Stopping The Spread Of Nuclear Weapons The Past And The Prospects:

Stopping the Spread of Nuclear Weapons David Fischer, 1992 Fischer who helped draft the original charter of the International Atomic Energy Agency IAEA provides a detailed historical account of current non proliferation treaties and controls He notes that originally the proliferation problem was how to permit the development of nuclear power for cheap energy without permitting countries to develop bombs now the problem is how to prevent countries determined to build atomic bombs from acquiring the requisite technology Many technologies explosives computers nuclear energy that are key to the development of nuclear weapons also have other legitimate applications Fischer recommends reorienting the current non proliferation regime which is largely a Soviet American invention into one also supported by economic powers the European Community and Japan and that potential new nuclear states and closet nuclear powers be brought under broader IAEA controls ISBN 0 415 00481 0 66 95

Stopping the Spread of Nuclear Weapons D. A. V. Fischer, 1991 *The Future of the Non-Proliferation Treaty* Darryl Howlett, John Simpson, 2016-07-27 In 1995 a Conference is to be convened to review and extend the Treaty on the NonProliferation of Nuclear Weapons NPT The Future of the NPT brings together a distinguished group of individuals including the elected President of the 1995 NPT Conference to analyse four crucial agenda areas relevant to the Conference the preConference activities to be undertaken by both States Parties and the Conference Secretariat those security issues that relate to a review of the treaty such as nuclear disarmament and security assurances peaceful uses and verification questions and regional issues With nuclear nonproliferation currently occupying a prominent position on the international security agenda the 1995 Conference offers a unique opportunity for a constructive discussion on these areas and it is hoped that this volume will provide a contribution to that end

Historical Dictionary of Arms Control and Disarmament Jeffrey A. Larsen, James M. Smith, 2005-03-25 Historical Dictionary of Arms Control and Disarmament provides a historical review of key themes and issues in international security and arms control focusing on efforts in the 20th century to control the spread and use of armaments and to prevent war This book summarizes the rich and proud traditions of arms control and disarmament their critical role in ensuring a non catastrophic course throughout history especially the dangerous period of the Cold War and their continuing relevance and role in the emerging post Cold War world It also seeks to reinforce a broad perspective of key terms in order to capture the scope and range of their application yesterday today and tomorrow Given this combined tradition and focus this Dictionary serves two purposes As a historical dictionary it chronicles key terms personalities events and agreements as a ready reference from which to launch a more extensive investigation But it also seeks to capture the breadth of current and future applications by presenting the vocabulary of traditional and non traditional approaches The book includes a large dictionary of more than 1 000 key terms

as well as a comprehensive bibliography divided into multiple categories an extensive chronology and a timeline This book can also serve as a useful desk reference for the policy practitioner The pace and intensity of the practice of arms control often eliminates the luxury of conventional study of past or related arms control efforts The dictionary seeks to provide a relevant sampling of treaty and agreement details and of the specific terms of reference of arms control to allow productive progress in a policy work environment Researchers and students will also find the dictionary to be a useful reference tool Much of the formal literature in the field such as treaty texts and policy pronouncements is written in technical language without elaboration Also many references to agreements are posed in shorthand intended only for the policy practitioner
