Lane, 1996 New Age writer of the popular Aquarian Conspiracy Marilyn Ferguson observed that many of the leading lights of the New Age movement claim Teilhard as one of the most influential persons in their lives Other influences acknowledged include C G Jung Aldous Huxley Swami Muktananda Thomas Merton Werner Erhard and Maharishi Yogi Indeed of the 185 New Age leaders surveyed Teilhard was the most frequently mentioned of any person who had most influenced their thinking If this is the case then if we are to understand the New Age movement properly it behooves us to take a careful and critical look at Teilhard de Chardin David Lane has done precisely this in a clear well documented and penetrating way In this crucial book David Lane lays bare the philosophical theological and scientific failures of Teilhard's New Age enterprise In a highly documented and insightful scrutiny of Teilhard's cosmic evolution Lane unveils the apostate Christian roots of one of the most important forerunners of the New Age movement This is one of the most significant and serious treatments of the modern roots of the New Age in print The Art of Being Posthuman Francesca Ferrando, 2023-11-28 This book offers a comprehensive reflection on the existential condition of the 21st century A visionary introduction to existential posthumanism it takes the form of eight meditations This posthuman journey of self inquiry engages with a wide range of knowledge and wisdom from the Paleolithic times to the futures of radical life extension from multi species evolutions to the rights of Nature the Anthropocene and the rise of Artificial Intelligence The book declutters the habit of being human Letting go of the need for anthropocentric mastery and species specific ambitions the reader emerges regenerated The manifold paths of posthuman self realization reveal that we are all co creators in the existential unfolding our lives are our ultimate works of art The Art of Being Posthuman is a self help guide to navigate our brave new world You can listen to Dr Ferrando talk about the book's key themes in these videos 1 Introduction and 2 Conclusion *Man's Fate and God's Choice*

Bhimeswara Challa, 2021-06-29 Stagnate as a creepy caterpillar or transform into a beautiful butterfly this path breaking book of a rare genre suggests is the seminal choice before mankind and every one of us In this setting the book raises some fundamental questions What is man's rightful place in the cosmos and his manifest destiny on earth Why are we so self-righteously self-destructive Are we a doomed species Or divine beings struggling to overcome the hubris of the human intellect Is God getting weary of mankind How should we synergize human effort and Divine Grace The book posits that any betterment in human behavior needs a cathartic change at the deepest levels That requires diluting the dominance of the mind and reawakening the long dormant intelligence of the human heart To meet that challenge we need minimum numbers a critical mass to create self-sustained momentum for transformation through consciousness change And every single human of this generation should behave in such a way that he or she is that single person whose transformation could make the decisive species scale difference The book offers a menu of ideas and an agenda of action This book could be itself become an input to mobilize that very critical mass it advocates for human transformation Well planned and cohesively written the book is noteworthy for its delightful blend of information and arguments and reveals the depth of the author's understanding of the human predicament This is a closely argued and thought provoking book The Hindu 13 Sept 2011 This book is a gripping exposition on human nature and self-transformation without preference to religion Challa has critically provided a foundational argument for a deeper discussion of philosophical and practical ideals concerning self-transformation harmonizing the head and the heart is the way for humans to function as spiritual beings Recommended by the USR The US Review of Books The author reflects upon the crisis of contemporary civilizations and outlines a blueprint for a new world order based on progressive spiritual values and change of human consciousness The strength of this treatise is the sweep of Challa's reach and his treatment of a vastly complex set of issues that bedevil humankind today India International Center Quarterly Summer 2012 As a thinker and erudite scholar the author has made a profound study of the world situation and the moral decadence of man This book deserves to be on the shelves of university college and public libraries Triveni Magazine July Sept 2011 It is difficult to pigeon hole this book as a prophetic discourse a journey into the human mind a guide for human survival a spiritual treatise It is an amalgam of all these and more the volume reaches out to those who are already uneasy about the way we on this earth are progressing The Book Review India June 2013 **The Biosphere and Noosphere Reader** David Pitt, Paul R. Samson, 2012-10-02 Foreword written by Mikhail S Gorbachev Reproduction of work previously unpublished in English Combines new writing with traditional classics alongside *Legal science, philosophy* Jacques Havet, 2019-06-04 No detailed description available for Legal science philosophy **The Perennial Quest for a Psychology with a Soul** Joseph Vrinte, 2002-01-01 The subject matter of this book is so vast that it would be presumptuous to attempt to deal with comprehensively and it would be preposterous to pretend to a final solution to a set of ideas as comprehensive as these worldviews The author is aware that the contents of this comparative study may appear offensive to

the followers of Sri Aurobindo. He tries to stimulate a fruitful dialogue and evaluates this dialogue in a sympathetic manner when he refers to the intentions of both thinkers. Faith Movements and Social Transformation Samta P.

Pandya, 2018-12-11 This book examines the role of Hindu inspired faith movements HIFMs in contemporary India as actors in social transformation. It further situates these movements in the context of the global political economy where such movements cross national boundaries to locate believers among the Hindu diaspora and others. In contemporary neoliberal India HIFMs have become important actors and they realize themselves by making public assertions through service. The four pillars of the contemporary presence of such movements are gurus, sociality, hegemony, and social transformation. Gurus who spearhead these movements create a matrix of possible meanings in their public discourses which their followers pick up to create messages of personal and social change. Sociality is a core strategy of proliferation across such movements and implies social service which is qualified by memories of the guru and what they are believed to embody. Hegemony is reflected in the fact that social service in such movements often ominously imbibes right wing or far right Hinduism. They propose a model of Hindu inspired social transformation involving faith building into and transforming the civil society. The book discusses in a nuanced way several Hindu inspired faith movements of various hues which have made national and international impact. This topical book is of interest to students and researchers in the fields of sociology, anthropology, social work, and social psychology with a special interest in the study of religious movements. **The Evolution of Early**

Christianity Shirley Jackson Case, 1920 **The Depth of the Human Person** Michael Welker, 2014-06-30 This volume brings together leading theologians, biblical scholars, scientists, philosophers, ethicists, and others to explore the multidimensionality and depth of the human person. Moving away from dualistic mind/body/spirit/flesh/natural/moral anthropologies, the book's contributors examine human personhood in terms of a complex flesh/body/mind/heart/soul/conscience/reason/spirit spectrum. *The Depth of the Human Person* begins with a provocative essay on the question 'Why is personhood conceptually difficult?' It then rises to the challenge of relating theological contributions on the subject to various scientific explorations. Finally, the book turns to contemporary theological/ethical challenges, discussing such subjects as human dignity, embodiment, gender stereotypes, and human personhood at the edges of life. Contributors: Maria Antonaccio, Warren S. Brown, Philip Clayton, Volker Henning Drecoll, Markus Hfner, Origen V. Jathanna, Malcolm Jeeves, Isolde Karle, Eiichi Katayanagi, Andreas Kemmerling, Stephan Kirste, Bernd Oberdorfer, John C. Polkinghorne, Jeffrey P. Schloss, Andreas Schle, William Schweiker, Gerd Theissen, Gnter Thomas, Frank Vogelsang, Michael Welker. Evolution's Purpose Steve

McIntosh, 2012-10 Presents the author's view of the scientific story of our evolutionary origins to show how evolution's progressive generation of emergent value reveals a larger purpose within the process. He demonstrates how this purpose can be felt within each of us as the evolutionary impulse to make things better, to grow toward ever widening realizations of beauty, truth, and goodness. Provided by publisher. **Cross-Cultural Issues in Bioethics**, 2006-01-01 Human cloning is a

main focus of current bioethical discussion Involving the self understanding of the human species it has become one of the most debated topics in biomedical ethics not only on the national but also on the international level This book brings together articles by bioethicists from several countries who address questions of human cloning within the context of different cultural religious and regional settings against the background of globalizing biotechnology It explores on a cross cultural level the problems and opportunities of global bioethics

The Labyrinths of Love Lee Irwin, 2019-10-09 Labyrinths of Love is an interdisciplinary examination of the self psyche and soul providing a comparative analysis from religious paranormal research and transpersonal theory perspectives The book addresses ontological questions regarding the nature of the self in relationship to both psyche and soul each differentiated to reveal attributes that are transphysical and commonly recognized in most religious traditions The role of dreams imagination and paranormal perceptions as well contribute to a more fully realized sense of identity A constructive use of pansentient ontology illuminates how human identity can incorporate transphysical aspects of self into a meaningful theory of self development and evolutionary becoming The work creates a unique synthesis that unfolds what it means to be human and demonstrates a visionary epistemology of the self
