The Exodus Of Christianity:

Jews and Christians Michael Goldberg, 2001-10-05 This fascinating volume offers bold new insights into what it means to be a Christian or a Jew We are Christians or Jews Michael Goldberg maintains not principally because we embrace different creeds but because we have gained an understanding of the world from one of two distinct master stories for Jews the Exodus for Christians the life death and resurrection of Jesus The author demonstrates what each master story ultimately reveals about who God is what humanity is and how humanity should therefore act in God's world

Atheism in Christianity Ernst Bloch, 2020-05-05 In the twenty first century religion has come under determined attack from secular progressives in documentaries opinion pieces and international bestsellers Combative atheists have denounced faiths of every stripe resulting in a crude intellectual polarization in which religious convictions and heritage must be rejected or accepted wholesale In the long unavailable Atheism in Christianity Ernst Bloch provides a way out from this either/or debate He examines the origins of Christianity in an attempt to find its social roots pursuing a detailed study of the Bible and its fascination for ordinary and unimportant people In the biblical promise of utopia and the scriptures antagonism to authority Bloch locates Christianity's appeal to the oppressed Through a lyrical yet close and nuanced analysis he explores the tensions within the Bible that promote atheism as a counter to the authoritarian metaphysical theism imposed by clerical exegesis At the Bible's heart he finds a heretical core and the concealed message that paradoxically a good Christian must necessarily be a good atheist This new edition includes an introduction by Peter Thompson the Director of the Centre for Ernst Bloch Studies at the University of Sheffield

Christianity in the Twentieth Century Brian Stanley, 2018-06-26 A history of unparalleled scope that charts the global transformation of Christianity during an age of profound political and cultural change Christianity in the Twentieth Century charts the transformation of one of the world's great religions during an age marked by world wars genocide nationalism decolonization and powerful ideological currents many of them hostile to Christianity Written by a leading scholar of world Christianity the book traces how Christianity evolved from a religion defined by the culture and politics of Europe to the expanding polycentric and multicultural faith it is today one whose growing popular support is strongest in sub-Saharan Africa Latin America China and other parts of Asia Brian Stanley sheds critical light on themes of central importance for understanding the global contours of modern Christianity illustrating each one with contrasting case studies usually taken from different parts of the world Unlike other books on world Christianity this one is not a regional survey or chronological narrative nor does it focus on theology or ecclesiastical institutions Rather Stanley provides a history of Christianity as a popular faith experienced and lived by its

adherents telling a compelling and multifaceted story of Christendom's fortunes in Europe North America and across the rest of the globe Transnational in scope and drawing on the latest scholarship Christianity in the Twentieth Century demonstrates how Christianity has had less to fear from the onslaughts of secularism than from the readiness of Christians themselves to accommodate their faith to ideologies that privilege racial identity or radical individualism Post-Christian Interreligious Liberation Theology Hussam S. Timani,Loye Sekihata Ashton,2019-11-29 This book explores the ideals of liberation theology from the perspectives of major religious traditions including Islam Christianity Judaism Buddhism and the neo Vedanta and Advaita Hindu traditions The goal of this volume is not to explain the Christian liberation theology tradition and then assess whether the non Christian liberation theologies meet the Christian standards Rather authors use comparative interreligious methodologies to offer new insights on liberation theology and begin a dialogue on how to build interreligious liberation theologies The goal is to make liberation theology more inclusive of religious diversity beyond traditional Christian categories
