The big story falls apart Glenn Martin, 2013 The big story is the story that sits behind all our other stories It is the story that provides the stable context for our lives The author describes in first person perspective what it means when the big story falls apart He grew up in the 1960s so there were plenty of socially based reasons for feeling that all the certainties were crumbling And there were personal reasons too An inability to even choose a career Part 1 is The Disintegration It finds the author leaving the city Fleeing But he finds a place to settle in a valley that has walls of refuge a place of retreat It is good enough He is telling this story as it happened that memory returns to him after so long He gives up books he takes up gardening He never stops thinking about the big story But he ventures back in to a town to a job a tumultuous job that required him to learn the art of war Books come back in and music Eventually there is a return to the city wondering if it will be different Part 2 is The Renewing He says he is on a campaign to find the roots of the world tree Writing about human resources and training in the day time finding peace and joy in music But he knows what he is finding in the stories when his experiences turn into story It is love and morals And some of the stories are in song Part 3 is Onward The author has to come back to the present but he is called away by Mu the chanter who has been here before Mu s desire is to dance at the music festival and we think he intends to stay but he comes and is gone with just a nod to the tawny frogmouth sitting in the tree Part 4 is Reframing The author is older He is making principles Now he knows that heaven and earth are working together At the end the story goes on The energy flows in all directions
