The Face Of The Foe:

The Face of the Foe Julie Millson, 1970 **The Face of the Foe** Patricia Power, 1973 **A Vision of All Saints, and Other Poems** William Chatterton Dix, 1871 The Exploit Alexander R. Galloway, Eugene Thacker, 2013-11-30

The network has become the core organizational structure for postmodern politics culture and life replacing the modern era's hierarchical systems From peer to peer file sharing and massive multiplayer online games to contagion vectors of digital or biological viruses and global affiliations of terrorist organizations the network form has become so invasive that nearly every aspect of contemporary society can be located within it Borrowing their title from the hacker term for a program that takes advantage of a flaw in a network system Alexander R Galloway and Eugene Thacker challenge the widespread assumption that networks are inherently egalitarian Instead they contend that there exist new modes of control entirely native to networks modes that are at once highly centralized and dispersed corporate and subversive In this provocative book length essay Galloway and Thacker argue that a whole new topology must be invented to resist and reshape the network form one that is as asymmetrical in relationship to networks as the network is in relation to hierarchy

An Ethnography of Global Environmentalism Caroline Gatt, 2017-10-06 Based on nine years of research this is the first book to offer an in depth ethnographic study of a transnational environmentalist federation and of activists themselves The book presents an account of the daily life and the ethical strivings of environmental activist members of Friends of the Earth International FoEI exploring how a transnational federation is constituted and maintained and how different people strive to work together in their hope of contributing to the creation of a better future for the globe In the context of FoEI a great diversity of environmentalisms from around the world are negotiated discussed and evolve in relation to the experiences of the different cultures ecosystems and human situations that the activists bring with them to the federation Key to the global scope of this project is the analysis of FoEI experiments in models for intercultural and inclusive decision making The provisional results of FoEI's ongoing experiments in this area offer a glimpse of how different notions of the environment and being an environmentalist can come to work together without subsuming alterity
