**Classified Book List of the Northwestern Library Association ...** Northwestern Library Association, 1899     Dutch Courage and Other Stories Jack London, 1922     To Outlive Eternity and Other Stories Poul Anderson, 2007-03-01 From the aftermath of World War III to a world inherited by robots where humans are unwelcome from a handful of human survivors on a starship desperately searching for other ships carrying survivors of the destruction of the entire Earth by an unknown enemy who may strike again at any time to another starship hurtling through the cosmos at a speed so close to that of light and unable to slow down that relativistic effects make millennia fly by for each tick of the clock onboard from a team striving to make Venus habitable for humans to a group of men who find the ominous secret behind a new quasi religious philosophy that is sweeping the world The wide ranging imagination and exciting storytelling of Poul Anderson brings many different worlds to vivid life in a great volume of his best stories that will thrill all fans of science fiction At the publisher s request this title is sold without DRM Digital Rights Management     The Back Burner & Other Stories Mary Letts, 2008-03-02 This collection of short stories explores the sometimes poignant sometimes startlingly dramatic moments in the different lives of each of their central characters They are set against the finely drawn backdrops either of rural England urban Italy or a remote Greek Island     *I Love Dollars and Other Stories of China* Wen Zhu, 2007 In five richly imaginative novellas and a short story Zhu Wen depicts the violence chaos and dark comedy of China in the post Mao era A frank reflection of the seamier side of his nation s increasingly capitalist society Zhu Wen s fiction offers an audaciously plainspoken account of the often hedonistic individualism that is feverishly taking root Set against the mundane landscapes of contemporary China a worn Yangtze River vessel cheap diners a failing factory a for profit hospital operating by dated socialist norms Zhu Wen s stories zoom in on the often tragicomic minutiae of everyday life in this fast changing country With subjects ranging from provincial mafiosi to nightmarish families and oppressed factory workers his claustrophobic narratives depict a spiritually bankrupt society periodically rocked by spasms of uncontrolled violence For example I Love Dollars a story about casual sex in a provincial city whose caustic portrayal of numb disillusionment and cynicism caused an immediate sensation in the Chinese literary establishment when it was first published The novella s loose colloquial voice and sharp focus on the indignity and iniquity of a society trapped between communism and capitalism showcase Zhu Wen s exceptional ability to make literary sense of the bizarre ideologically confused amalgam that is contemporary China Julia Lovell s fluent translation deftly reproduces Zhu Wen s wry sense of humor and powerful command of detail and atmosphere The first book length publication of Zhu Wen s fiction in English I Love Dollars and Other Stories of China offers readers access to a trailblazing author and marks a major contribution to Chinese literature in English     Victorian Scientific Naturalism Gowan Dawson, Bernard Lightman, 2014-04-28 Victorian Scientific Naturalism examines the secular creeds of the generation of intellectuals who in the wake of The Origin of Species wrested cultural authority from the old Anglican establishment while installing themselves as a new professional scientific elite These scientific naturalists led by biologists physicists and

mathematicians such as William Kingdon Clifford Joseph Dalton Hooker Thomas Henry Huxley and John Tyndall sought to persuade both the state and the public that scientists not theologians should be granted cultural authority since their expertise gave them special insight into society politics and even ethics In Victorian Scientific Naturalism Gowan Dawson and Bernard Lightman bring together new essays by leading historians of science and literary critics that recall these scientific naturalists in light of recent scholarship that has tended to sideline them and that reevaluate their place in the broader landscape of nineteenth century Britain Ranging in topic from daring climbing expeditions in the Alps to the maintenance of aristocratic protocols of conduct at Kew Gardens these essays offer a series of new perspectives on Victorian scientific naturalism as well as its subsequent incarnations in the early twentieth century that together provide an innovative understanding of the movement centering on the issues of community identity and continuity
