Sleeping Beauties William Joseph Dewey, Toshiko Miyabayashi McCallum, Jerome Feldman, 1993      **Behind Closed Eyes** Kasia Szpakowska, 2003-12-31 Dreams and nightmares have long puzzled and fascinated yet this is the first book to explore such visions in the Ancient Egyptian world The author traces the evidence from the first half of Egypt's long history the Old Kingdom through the New Kingdom a time span of over 1 000 years The book is arranged thematically with chapters devoted to the literary use of dreams to the political use of divine visions to the technology used to ward away terrorizing nightmares It also explores the Ramesside Dream Book a unique text that reveals the desires and anxieties that could inspire an Egyptian's dreams with images of sex and power of gods and the dead All the relevant passages are conveniently translated in an appendix

**African Dream Machines** Anitra Nettleton, 2007-10-01 African Dream Machines takes African headrests out of the category of functional objects and into the more rarefied category of art objects Styles in African headrests are usually defined in terms of western art and archaeological discourses but this book interrogates these definitions of style and demonstrates the shortcomings of defining a single formal style model as exclusive to a single ethnic group Among the artefacts made by southern African peoples headrests were the best known Anitra Nettleton's study of the uses and forms of headrests opened up a number of art historical methodologies in the attempt to gain an understanding of form style and content in African art objects Her drawings of each and every headrest encountered become a major part of the project
