Storia Dell Urbanistica Lottocento 2:

Designing Grid Cities for Optimized Urban Development and Planning Carlone, Guiseppe, Martinelli, Nicola, Rotondo, Francesco, 2018-03-02 With the growth of the global population the expansion of metropolitan areas has become an essential aspect of land development With the need for more space to accommodate the growing population discussion on the best methods of expansion has arisen Designing Grid Cities for Optimized Urban Development and Planning is a critical scholarly resource that explores the expansion and extension of metropolitan areas following orthogonal development plans Featuring coverage on a wide range of topics such as built environment grid cities and orthogonal urban matrix this publication is geared towards engineers city development planners professionals academicians researchers and students seeking current research on the advantages of using orthogonal development plans for metropolitan expansion **The Architecture of Modern Italy** Terry Kirk, 2005-06-02 The history of design in Italy is explored in this authoritative and comprehensive work Design periods include the era of Piranesi the eclecticism of the 19th century the futurism of the early 20th century the dogmatic fascism of the interwar period the designs of Pier Luigi Nervi and on to the present day *Against the Commons* Álvaro Sevilla-Buitrago, 2022-09-27 An alternative history of capitalist urbanization through the lens of the commons Characterized by shared self managed access to food housing and the basic conditions for a creative life the commons are essential for communities to flourish and protect spaces of collective autonomy from capitalist encroachment In a narrative spanning more than three centuries Against the Commons provides a radical counterhistory of urban planning that explores how capitalism and spatial politics have evolved to address this challenge Highlighting episodes from preindustrial England New York City and Chicago between the 1850s and the early 1900s Weimar era Berlin and neoliberal Milan Ivaro Sevilla Buitrago shows how capitalist urbanization has eroded the egalitarian convivial life worlds around the commons The book combines detailed archival research with provocative critical theory to illuminate past and ongoing struggles over land shared resources public space neighborhoods creativity and spatial imaginaries Against the Commons underscores the ways urbanization shapes the social fabric of places and territories lending particular awareness to the impact of planning and design initiatives on working class communities and popular strata Projecting history into the future it outlines an alternative vision for a postcapitalist urban planning one in which the structure of collective spaces is ultimately defined by the people who inhabit them **Asmara - an urban history** Belula Tecle-Misghina, 2015-02-11 Like any city Asmara a young city even by the standards of young African capitals is a stage set where the drama of history has unfolded in the most intense and eloquent manner The territory of Asmara stands at the edge of a space of almost mythical civilisations ancient religions and proud empires It is also a natural acropolis in the vastness of Africa an astoundingly high crest that looks down from above on the coast of the Eritrean sea coming to a halt where the Afar Rift expands and year after year rips into the heart of Africa where lions and gnus still roam free However in its body and thus in its history Asmara is also a fragment of Europe imported

atop the undulating highlands of Hamasien by the presumption of the most fragile and thus most presumptuous of colonial nations Italy Less than 130 years later history appears to have intentionally concentrated a host of events projects interests delusions conflicts and hopes in Asmara that within the vaster expanses of historical time could have filled dozens of centuries These metamorphoses were similar to immense waves lapping at a resistant soil introducing and withdrawing diverse foreign armies peoples languages and cultures and adversities The results of so much labour have forged the identity of Eritrea jealously defended for decades and jealously guarded to this day Looking carefully in libraries among printed works dedicated to particular aspects of this identity numerous and some very important it is impossible to find a history of Eritrea that is scientifically complete and up to date This is a serious shortcoming Yet everything has remained impressed upon the land and even more eloquently on the city on the face and limbs of Asmara Hence the reconstruction like that made by the author of this book of the difficult process of planning the city signifies not only restoring similar to an animation the history of the complex growth of an urban organism Lucio Valerio Barbera UNESCO Chairholder in Sustainable Urban Quality and Urban Culture notably in Africa Sapienza Universit di Roma At the end of the Thirties from Naples to Massawa the Port of Empire since 1890 an important commercial base and natural access point for anyone wishing to reach Asmara and the Eritrean uplands the voyage took five days from the port one could reach the capital of the Colony by train on an intrepid mountain rail way or by a motor road Road n 1 from Dogali Asmara was only 120 km away If one wanted to make the journey by air it took three and a half days thanks to the Empire Line which involved taking a seaplane from the Carlo Del Prete base in Ostia to Benghazi in Libya and then a plane to the Umberto Maddalena Airport in Asmara with stops at Cairo Wadi Haifa Khartoum and C ssala on the Sudanese border And right next door to the Airport stood the Teleferica Massawa Asmara an extraordinary cableway for transporting goods up on to the plateau at a height difference of 2 326 metres the cableway had been built in two years between 1935 and 1937 and at a length of 75 km was the longest industrial cableway system in the world It could move in one day the equivalent of thirty train loads but it was at its full operational capacity for only a few years in 1941 it was damaged in the war with the British and ten years later when Eritrea became a British Protectorate it was unexpectedly decided to dismantle it capital of the new country These events act as a backdrop and form a solid framework for Tecle Misghina s research which is not only meticulous but emotionally involved of which this book is a well documented summary Her research is important in that it reconfigures and puts in order various documents both known and unpublished in order to build up a chronology and an armoury of references that are indispensable for anyone wishing to carry out further studies on the Eritrean capital For a project developed within a Doctoral programme this is in my opinion the most important outcome of her research Piero Ostilio Rossi Director of the Department of Architecture and Design Sapienza Universit di Roma

CITTÀ D'EUROPA E CULTURA URBANISTICA NEL MEZZOGIORNO BORBONICO
Raffaele Ruggiero, 2018-11-05 English After centuries of submission to the foreign rulers between the eighteenth and the

nineteenth century the South of Italy took a leading role in the European political landscape on one hand absorbing in its culture the huge heritage of values and knowledge of those civilizations on the other hand appealing to its own scientists intellectuals and technicians fervid minds to achieve relevant international goals in the field of the public and urbanistic works Kings such as Charles of Bourbon and Ferdinand II were the main promoters of this ransom and of the achieved primacies Rummaging through the iconographic documents passed on their desks nowadays rearranged in the Neapolitan National library Palatine collection and consulting the volumes of the Royal library it turns out a great turmoil of ideas and projects but also the confirmation of the large amount of potentialities unfortunately not completely expressed by the Neapolitan State it occurred it should be said not only as a consequence of the end of the kingdom but also as a result of the specific political responsibility of that dynasty Unfortunately Italy's unification didn't enhance the heritage of these experiences nor it rectified the structural inadequacies of the former regime on the contrary the new State often contributed to increase them stifling a socio economic promise of development still today unrealized Italiano Dopo secoli di sottomissione alle potenze straniere tra Sette e Ottocento il Mezzogiorno d'Italia assunse un ruolo di grande prestigio nel panorama europeo da un lato introiettando nella propria cultura il cospicuo patrimonio di valori e conoscenze di quelle civiltà dall'altro facendo leva sulle fervide menti dei propri scienziati intellettuali e tecnici per raggiungere traguardi di assoluto rilievo internazionale nel campo delle opere pubbliche e dell'urbanistica Sovrani come Carlo di Borbone e Ferdinando II furono i principali promotori di questo riscatto e dei primati conseguiti Frugando tra i documenti iconografici transitati sulla loro scrivania oggi riordinati nella raccolta Palatina della Biblioteca Nazionale di Napoli e interrogando i volumi della Biblioteca Reale si scopre un ricco fermento di idee e di progettualità ma anche la conferma del ricco quadro delle potenzialità purtroppo non pienamente espresse dallo Stato napoletano ci va detto non soltanto a seguito della fine del Regno ma anche per le precise responsabilità politiche di quella dinastia Purtroppo con l'Unità d'Italia tale patrimonio di esperienze non fu valorizzato né corrette le deficienze strutturali del passato regime anzi il nuovo Stato contribuì sovente ad amplificarle soffocando una promessa di sviluppo socio economico che resta ancor oggi inattuata
