The Lay Saint Mary Harvey Doyno, 2019-10-15 In *The Lay Saint* Mary Harvey Doyno investigates the phenomenon of saintly cults that formed around pious merchants artisans midwives domestic servants and others in the medieval communes of northern and central Italy Drawing on a wide array of sources vitae documenting their saintly lives and legends miracle books religious art and communal records Doyno uses the rise of and tensions surrounding these civic cults to explore medieval notions of lay religiosity charismatic power civic identity and the church's authority in this period Although claims about laymen's and laywomen's miraculous abilities challenged the church's expanding political and spiritual dominion both papal and civic authorities Doyno finds vigorously promoted their cults She shows that this support was neither a simple reflection of the extraordinary lay religious zeal that marked late medieval urban life nor of the Church's recognition of that enthusiasm Rather the history of lay saints cults powerfully illustrates the extent to which lay Christians embraced the vita apostolica the ideal way of life as modeled by the Apostles and of the church's efforts to restrain and manage such claims

The Florentine florin Stefano Locatelli, 2025-03-18 Minted in Florence around November 1252 the florin became one of the leading gold currencies of the Middle Ages Historians agree that its success was mainly due to the need for a stable means of payment in the networks of international trade *The Florentine Florin* investigates the florin as a medium with hitherto neglected political social and cultural dimensions By bringing human agents and political institutions more prominently into the history of the coin this book enhances our understanding of money and its nature from a historical perspective and provides an original framework for the integrated study of material culture and economic practices
