Shaping the Future Horst Hutter,2005-12-30 Shaping the Future maps out the ascetic practices of a Neitzschean way of life Hutter structures his argument around the belief that Nietzsche despite his ostensive enmity to Platonism and Socratism understood himself to be a Socratic and someone called upon by fate to renew the Platonic task of being a philosophical legislator of modern souls culture and political society Hutter also considers the paths of reasoning opened up by Pierre Hadot in his studies of ancient philosophers as teachers of life and not just as providers of true opinions and doctrines about the world Shaping the Future applies the reasonings of Hadot to the work of Nietzsche arguing that Nietzsche himself throughout his philosophical career conceived of doctrines as never identical to philosophy itself but instead as a means of self creation that had to be related to working on oneself Hutter makes a great contribution to the study of Nietzsche and the growing

movement that sees philosophy as a practical activity and way of life

The Self Possessed Frederick M. Smith, 2006 The Self Possessed is a multifaceted diachronic study reconsidering the very nature of religion in South Asia the culmination of years of intensive research Frederick M Smith proposes that positive oracular or ecstatic possession is the most common form of spiritual expression in India and that it has been linguistically distinguished from negative disease producing possession for thousands of years In South Asia possession has always been broader and more diverse than in the West where it has been almost entirely characterized as demonic At best spirit possession has been regarded as a medically treatable psychological ailment and at worst as a condition that requires exorcism or punishment In South and East Asia ecstatic or oracular possession has been widely practiced throughout history occupying a position of respect in early and recent Hinduism and in certain forms of Buddhism Smith analyzes Indic literature from all ages the earliest Vedic texts the Mahabharata Buddhist Jain Yogic Ayurvedic and Tantric texts Hindu devotional literature Sanskrit drama and narrative literature and more than a hundred ethnographies He identifies several forms of possession including festival initiatory oracular and devotional and demonstrates their multivocality within a wide range of sects and religious identities Possession is common among both men and women and is practiced by members of all social and caste strata Smith theorizes on notions of embodiment disembodiment selfhood personal identity and other key issues through the prism of possession redefining the relationship between Sanskritic and vernacular culture and between elite and popular religion Smith s study is also comparative introducing considerable material from Tibet classical China modern America and elsewhere Brilliant and persuasive The Self Possessed provides careful new translations of rare material and is the most comprehensive study in any language on this subject

The Transformation of Plato's Republic Kenneth Dorter,2005-12-22 Author Ken Dorter in a passage by passage analysis traces Plato s depiction of how the most basic forms of human functioning and social justice contain the seed of their evolution into increasingly complex structures as well as the seed of their degeneration Dorter also traces Plato s tendency to begin an investigation with models based on rigid distinctions for the sake of clarity which are subsequently transformed into more fluid conceptions that no longer sacrifice complexity and subtlety for clarity It s the author s claim that virtually every positive doctrine put forward in the dialogue is problematized somewhere else in the dialogue This accounts for the apparent incoherence among various parts of the Republic The dramatic changes of style and content after Books 1 4 7 and 9 give it an appearance of being a pastiche of material written at different times as it is often interpreted Dorter locates an underlying structure that explains these changes It is widely recognized that the dialogue is organized symmetrically in the form of an arch with the beginning and end sharing related themes the second and penultimate sections sharing other related themes and so on until the forward series and the reverse series meet in the middle of the dialogue Dorter s original claim is that the symmetrical segments of the arch reflect the levels of the Divided Line Dorter contends that the overall organization of the Republic can be seen to illustrate and imitate the philosophers ascent from the cave and their subsequent return to it with altered perspectives This erudite salient and expansive new look at Plato s Republic is essential for philosophy political theorists and anyone interested in Plato scholarship
