Fort Lewis: Cold War to the War on Terror Alan H. Archambault,2016 Camp Lewis was established in 1917 as a training camp for the US Army in World War I Made a permanent post in 1927 Fort Lewis became an important base for training and sending soldiers to combat in World War II and the Korean War In 1956 the 4th Infantry Division arrived at Fort Lewis while America was deeply committed to protecting democracy around the world during the Cold War From that time forward Fort Lewis has been in the forefront of military reservations in the United States The post played a crucial role in the Vietnam War Operations Desert Shield and Desert Storm and the War on Terror Soldiers based at Fort Lewis have deployed to conflicts throughout the world in defense of freedom Today Fort Lewis remains on the cutting edge of America s sword Dangerous Grounds David L. Parsons,2017-03-13 As the Vietnam War divided the nation a network of antiwar coffeehouses appeared in the towns and cities outside American military bases Owned and operated by civilian activists GI coffeehouses served as off base refuges for the growing number of active duty soldiers resisting the war In the first history of this network David L. Parsons shows how antiwar GIs and civilians united to battle local authorities vigilante groups and the military establishment itself by building a dynamic peace movement within the armed forces Peopled with lively characters and set in the tense environs of base towns around the country this book complicates the often misunderstood relationship between the civilian antiwar movement U S soldiers and military officials during the Vietnam era Using a broad set of primary and secondary sources Parsons shows us a critical moment in the history of the Vietnam era antiwar movement when a chain of counterculture coffeehouses brought the war s turbulent politics directly to the American military s doorstep **Fort Lewis** Fort Lewis (Wash.). Public Affairs Office,1987 **Mailing List (Infantry School (U.S.))** ,1980 **Infantry** ,1979 **The Mobilized American West, 1940-2000** John M. Findlay,2023-07 In the years between 1940 and 2000 the American Far

West went from being a relative backwater of the United States to a considerably more developed modern and prosperous region one capable of influencing not just the nation but the world By the dawn of the twenty first century the population of the West had multiplied more than four times since 1940 and western states had transitioned from rural to urban becoming the most urbanized section of the country Massive investment both private and public in the western economy had produced regional prosperity and the tourism industry had undergone massive expansion altering the ways Americans identified with the West In *The Mobilized American West* 1940 2000 John M Findlay presents a historical overview of the American West in its decades of modern development During the years of U S mobilization for World War II and the Cold War the West remained a significant distinct region even as its development accelerated rapidly and in many ways it became better integrated into the rest of the country By examining events and trends that occurred in the West Findlay argues that a distinctive region wide political culture developed in the western states from a commitment to direct democracy the role played by the federal government in owning and managing such a large amount of land and the way different groups of westerners identified with and defined the region While illustrating western distinctiveness Findlay also aims to show how in its sustaining mobilization for war the region became tethered to the entire nation more than ever before but on its own terms Findlay presents an innovative approach to viewing the American West as a region distinctive of the United States one that occasionally stood ahead of at odds with and even in defiance of the nation
