**Hitler's Death Squads** Helmut Langerbein, 2004 After the war the German government investigated 1 770 former Einsatzgruppen members and brought 136 of these men to trial Helmut Langerbein has systematically examined the trial evidence in search of characteristics shared by these mass murderers Using a much broader data base than earlier studies Langerbein identifies a number of factors that could explain their actions illustrating each with a particular person or group of officers Given the extent of its data its detailed analysis and its careful conclusions Hitler's Death Squads The Logic of Mass Murder will push historians and psychologists toward a reappraisal of the Nazi killing machine the behavior of the men behind the battle lines and the overwhelming power of circumstances Jacket *Death Squads in Global Perspective* B. Campbell, A. Brenner, 2002-10-17 Death squads have become an increasingly common feature of the modern world In nearly all instances their establishment is tolerated encouraged or undertaken by the state itself which thereby risks its monopoly on the use of force one of the fundamental characteristics of modern states Why do such a variety of regimes under very different circumstances condone such activity Death Squads in Global Perspective hopes to answer that question and explain not only their development but also why they can be expected to proliferate in the early 21st century **The Horror of Himmler's Death Squads** Norman Ridley, 2024-09-30 During the Second World War Lithuania Latvia and Estonia were occupied on three separate occasions twice by the Soviet Union and once by Nazi Germany The signing of the Ribbentrop Molotov Pact of 1939 allowed the Soviets to dominate the Baltic states without fear of German reprisals causing many in the German Baltic populations to flee to Poland Soviet rule of the Baltics was brutal with the purging of political elites and deportation of many tens of thousands in a bid to turn them into vassal states Consequently when Hitler launched Operation Barbarossa in June 1941 many Balts saw it as a liberation from Soviet cruelties The reality was however that it turned out to be the beginning of something much worse During their occupation of Poland prior to Barbarossa the Nazis had decimated the Polish political elites and the Jews there had been herded into ghettos in preparation for deportation to the east where they would serve as slave labour in the Nazi economy after the conquest of the Soviet Union Similar policies were to be adopted in the Baltics when Heinrich Himmler's murder squads the Einsatzgruppen were allowed to move into the newly occupied territories Operating behind the advancing German forces Einsatzgruppen A B C and D four special mobile killing units each made up of about a thousand men from the security police and the German intelligence service proved to be more than willing to carry out Himmler's orders He had called for the removal of every vestige of opposition to Nazi rule which primarily meant complete elimination of the inferior races who were unfit for work and the ghettoization of others in preparation for their economic exploitation On foreign soil away from scrutiny and free of all constraint the Einsatzgruppen discovered that through the mass shootings of communists Jews and gypsies it was possible to accelerate the pace of the Holocaust slaughtering men women and children in their tens of thousands The Einsatzgruppen were assisted by local

volunteers who helped to identify victims as well as kill them in places where Jewish communities were swiftly eliminated. Many of the killers and victims had known one another as neighbors and colleagues. This massive slaughter of civilians convinced Heydrich and Himmler that complete extermination of Jews was within their grasp and before very long in the death camps new industrial methods of killing would be devised.

**Death Squad** Jeffrey A. Sluka, 2010-08-03 There is real personal danger for anthropologists who dare to speak and write against terror by doing so they potentially and sometimes actually bring the terror down on themselves. Jeffrey A. Sluka from the Introduction. *Death Squad* is the first work to focus specifically on the anthropology of state terror. It brings together an international group of anthropologists who have done extensive research in areas marked by extreme forms of state violence and who have studied state terror from the perspective of victims and survivors. The book presents eight case studies from seven countries: Spain, India, Punjab and Kashmir, Argentina, Guatemala, Northern Ireland, Indonesia, and the Philippines, to demonstrate the cultural complexities and ambiguities of terror when viewed at the local level and from the participants' point of view. Contributors deal with such topics as the role of Loyalist death squads in the culture of terror in Northern Ireland, the three-tier mechanism of state terror in Indonesia, the complex role of religion in violence by both the state and insurgents in Punjab and Kashmir, and the ways in which disappearances are used to destabilize and demoralize opponents of the state in Argentina, Guatemala, and India.

**Condemned to Die** Robert Johnson, 2018-12-07 *Condemned to Die* is a book about life under sentence of death in American prisons. The great majority of condemned prisoners are confined on death rows before they are executed. Death rows typically feature solitary confinement, a harsh regimen that is closely examined in this book. Death rows that feature solitary confinement are most common in states that execute prisoners with regularity, which is to say where there is a realistic threat that condemned prisoners will be put to death. Less restrictive confinement conditions for condemned prisoners can be found in states where executions are rare. Confinement conditions matter especially to prisoners, but a central contention of this book is that no regimen of confinement under sentence of death offers its inmates a round of activity that might in any way prepare them for the ordeal they must face in the execution chamber when they are put to death. In a basic and profound sense, all condemned prisoners are warehoused for death in the shadow of the executioner. Human warehousing, seen most clearly on solitary confinement death rows, violates every tenet of just punishment: no legal or philosophical justification for capital punishment demands or even permits warehousing of prisoners under sentence of death. The punishment is death. There is neither a mandate nor a justification for harsh and dehumanizing confinement before the prisoner is put to death. Yet warehousing for death of an empty and sometimes brutal nature is the universal fate of condemned prisoners. The enormous suffering and injustice caused by this human warehousing, rendered in the words of the prisoners themselves, is the subject of this book.

**Cocaine, Death Squads, and the War on Terror** Oliver Villar, Drew Cottle, 2011-11-01 Since the late 1990s the United States has funneled billions of dollars in aid to Colombia ostensibly to combat the illicit drug trade and State Department designated terrorist groups The result has been a spiral of violence that continues to take lives and destabilize Colombian society This book asks an obvious question are the official reasons given for the wars on drugs and terror in Colombia plausible or are there other deeper factors at work Scholars Villar and Cottle suggest that the answers lie in a close examination of the cocaine trade particularly its class dimensions Their analysis reveals that this trade has fueled extensive economic growth and led to the development of a narco state under the control of a narco bourgeoisie which is not interested in eradicating cocaine but in gaining a monopoly over its production The principal target of this effort is the Revolutionary Armed Forces of Colombia FARC who challenge that monopoly as well as the very existence of the Colombian state Meanwhile U S business interests likewise gain from the cocaine trade and seek to

maintain a dominant imperialist relationship with their most important client state in Latin America Suffering the brutal consequences as always are the peasants and workers of Colombia This revelatory book punctures the official propaganda and shows the class war underpinning the politics of the Colombian cocaine trade
