is a Polish Jew who after fleeing the Nazis finds refuge in the USSR Translated into English from the original Yiddish by Maurice Wolfthal the narrative follows Menakhem as he fights on the front line in Stalin's Red Army against Hitler and the Nazis who are destroying his homeland of Poland and exterminating the Jews Menakhem encounters anti-Semitism on various occasions throughout the novel and struggles to comprehend how seemingly normal people could hold such appalling views As Mann writes it is odd that vicious insidious anti-Semitism could reside in a person with elevated feelings an average person a decent person The Fall of Berlin is both a striking and timely look at the struggle that many Jewish soldiers faced An affecting and unique book which eloquently explores a variety of themes such as anti-Semitism patriotism Stalinism and life as a Jewish soldier in the Second World War this is essential reading for anyone interested in the Yiddish language Jewish history and the history of World War II     *The Fall of the Berlin Wall* Jeff Hay, 2010 Collects nineteen essays that offer varying perspectives on the destruction of the Berlin Wall discussing the history of the wall controversies and the political and personal significance of the wall's destruction     *FALL OF BERLIN* ANTHONY. TUCKER-JONES, 2024     *The Fall of Berlin* Vasilii Ivanovich Chuikov, 1968 The story of the battle for and the fall of Berlin by the Russian General whose 8th Guards Army spearheaded this last great campaign of World War II in Europe     *Blood in the Oder: The Fall of Berlin, 1945* Wilhelm Tieke, 2024-03-30 Blood in the Oder is the second of two volumes exploring the Battle for Berlin and the last months of the Third Reich and the defense of Berlin It describes in detail the German attempts to stem the Soviet tide at the Oder River and the Russian drive on Germany's capital and Hitler's increasingly frantic and delusional efforts to halt the onslaught of the Red Army Streams of German soldiers and civilians desperately tried to flee the city before it was surrounded Their fate if captured by the Russians was too horrible to imagine This account mixes the descriptions of the overall military situation with many personal accounts of small unit actions The desperation fear and resolve of the soldiers often turned to admirable feats of bravery as well as acts of cowardice and brutality Hope for a last minute alliance with the Western Powers encouraged the Germans to defend to the limit of human endurance Ultimately the dashing of such an alliance and the possibility of capture by the Soviets drove many soldiers and civilians to suicide The reader has the opportunity here to relive the last days of the Third Reich as seen through the eyes of the German soldiers and the foreign volunteers who fought before and in Berlin In one of the ironic incidents of the war as German soldiers were trying to bypass Berlin to the north a force of French Waffen SS troops was trying to enter the city to defend it     *Slicing Spaces: Performance of Architecture in Cinema* Gul Kacmaz Erk, Rebecca-Jane McConnell, 2023-05-26 As suggested in the title Slicing Spaces Performance of Architecture in Cinema this project slices through the multifaceted layers of film space The text investigates how architecture performs as an altruist proving that envired space is not merely a backdrop in film scenes but an active performing character The performance of architecture varies depending on what the filmmakers wish the viewer to feel whether it is fear compassion or joy Considerations take an interdisciplinary approach not solely observing film and

architecture but also studying the likes of urbanism politics philosophy history psychology art and design The substantial spectrum of opinions from contributing authors allows the reader to absorb the diverse relationships of architecture in cinema inviting the reader to form their own opinions on the topic and inspiring a new way of thinking Slicing Spaces explores the interconnected relationship between architecture and film via distinct approaches to spaces of the city confinement actuality the psyche and the imagination Diverse views on cinematic architecture are probed such as the psychological ramifications of film architecture the portrayals of the city as a character and the potentials of exploring fantastic places in film Overall the book focuses on the authoritative contribution of architecture to the realm of filmmaking It uncovers a path to look at lived spaces of architectural design from an alternative perspective be it interiors buildings or cities Utilising the architectural ingenuity of drawings and graphics the collection takes the reader on a visual journey as well as one through narratives

*How the Soviet Man Was Unmade* Lilya Kaganovsky, 2010-06-15 In Stalinist Russia the idealized Soviet man projected an image of strength virility and unyielding drive in his desire to build a powerful socialist state In monuments posters and other tools of cultural production he became the demigod of Communist ideology But beneath the surface of this fantasy between the lines of texts and in film lurked another figure the wounded body of the heroic invalid the second version of Stalin's New Man In *How the Soviet Man Was Unmade* Lilya Kaganovsky exposes the paradox behind the myth of the indestructible Stalinist era male In her analysis of social realist literature and cinema she examines the recurring theme of the mutilated male body which appears with startling frequency Kaganovsky views this representation as a thinly veiled statement about the emasculated male condition during the Stalinist era Because the communist state was full of heroes a man could only truly distinguish himself and attain hero status through bodily sacrifice yet in his wounding he was forever reminded that he would be limited in what he could achieve and was expected to remain in a state of continued subservience to Stalin and the party Kaganovsky provides an insightful reevaluation of classic works of the period including the novels of Nikolai Ostrovskii *How Steel Was Tempered* and Boris Polevoi *A Story About a Real Man* and films such as Ivan Pyr'ev's *The Party Card* Eduard Pentslin's *The Fighter Pilots* and Mikhail Chiaureli's *The Fall of Berlin* among others The symbolism of wounding and dismemberment in these works acts as a fissure in the facade of Stalinist cultural production through which we can view the consequences of historic and political trauma
