## **The Entity A Novel:**

The Entity Frank De Felitta,1978      **The Haunted House : Horror, Thriller and Suspencefull Novel Kindle Edition**,2025-05-29 Do you like to read horror novel The novel The Haunted House is a gripping supernatural thriller that follows Ellie a young woman determined to rebuild her family s abandoned cursed house only to uncover a dark and ancient evil that threatens to consume her and everyone she loves The old house had always been there standing at the edge of the woods like a silent sentinel For as long as anyone in the town could remember it had been a place of whispers whispers of curses of disappearances of something dark that lurked beneath its creaking floorboards Children dared each other to run up to its porch but never to touch the door Adults crossed the street to avoid walking past it their eyes darting nervously toward its broken windows and sagging roof      *Introduction to Database Systems: ITL Education Solutions Limited,2008* Introduction to Database Systems deals with implementation design and application of DBMS and complicated topics such as relational algebra and calculus and normalization in a simplified way      **Database Systems for Advanced Applications** Xin Wang,Maria Luisa Sapino,Wook-Shin Han,Amr El Abbadi,Gill Dobbie,Zhiyong Feng,Yingxiao Shao,Hongzhi Yin,2023-04-14 The four volume set LNCS 13943 13944 13945 and 13946 constitutes the proceedings of the 28th International Conference on Database Systems for Advanced Applications DASFAA 2023 held in April 2023 in Tianjin China The total of 125 full papers along with 66 short papers are presented together in this four volume set was carefully reviewed and selected from 652 submissions Additionally 15 industrial papers 15 demo papers and 4 PhD consortium papers are included The conference presents papers on subjects such as model graph learning performance knowledge time recommendation representation attention prediction and network      **The Book of Horror** Matt Glasby,2025-09-02 The Book of Horror introduces the reader to the scariest movies ever made and examines the factors that make them so frightening      *Constructions at Work* Adele E. Goldberg,2006 Includes selected classic and contemporary papers in four areas this text introduces each field providing technical background for the non specialist and explaining the underlying connections across the disciplines      Knowledge Science, Engineering and Management Zhi Jin,Yuncheng Jiang,Robert Andrei Buchmann,Yaxin Bi,Ana-Maria Ghiran,Wenjun Ma,2023-08-08 This volume set constitutes the refereed proceedings of the 16th International Conference on Knowledge Science Engineering and Management KSEM 2023 which was held in Guangzhou China during August 16 18 2023 The 114 full papers and 30 short papers included in this book were carefully reviewed and selected from 395 submissions They were organized in topical sections as follows knowledge science with learning and AI knowledge engineering research and applications knowledge management systems and emerging technologies for knowledge science engineering and management      *Novels and the Sociology of the Contemporary* Arpad Szakolczai,2016-04-14 This book substantiates two claims First the modern world was not simply produced by objective factors rooted in geographical discoveries and scientific inventions to be traced to economic technological or political factors but is the outcome of social

cultural and spiritual processes Among such factors beyond the Protestant ethic Max Weber the rise of the absolutist state and its disciplinary network Michel Foucault or court society Norbert Elias a prime role is played by theatre The modern reality is deeply theatricalized Second a special access for studying this theatricalized world is offered by novels The best classical novels not simply can be interpreted as describing a world like the theatre but they capture and present a world that has become thoroughly transformed into a global theatre The theatre effectively transformed the world and classical novels effectively analyze this theatricalized reality much better than the main instruments supposedly destined to study reality philosophy and sociology Thus instead of using the technique of sociology to analyze novels the book will treat novels as a royal road to analyze a theatricalized reality in order to find our way back to a genuine and meaningful life **Heinrich Mann: The development of the 'sociocritical' novel to a 'political' novel in the early work** Alexander v. Fenner, Anke Marwinski, 2014-04-11 Inhaltsangabe Abstract In the beginning of the 20th century numerous changes in the social economic and political level flow together In the ambivalent spirit of end time and break up different trends of literature are unfolded For the young Heinrich Mann these processes continue in his early work as a writer and qualify for interpretation and the hope to overcome the Fin de siècle trend The selected novels of this work Im Schlaraffenland Ein Roman unter feinen Leuten 1900 Professor Unrat oder Das Ende eines Tyrannen 1904 and Die Kleine Stadt 1909 represent the development of this intention At first they appear as a satirical criticism of the society and later in the second half of the decade as a draft for a democratic society In the following the former novels Im Schlaraffenland and Professor Unrat are mentioned without subheading This work shall point out the very development phase of Heinrich Mann between 1900 and 1909 until the beginning of his political writing As a result of biographical and literary effects he takes up a special position and shows a change in his early work His critical and satirical examination of the society associated with a special style of speech open out in a preachy democratic ideal of the society after the turning year 1905 On the one hand these positions make the career of the man of letters difficult in the German nationalistic empire On the other hand they make him to become a precursor of a vanguard readership Before the philosophical influence of Friedrich Nietzsche and the literary effect of predominantly French origin on Heinrich Mann will be dwelled on this work will give a short overview of the literary understanding After this the three mentioned novels will be discussed in the chapters 2 3 and 4 and will be correlated It will become apparent that there is a strong breach of Heinrich Mann in his satires and his democratic utopia After the year 1905 Heinrich Mann changes his mind back to the time of reconnaissance Jean Jacques Rousseau's ideal of the society and the trilogy imagination of liberty equality and brotherliness of the French revolution of 1789 His guiding themes of power and spirit the dualism of the society and the individual and the problems of the artist are therefore at the figure of change in the first decade of the 20th century Inhaltsverzeichnis Table of Contents HEINRICH MANN MIRROR AND ANTAGONIST OF HIS TIME1 INTRODUCTION3 1 The Fin How Ficta Follow Fiction Alberto Voltolini, 2006-11-22 This book is devoted to fictional

entities or to be more precise fictional entities as they emerge from the literary process of storytelling They encompass the great immortal figures in human literature Don Quixote Faust Sherlock Holmes and so on as well as the protagonists of single novels such as Anna Karenina Emma Woodhouse and Emma Bovary and even the unknown characters in the oral tradition of storytelling developed by small communities of people for their own entertainment This is presumably how Achilles Penelope and Ulysses originated We must also include among these figures mythological characters such as Apollo Odin and Zeus regardless of the fact that they were originally thought to be supernatural beings rather than fictional individuals The subject of this book is not new which may make it seem less appealing to a prospective reader just one more book on fictional entities Yet I would argue that this apparent drawback is fundamental to the purpose of the book which is to present a syncretistic doctrine of fictional entities In other words it is a theory which firmly acknowledges that the various other theories already developed on this subject have great merits Their main flaw however is not that they are wrong but rather that they are incomplete Accordingly they are not to be put to one side instead they need to be integrated into a single theory that aims both to maintain their positive results and to overcome their defects

*Fiction* Catharine Abell, 2020-06-10 By taking a distinctively institutional approach Catharine Abell provides a unified solution to a wide range of philosophical problems raised by fiction In particular she draws attention to the epistemology of fiction which has not yet attracted the philosophical scrutiny it warrants There has been considerable discussion of what determines the contents of works of fiction yet few attempts have been made to explain how audiences identify their contents or to identify the norms governing the correct understanding and interpretation of them This book answers both metaphysical and epistemological questions concerning fiction in a way that clarifies the relation between them What distinguishes works of fiction from works of non fiction What is the nature of fictive utterances How do audiences identify the contents of authors fictive utterances How does understanding a work of fiction differ from interpreting it This book develops the first single theory to provide answers to these questions and many more
