Home and Sexuality Rachael M Scicluna,2017-07-12 This book explores the meanings and experiences of home among a group of lesbians who over the past five decades have sought to create alternative intimate and public living spaces The protagonists who enact the ethnographic narrative are a small group of older lesbians mainly feminist activists residing in the metropolis of London The meaning of home and domestic space emerges from unique life histories informed by the wider social and political context and moves from the earliest memories of their childhood kitchens to their contemporary domestic lives Leaping from the radical lesbian feminist collectives and squats of the 1980s to the ordinariness of home life the kitchen emerged as a tangle of cultural norms customs duties ideas aspirations expectations and values that tells us about the thinking process and behaviour of this specific group of older lesbians In this context the kitchen brings out the experiences of social inequalities experienced by these older lesbians mainly brought out by the hegemonic institution of heteronormativity and patriarchy This ethnography will be of interest to students and scholars across a range of disciplines in anthropology sociology geography and feminism

Queering the Interior Andrew Gorman-Murray, Matt Cook,2020-06-11 *Queering the Interior* problematizes the familiar space of home It deploys a queer lens to view domestic interiors and conventions and uncovers some of the complexities of homemaking for queer people Each of the book's six sections focuses on a different room or space inside the home The journey starts with entryways and continues through kitchens living spaces bedrooms bathrooms and finally closets and studies In each case up

to three specialists bring their disciplinary expertise and queer perspectives to bear The result is a fascinating collection of essays by scholars from literary studies geography sociology anthropology history and art history The contributors use historical and sociological case studies spatial art and literary analyses interviews and experimental visual approaches to deliver fresh detailed and grounded perspectives on the home and its queer dimensions A highly creative approach to the analysis of domestic spaces Queering the Interior makes an important contribution to the fields of gender studies social and cultural history cultural studies design architecture anthropology sociology and cultural geography

Voices from the Kitchen Marc Meyer, 2025-11-18 27 personal histories of immigrant restaurant workers in New York City whose stories of persistence hope and endurance show how vital they are to our country Compiled by a longtime chef who knows how indispensable and fascinating they are All author proceeds from the book will be distributed evenly among the contributors Immigrants play an essential role in the growth resiliency and overall success of the food industry In an age of rising anti immigrant rhetoric their voices must be heard Restaurants as we know them in the US would not exist without immigrant labor begins Marc Meyer's preface to this unique collection With these words Meyer makes clear his commitment to centering the voices of the staff members who make his restaurants possible All of the contributors came to New York from another part of the world Mexico Bangladesh Ivory Coast and beyond and all found their foothold in the restaurant industry Among them are Angel V an openly gay dissident lawyer from Venezuela who survived two kidnappings before coming to the US Islam from Bangladesh who worked as a runner and expeditor and is now building his own mosque in Jamaica Queens Carlha a Dominican sous chef at Shuka who still makes rice the way her father taught her when she was a child Their stories are a window into the staggering range of life experiences that immigrant workers carry with them They are by turns funny dark poignant surprising and relatable Most of all they deserve our respect and our solidarity

Kitchen Table Entrepreneurs Martha Shirk, Anna S Wadia, 2009-06-17 Over the last five years the number of women owned businesses has grown at twice the rate of all U S firms in the next few years the number is expected to surpass the six million mark Kitchen Table Entrepreneurs tells the inspirational stories of eleven low income women who have marshaled the creative energy confidence and capital necessary to start their own small businesses These women who have used their entrepreneurial skills as a route out of poverty give an American face to an economic empowerment tool that has enjoyed great success in developing countries By becoming their own bosses they not only provide for their children but also inspire them Though each of their businesses is unique all eleven of these women have discovered previously unknown strengths as they've struggled to overcome personal and bureaucratic obstacles All received important assistance from nonprofit organizations supported by the Ms Foundation for Women the pioneer funding entity of microenterprise programs in the United States Updated with a new epilogue

The Companion for the Kitchen Garden Henry Phillips, 1831

Significant Food Jeff Birkenstein, Robert C. Hauhart, 2024 Significant Food is a collaborative work of textual analysis and criticism that chews on

the role and prominence of food in American literature The volume offers close readings of many well known and some less well known examples of American writing as studied through the food culture sensibilities of a well stocked cupboard of contributors who offer their analyses for public consumption Editors Jeff Birkenstein and Robert C Hauhart find that literary criticism has focused on the role food plays in literary production to a greater extent than recognized at first glance and that its role has become increasingly common only in the last two decades Still while there is critical commentary regarding authors use of food across the expanse of American literature there has been a lack of a unifying critical theories to guide these analyses Birkenstein and Hauhart offer the theory of significant food a method that asks literary critics to evaluate and assess the extent nature and role that food plays in literary production When food and food moments are used intensively and significantly within the drama memoir poem novel short story or other writing then one can say that it has achieved a status that makes it indispensable to the work at hand

Refining Expertise Gwen Ottinger, 2013-03-04 Winner of the 2015 Rachel Carson Prize presented by the Society for Social Studies of Science Residents of a small Louisiana town were sure that the oil refinery next door was making them sick As part of a campaign demanding relocation away from the refinery they collected scientific data to prove it Their campaign ended with a settlement agreement that addressed many of their grievances but not concerns about their health Yet instead of continuing to collect data residents began to let refinery scientists assertions that their operations did not harm them stand without challenge What makes a community move so suddenly from actively challenging to apparently accepting experts authority Refining Expertise argues that the answer lies in the way that refinery scientists and engineers defined themselves as experts Rather than claiming to be infallible they began to portray themselves as responsible committed to operating safely and to contributing to the well being of the community The volume shows that by grounding their claims to responsibility in influential ideas from the larger culture about what makes good citizens nice communities and moral companies refinery scientists made it much harder for residents

to challenge their expertise and thus re established their authority over scientific questions related to the refinery's health and environmental effects Gwen Ottinger here shows how industrial facilities current approaches to dealing with concerned communities approaches which leave much room for negotiation while shielding industry's environmental and health claims from critique effectively undermine not only individual grassroots campaigns but also environmental justice activism and far reaching efforts to democratize science This work drives home the need for both activists and politically engaged scholars to reconfigure their own activities in response in order to advance community health and robust scientific knowledge about it

The Kitchen Spoon's Handle Michele Ruth Gamburd, 2000 A common Sinhala proverb states A woman's understanding reaches only the length of the kitchen spoon's handle In this beautifully written book on the effects of female migration from Sri Lanka Michele Ruth Gamburd shows that the length of that handle now spans several thousand miles rather than a mere twelve inches During the past twenty years a great many Sri Lankan women have left their homes and families to work as housemaids in the wealthy oil producing states of the Middle East Gamburd explores global and local as well as personal reasons why so many women leave to work so far away Focusing primarily on the home community rather than on the experiences of the workers abroad she vividly illustrates the impact of the migration on those left behind and on the migrants who return As migrant women take on the formerly masculine role of breadwinner Gamburd explains traditional concepts of the value of women's work are significantly altered She examines the effects of female migration on caste hierarchies class relations gender roles and family interactions *The Kitchen Spoon's Handle* skillfully blends the stories and memories of returned migrants and their families and neighbors with interviews with government officials recruiting agents and moneylenders The book provides a rich and sensitive portrait of the confluence of global and local processes in the lives of the villagers Gamburd presents a sophisticated yet very readable discussion of current theories of power agency and identity
