidarity centered trade unions cohesive employers associations and growth minded governments all legacies of Europe s earlier history For example these institutions worked together to mobilize savings finance investment and stabilize wages However this inheritance of economic and social institutions that was the solution until around 1973 when Europe had to switch from growth based on brute force investment and the acquisition of known technologies to growth based on increased efficiency and innovation then became the problem Thus the key questions for the future are whether Europe and its constituent nations can now adapt their institutions to the needs of a globalized knowledge economy and whether in doing so the continent s distinctive history will be an obstacle or an asset Conferinta internationala Lumen (2012). Book of Abstracts , **The Lithuanian Family in its European**

**Context, 1800-1914** Dalia Leinarte,2017-06-08 This book investigates marriage and divorce in the nineteenth century European territories of the Russian Empire It uncovers the way a peasant community employed unsanctioned marital behaviour such as cohabitation and bigamy among others in order to respond to the external factors that had an impact on the family life including transmission of inheritance and household structure Lithuania was part of the Tsarist Empire until 1914 This case study reveals how under often restrictive laws and policies serfdom up to 1861 and the pervasive role of the Church in addition to deep rooted customary practices women and men manage to normalize their family life The volume is based on a wide range of archival sources and uncovers familial behaviour both from an individual and community perspectives **The Treaty on European Union (TEU)** Hermann-Josef Blanke,Stelio Mangiameli,2013-11-26 The major Commentary on the Treaty on European Union TEU is a European project that aims to contribute to the development of ever

closer conceptual and dogmatic standpoints with regard to the creation of a Europeanised research on Union law This publication in English contains detailed explanations article by article on all the provisions of the TEU as well as on several Protocols and Declarations including the Protocols No 1 2 and 30 and Declaration No 17 having steady regard to the application of Union law in the national legal orders and its interpretation by the Court of Justice of the EU The authors of the Commentary are academics from ten European states and different legal fields some from a constitutional law background others experts in the field of international law and EU law professionals This should lead to more unity in European law notwithstanding all the legitimate diversity The different traditions of constitutional law are reflected and mentioned by name thus striving for a common framework for European constitutional law

Christian Churches in European Integration Sergei A. Mudrov, 2016-06-03 All too often religion is largely ignored as a driver of identity formation in the European context whereas in reality Christian Churches are central players in European identity formation at the national and continental level Christian Churches in European Integration challenges this tendency highlighting the position of churches as important identity formers and actors in civil society Analysing the role of Churches in engaging with two specific EU issues that of EU treaty reform and ongoing debates about immigration and asylum policy the author argues that Churches are unique participants in European integration Establishing a comprehensive view of Christian Churches as having a vital role to play in European integration this book offers a substantial and provocative contribution both to our understanding of the European Union and the broader question of how religious and state institutions interact with one another

**The Concept of European Values** Sanja Ivic, 2023-07-10 The Concept of European Values Creating a New Narrative for Europe offers a philosophical analysis of the concept of European values from its origin to the present day This book rethinks European values in light of the crises economic political migration identity and pandemic that the European Union EU has faced from 2008 until today and analyzes EU initiatives to create a new narrative for Europe Sanja Ivic reexamines the concept of European values as well as the philosophical and political assumptions on which this concept is based In times of crisis the EU has shown a lack of solidarity As evidenced by Brexit the migration crisis and the pandemic crisis the EU is experiencing a clash of national and postnational norms and values Ivic argues that the EU did not react in accordance with the supranational values and principles on which it is based as stated in Article 2 of the Treaty on European Union respect for democracy human dignity freedom equality the rule of law and respect for human rights Its reaction to these crises shows a turn from postnational values which the EU advocated as a supranational political community to nationalist paradigms

**European Union Law** Damian Chalmers, Gareth Davies, Giorgio Monti, Veerle Heyvaert, 2024-03-28 This new edition sets out an account of EU law that includes not only that law's established features but captures its development in recent years and the challenges facing the European Union With dedicated new chapters on climate change data protection free movement of capital and the EU's relations with other European States topics such as the Union's response to covid 19 and the Ukraine crisis are addressed in detail As with previous editions the new edition integrates case law legislation academic materials and wider policy contributions in a way that broadens students understanding of the law and prompts greater critical reflection on the limits challenges and

possibilities of EU law It seeks to set out EU law not so much as a series of laws to be learned but as something that stimulates heavy debate about some of the most contentious and significant issues of our time

**Religion and the Public Order of the European Union** Ronan McCrea, 2010-10-07 Ronan McCrea offers the first comprehensive account of the role of religion within the public order of the European Union He examines the facilitation and protection of individual and institutional religious freedom in EU law and the means through which the Union facilitates religious input and influence over law In addition the book draws attention to the limitations on religious influence over law and politics that are required by the Union It shows the extent to which such limitations are identified as fundamental elements of the EU's public order and as prerequisites for membership The Union seeks to balance its predominantly Christian religious heritage with an equally strong secular and humanist tradition by facilitating religion as a form of cultural identity while simultaneously limiting its political influence Such balancing takes place in the context of the Union's limited legitimacy and its commitment to respect for Member State cultural autonomy Deference towards the cultural role of religion at Member State level enables culturally entrenched religions to exercise a greater degree of influence within the Union's public order than outsider faiths that lack a comparable cultural role Placing the Union's approach to religion in the context of broader historical and sociological trends around religion in Europe and of contemporary debates around secularism equal treatment and the role of Islam in Europe McCrea sheds light on the interaction between religion and EU law in the face of a shifting religious demographic
