From Part One Our ignorance of the marine world is much greater still It is such that I do not hesitate to claim that in the ocean everything is still possible Faced with the immensity of Neptune s realm a certain degree of gullibility is preferable to blind incredulity If it was claimed tomorrow that a real mermaid had been captured not just an ugly manatee but a creature boasting Marilyn Monroe s bust and the tail of a coelacanth the attitude of the zoologist who wished to see it would be much more scientifically justifiable than that of his colleague who would merely shrug the news away The sea covers more than three fifths of the surface of the globe but our ships cross it only along rather narrow and fixed paths This book looks at the science behind the stories
