Dore, 2000 Annotation This is a book about Washington Consensus capitalism and the controversies its encroachment causes in Japan and Germany Many people in both those countries share the assumptions dominant today in Britain and America that managers should be intent solely on creating shareholder value and that shareholders financial logic alone should determine who buys what company on the stock exchange That way efficiency and hence global welfare will be maximized The Japanese and German advocates of full blooded market capitalism are not having it all their own way however In both countries there are articulate defenders of what they consider to be a better way of life informed by a more human more social solidary set of values Dore traces the fascinating debates which ensue on corporate governance on worker rights on supplier relations on cartels and anti trust on pensions and welfare He also analyses actual changes in economic behaviour an essential means of sorting out a lot of the muddle and double talk not just in the internal debates themselves but even more in the foreign reporting of them These accounts of the battle for the national soul in Japan and Germany constitute one of the finest contributions to the diversity of capitalism debate Dore's account should be read by anyone who is interested to know whether for all the talk of globalization that diversity is going to survive **The Japanese and German Economies in the 20th and 21st Centuries** Kudo Akira, 2025-10-01 Supported by a number of high profile case studies this volume offers a comprehensive exploration of Japanese German economic relations through the whole of the twentieth and beginning of the twenty first centuries It also offers clarification on the structure and processes of the world economy in the same period Drawing on both unpublished discussion papers as well as previously published essays the reader will find much of interest in the wide ranging scholarship contained in this work structured as follows Part I Japanese German Business Relations Part II Trajectory of Japanese German Business Relations Part III The Japanese and European Business and Economies A Foreword by YUZAWA Takeshi Professor Emeritus Gakushuin University Tokyo evaluates the relevance and significance of Professor Kudo's lifetime research and scholarship in the context of German Japanese relations Globalisation and Women in the Japanese Workforce Beverley Bishop, 2004-12-15 This book contributes to the debate about the impact of globalisation upon women and examines the impact of restructuring upon women's employment in Japan Historical Dictionary of Postwar Japan William D.
