Constructivism and Social Learning Alan Pritchard, John Woollard, 2013-05-13 Psychology for the Classroom

Constructivism and Social Learning provides a lively introduction to the much debated topics of talk and group collaboration in classrooms and the development of interactive approaches to teaching. The authors provide a background to research in constructivist and social learning theory offering a broad and practical analysis which focuses on contemporary issues and strategies including the use of e learning and multimedia. Throughout the book theory is linked with its practical implications for everyday teaching and learning and chapters incorporate the history of constructivist and social learning theory and key thinkers. Pedagogical implications, practical strategies for the classroom, constructivist theory and e learning. Case studies and vignettes demonstrating best practice are used throughout the text illustrating how monitored collaboration between learners can result in an effective learning environment where targets are met. Essential reading for practising teachers and students. This book is a valuable guide for those looking to provide effective teaching and learning within a constructivist framework.

Systematic Instruction of Functional Skills for Students and Adults with Disabilities Keith Storey, Craig A. Miner, 2011. This text is a clear and current description of the instructional strategies that can be immediately applied across age groups and disability labels. An evidence based instructional methodology is provided which has proved to be effective in teaching skills to students and adults with disabilities. Signature topics include: 1. a community referenced functional curriculum, 2. how to assess and analyze skills, 3. teaching skills, 4. functional academics, 5. teaching employment skills, 6. functional skills in community, 7. functional skills in residential settings, 8. teaching social skills, 9. self determination and self advocacy skills, and 10. self management skills. Each chapter includes Key Point Questions, Windows to the World, Case Studies, Best Practice Recommendations, Future Research Issues, Discussion Questions, and School and Community based Activity Suggestions to illustrate, extend, and clarify a systematic approach to improving the functional skills of individuals with disabilities. These features allow the reader to explore and apply effective instructional strategies across domains such as employment, community, residential, as well as the skills necessary to enjoy recreation and leisure opportunities. The most unique feature is that it is written specifically for practitioners in the field, not for academics. The format, readability, and detailed description of instructional methodology make it a valued resource for instructors responsible for improving the skills of learners with disabilities.
