Discovering the Mission of God Mike Barnett, Robin Martin, 2012-07-03 Written by a team of 21st century scholar practitioners Discovering the Mission of God explores the mission of God as presented in the Bible expressed throughout church history and in cutting edge best practices being used around the world today *Contesting Christendom* James L. Halverson, 2008 The pervasiveness of the Christian religion has long been treated as one of the key features of medieval society Indeed Europe in the Middle Ages is often described simply as a Christian culture Yet what do we mean when we say that medieval Europe was a Christian society and what did it mean to be a Christian in the Middle Ages These questions are fundamental to any understanding of the Middle Ages yet the variety of theoretical approaches and conclusions represented in this carefully selected and provocative collection of key works in the field highlights the complexity of the answers Introducing students to medieval Christianity James L Halverson presents a rich array of readings that offers a variety of ways to study the history of religion within a chronological setting His opening chapter and introductions to each section and

selection frame the essays and provide a strong conceptual framework to build upon Making it clear that scholars have approached religion from many perspectives and used many different methodologies this collection presents some of the best scholarship of religion as culture and practice emphasizing the ongoing attempt to understand the social and cultural aspects of medieval Christianity Contributions by Rudolf Bell Constance Brittain Bouchard Peter Brown Marcus Bull Caroline Walker Bynum Mark R Cohen Georges Duby Eamon Duffy Joan Ferrante Richard Fletcher Katherine L French Thomas A Fudge Herbert Grundmann James L Halverson Karen Louise Jolly Lester Little Rob Means Bernd Moeller Andrew P Roach Jane Tibbets Schulenburg Keith Thomas and Ian Wood **Toward the Twenty-first Century in Christian Mission** James M.

Introduction to Missiology Alan Richard Tippett, 1987-06-01 While teaching at Fuller School of World Mission Tippett inspired and challenged the founding generation of great commission or church growth missiologists This collection brings together almost 40 of his best writings In a style that is both academic and personal he deals first with missiological theory then with anthropological and historical dimensions of missiology He then treats a number of specific missiological problems from these perspectives including seminal material on power encounters **The Diffusion of Ecclesiastical Authority**

Darin H. Land, 2008-07-17 the church in Acts from a sociological perspective Two primary models emerge from a sociologically informed investigation of first century Greco Roman and Jewish religious leadership the manager leader and the innovator leader An examination of seven passages in Acts reveals that the leaders of the early church although initially conforming to cultural expectations are best described as innovator leaders whose counter cultural actions resulted in the empowerment of new leaders and the advancement of the gospel Through the use of fictive kinship language the voluntary sharing of authority the fostering of a sense of mutual dependence on God as the common patron and the redefinition of what is honorable the leaders in Acts consistently enabled others to share authority in the church By consistently sharing their authority with others these leaders allowed the diffusion of authority to new individuals rather than the concentration of authority in the hands of the few Undoubtedly this selflessness on the part of the church's leaders contributed to the spread of the Gospel throughout the Mediterranean world By regularly empowering new leaders the church was able to release its leaders for ministry in new locations without fear of leaving established churches leaderless Yet one should not suppose that through such diffusion ecclesiastical authority became diluted The leaders in Acts shared their authority without thereby losing it They were able to do this because their authority was based on deference and mutual honor not only on legal rights Thus the diffusion of ecclesiastical authority resulted in a net increase of authority which in turn propelled the growth of the church from the Conclusion **A Scholastic Miscellany** Eugene Rathbone Fairweather, 1956-01-01 This is collection of

Christian treatises written prior to the end of the sixteenth century A History of the Expansion of Christianity: The thousand years of uncertainty, A.D. 500-A.D. 1500 Kenneth Scott Latourette, 1938 **The Dynamics of Global Dominance** David B. Abernethy, 2000-01-01 For centuries Europeans ruled vast portions of the world as inhabitants of west European countries sailed to distant continents and took possession of territories whose societies and economies they set out to change How and why did these farflung empires form persist and finally fall David Abernethy addresses these questions in this magisterial survey of the rise and decline of European overseas empires Abernethy identifies broad patterns across time and space interweaving them with fascinating details of cross cultural encounters He argues that relatively autonomous profit making religious and governmental institutions enabled west European countries to launch triple assaults on other societies Indigenous people also played a role in their eventual subjugation by inviting Europeans to intervene in their power struggles Abernethy finds that imperial decline was often the unanticipated result of wars among major powers Postwar crises over colonies unmet expectations empowered movements that eventually took territories as diverse as the thirteen British North American colonies Spain's South American possessions India the Dutch East Indies Vietnam and the Gold Coast to independence In advancing a theory of imperialism that includes European and non European actors and in analyzing economic social and cultural as well as political dimensions of empire Abernethy helps account for Europe's long occupation of global center stage He also sheds light on key features of today's postcolonial world and the legacies of empire concluding with an insightful approach to the moral evaluation of colonialism *Eric Voegelin and the Problem of Christian Political Order* Jeffrey C. Herndon, 2007 Although some critics of Eric Voegelin's later work have faulted his failure to deal with the historical Jesus and to address the implications of Christianity for social and political life the recent publication of Voegelin's *History of Political Ideas* has allowed a more complete assessment of his position regarding the Christian political order This book addresses that criticism through an analysis of Voegelin's early work In *Eric Voegelin and the Problem of Christian Political Order* Jeffrey C Herndon analyzes the development of Voegelin's thought regarding the origins of Christianity in the person of Jesus the development of the church in the works of Paul and the relationship between an immanent institutional order symbolizing the divine presence and the struggle for social and political order Focusing on the tension between a spiritual phenomenon based on Pauline faith and the institutionalization of that experience in the church Herndon offers one of the first examinations of the relationship of the *History of Political Ideas* to Voegelin's larger body of work In his wide ranging study Herndon explores Voegelin's examination of the problem of Christian political order from the inception of Christianity through the Great Reformation He also presents a clarification of Voegelin's theory of civilizational foundation and of Voegelin's philosophy of history with regard to Christianity and Western political order Herndon addresses not only the nagging problem in Voegelin scholarship regarding his relationship with the historical Jesus but also the Pauline compromises with the world that enabled Christianity to become the instrument by which the West was civilized He also

shows that Voegelin's interpretation of the historical pressures released by the Great Reformation is important to an understanding of his later work regarding the negative effect of Christian symbols in the creation of ideological disorder. Eric Voegelin and the Problem of Christian Political Order clarifies issues in Voegelin studies regarding the intersection between political theory and Christian concerns addressing the relation of religious experience to the public sphere of political life in the West and helping to explain Voegelin's contention that the death of the spirit is the price of progress. It offers scholars a perspective heretofore lacking in Voegelin scholarship and a clearer view of Voegelin's understanding of the Christian dispensation and its influence on the course of Western development history and philosophy.

Modern Paganism in World Cultures Michael Strmiska, 2005-12-12 The most comprehensive study available of neo-pagan religious movements in North America and Europe. *Modern Paganism in World Cultures* collects the work of specialists in religion, folklore and related fields to provide a comprehensive treatment of the movement to reestablish pre-Christian religions. Detailed accounts of the belief systems and rituals of each religion along with analysis of the cultural, social and political factors fueling the return to ancestral religious practice make this a rich, singular resource. Scandinavian Asatru, Latvian Dievturi, American Wicca, long dormant religions are taking on new life as people seek connection with their heritage and look for more satisfying approaches to the pressures of postmodernism. The Neopagan movement is a small but growing influence in Western culture. This book provides a map to these resurgent religions and an examination of the origins of the Neopagan movement.

The Continuing Conversion of the Church Darrell L. Guder, 2000-03-20 Western society is now a very different, very difficult mission field. In such a situation, the mission of evangelism cannot succeed with an attitude of business as usual. This volume builds a theology of evangelism that has its focus on the church itself. Darrell Guder shows that the church's missionary calling requires that the theology and practice of evangelism be fundamentally rethought and redirected, focused on the continuing evangelization of the church so that it can carry out its witness faithfully in today's world. In Part 1, Guder explores how, under the influence of reductionism and individualism, the church has historically moved away from a biblical theology of evangelism. Part 2 presents contemporary challenges to the church's evangelical ministry, especially those challenges that illustrate the church's need for continuing conversion. Part 3 discusses what a truly missional theology would mean for the church, including sweeping changes in its institutional structures and practices. Written for teachers, church leaders and students of evangelism, this volume is vital reading for everyone engaged in mission work.

Spiritual Warfare Strategy C. Peter Wagner, 2011-07-19 Discover how Jesus and the early Church overcame the enemy and you can overcome too. We live in a day when the Holy Spirit is speaking strongly to the churches about aggressively retaking the dominion over creation that Adam forfeited to Satan. This level of spiritual warfare is a new ministry area to many Kingdom-minded believers. *Spiritual Warfare Strategy* provides a biblical and theological rationale as well as practical tools for advancing God's Kingdom. Dr. C. Peter Wagner examines the role spiritual warfare played in Christ's ministry and among His first followers and applies it to

today's battle *A History of Christianity in Asia, Vol. I* Samuel Hugh Moffett, 2014-07-30 The story of Christianity in the West has often been told but the history of Christianity in the East is not as well known The seed was the same the good news of Jesus Christ for the whole world which Christians call the gospel But it was sown by different sowers it was planted in different soil it grew with a different flavor and it was gathered by different reapers It is too often forgotten that the faith moved east across Asia as early as it moved west into Europe Western church history tends to follow Paul to Philippi and to Rome and on across Europe to the conversion of Constantine and the barbarians With some outstanding exceptions only intermittently has the West looked beyond Constantinople as its center It was a Christianity that has for centuries remained unashamedly Asian A History of Christianity in Asia makes available immense amounts of research on religious pluralism of Asia and how Christianity spread long before the modern missionary movement went forth in the shelter of Western military might Invaluable for historians of Asia and scholars of mission it is stimulating for all readers interested in Christian history

The Last Kingdom Standing Robert Schmidt, 2024-08-30 Is there real help for the hurting people in our world We think of the children in war refugees adrift patients without medicine and those dying in droughts and floods Lest we despair Jesus announces that the Kingdom of God is near This book defines the Kingdom anew and shows how it brings us hope even in the worst of circumstances The Kingdom of God is bigger than we thought When God was King there was liberation and enough to survive and thrive Promises of the Kingdom's blessings kept hope alive through defeat and devastation While forgiving healing feeding raising the dead and praising the enemy Jesus announced the Kingdom was at hand even before he wept over the coming destruction of Jerusalem As a political scientist Robert Schmidt demonstrates the political importance of the Kingdom through the centuries He also shows how Christ continues to work through churches organizations and governments to bring hope through what he calls God's New World Society As a pastor he reaches out to those who have left the church Might God still use them in Jesus Kingdom work With hope in their hearts there is a lot to be done **The**

Invitation Richard R. Osmer, 2021-10-12 Moving beyond conversionism Many Christians today are uncomfortable with older simpler notions about evangelism as conversionism but see as insufficient the more progressive model of evangelism as hospitality Transcending that dichotomy Richard Osmer advances a theology of evangelism as a multifaceted act of invitation into Christ following community Osmer begins by exploring references to evangelism in the New Testament both in the Gospels and in the letters of Paul He then enters into dialogue with Karl Barth to work through ideas of church witness and the relationship of evangelism to salvation Finally with lucid explanations and illustrative case studies he offers guidance for pastors laity and students to use as they reimagine how evangelism might best happen in their churches and missional organizations Osmer's approach mirrors the conviction stated in his introduction that our concept of evangelism must be formed and constantly reformed by keeping the Bible church doctrine and practical theology in conversation Foundational to Osmer's rendering of evangelism as invitation is the essential truth that it is Christ and the Holy Spirit who calls converts and

makes disciples not Christians Thus we can invite our neighbors to the wedding feast while remaining reassured that the table is already set *Mission to the World* Tormod Engelsviken, Ernst Harbakk, Rolv Olsen, Thor Strandenaes, 2009-11-01
