Sovereignty in the Exercise of the Right to Self-Determination Jane A. Hofbauer, 2016-09-12 Sovereignty in the Exercise of the Right to Self Determination detangles the relationship between a number of principles of international law and the exercise of sovereign power Jane Hofbauer s assessment is conducted through an analysis of the different tiers of self determination ranging from the right to exercise external self determination the right to exercise forms of autonomy as a form of de facto independence and the right to a type of spatial independence exemplified through the principles of permanent sovereignty over natural resources PSNR and free prior and informed consent FPIC The book not only highlights the intentional uncertainties within each of these principles but identifies the non discretionary limits to their normative evolution It thereby explores to what extent indigenous peoples can be designated as

sovereign entities Complementarity and the Exercise of Universal Jurisdiction for Core International Crimes Morten Bergsmo, 2010-08-01 This book concerns the relationship between the principles of complementarity and universal jurisdiction Territorial States are normally affected most strongly by core international crimes committed during a conflict or an attack directed against its civilian population Most victims reside in such States Most damaged or plundered property is there Public order and security are violated most severely in the territorial States It is also on their territory that most of the evidence of the alleged crimes can be found There are in other words obvious policy and practical reasons why States should accord priority to territoriality as a basis of jurisdiction But is there also an obligation for States to defer exercise of universal jurisdiction of core international crimes to investigation and prosecution of the same crimes by the territorial State What if any is the impact of the principle of complementarity in this respect These are among the questions discussed in this anthology 05CREW: 05 Creative Exercises for Writing Mark McCanister, 2025-07-01 Routledge Companion to Sport and Exercise Psychology Athanasios G.
