Slone,2001 A two volume collection of folktales that were published in Papua New Guinea s Wantok newspaper The two volume collection presents the complete set of 1047 folktales that were originally published from 1972 through 1997 in Tok Pisin **The Failure Project The Story Of Man's Greatest Fear** ANUP KOCHHAR,2017-08-11 Failure destroys lives It damages confidence and crushes the spirit Throughout our lives we endeavour to manage our thoughts actions and results so as not to be branded as failures However despite our best intentions life does have a way of throwing curve balls and surprising us Things do not always go the way we planned or wished for Failure happens And it will continue to happen For most people failure is akin to a dreaded disease that must be prevented at any cost Certainly it can never be admitted to Failure is like fire it has the power to singe or destroy completely Few of us remember that failure can also be harnessed creatively All that it requires is a different perspective What do we know of failure More importantly how much do we know about it The first step to overcoming our inherent fear of failure is to know the enemy inside and out This amazing comprehensive and compassionate book helps us understand the anatomy psychology and management of failure the greatest and often the most secret fear of Man *T: The Story of Testosterone, the Hormone that Dominates and Divides Us* Carole Hooven,2021-07-13 Through riveting personal stories and the latest research Harvard evolutionary biologist Carole Hooven shows how testosterone drives the behavior of the sexes apart and how understanding the science behind this hormone is empowering for all Since antiquity from the eunuchs in the royal courts of ancient China to the booming market for elixirs of youth in nineteenth century Europe humans have understood that typically masculine behavior depends on testicles the main source of testosterone in males Which sex has the highest rates of physical violence hunger for status and desire for a high number of sex partners Just follow the testosterone Although we humans can study and reflect on our own behavior we are also animals the products of millions of years of evolution Fascinating research on creatures from chimpanzees to spiny lizards shows how high testosterone helps males out reproduce their competitors And men are no exception While most people agree that sex differences in human behavior exist they disagree about the reasons But the science is clear testosterone is a potent force in human society driving the bodies and behavior of the sexes apart But as Hooven shows in T it does so in concert with genes and culture to produce a vast variety of male and female behavior And

crucially the fact that many sex differences are grounded in biology provides no support for restrictive gender norms or patriarchal values In understanding testosterone we better understand ourselves and one another and how we might build a fairer safer society *Rats! the Story of the Pied Piper* Dave Perry, Jean Perry, 2003-04 RATS The town of Hamelin is overrun with them and the citizens are in a tizzy until the mysterious Pied Piper appears offering to solve their dilemma for a small fee Dave and Jean Perry tell the story like never before in this fast paced 35 minute musical setting The characters are charming the dialog is witty the songs are clever and fun to sing and the fully orchestrated SoundTrax CD is spectacular
