The Eye of the Storm Salidor

Christoffel Coetzee, 2021-03-02 A Quest for Truth This book is dedicated to the world's most vulnerable people who suffer from atrocities stemming from wars, poverty, addictions, and foremost those who were infected by or died because of the COVID-19 coronavirus. A virus that was created in and originating from China, Wuhan City in the Hubei province. The virus spread rapidly, creating immense havoc across the globe, sparing no country or human being, a virus without borders with devastating effects. It is time for introspection and reflection, a time for a psychological and spiritual makeover, time to remove idols from our midst and honour one God, the God of Adam and Eve, God of Abraham, Sarah, Hagar, Ishmael, and Isaac, God the Oneness. The story of Abraham is retold in the book from a Christian biblical perspective but more so from a Muslim belief, the Quran perspective, a constructive attempt to align and bridge the divides between nations during these difficult testing times. Through the book, the author fulfils that commitment and promise made as a young boy to God to spread God's message of hope and love into the world to bridge the cultural divide, to promote care for the poor and homeless. Similar to the COVID-19 coronavirus, God's grace, love, and forgiveness have no borders. The world is in desperate need of spiritual cure and revival across borders. It is a world in constant chaos and turmoil, instigated and promulgated by politicians and business and country leaders, ethical misbehaviour across the globe, hearts and minds contaminated by a deadly infected, cancerous disease, for example, lust, arrogance, and greed, fraudulent and corrupt hearts and minds, an extremism philosophy and theology in its own right. The author sadly lost his wife in 2010 due to breast cancer. In 2011, he was on the verge of becoming a tramp in the streets of South Africa. Yes, a highly qualified individual with years of experience as a financial manager in a big corporate company with 8 years high-level academic accomplishments. If people ask him, "How was it possible?" he will tell them, "It is very possible; it all depends on every individual's personal circumstances. God the Oneness knows every hair on your head. He loves and cares about you anyway, wherever and whatever you are." The author lived and worked for seven years of his career as a cost engineer for a large oil and gas company in Saudi Arabia. He also previously worked as financial manager for a joint venture oil and gas company in Iran, Arya Sasol Polymer Company (ASPC), a joint venture company with 50 per cent ownership from oil and gas company National Petroleum Company (NPC) Iran and 50 per cent ownership from oil and gas company Sasol South Africa. Both companies were represented on the ASPC board by three directors respectively. He had the joy and fulfilment of visiting many countries during his short life, apart from working and living in Saudi Arabia and Iran. A journey always has a starting and a finishing point, starting life from fertilisation to an unborn fruit in the womb of your mother until you pass on to something much bigger and better, eternal life, heavenly freedom and peace in the presence of God, the Creator and Oneness. In the book, Saudi Arabia and Iran are extensively discussed to provide insight to the reader. The two countries are uniquely different but in many ways the same. The author attempts to give the reader a glimpse of life as an expatriate worker in both countries, Saudi Arabia and Iran, a journey never to forget or to regret, a humble, faithful, committed contribution to mankind in a dynamic and diverse way in a dynamic and diverse multicultural environment. In some instances

the author feels obliged to speak the truth and only the truth because truth matters for the sake of reflection admission repentance and necessary corrective action by business leaders politicians and governments alike to take a leaf from the author's book of life *The Leadership Challenge* are discussed using Nelson Mandela a previous president of South Africa as an example to explain the concept of Servant leadership Few images in history are more powerful than that of Nelson Mandela fist raised in a dignified grey suit walking after his release from 27 years of imprisonment his short walk to freedom Mandela was only 44 years old when he was given a life sentence by the apartheid regime for his leadership of the African National Congress an organisation outlawed by the South African government for its anti apartheid actions and positions After providing the reader with evidential background the last two chapters deal with the author's personal experiences in Iran and Saudi Arabia respectively two countries that are way apart from each other The two countries apart from being constantly in conflict with each other are also in conflict with other countries because of their deeply rooted differences in religion and cultures but more so because of their greed and love for oil or black gold They are ways apart and indifferent but with so much in common

environment and the means of defending against cyberattack As with all elements of the digital age navies and commercial maritime operations around the world have become increasingly vulnerable to cyber conflict Navies are obvious targets of hostile national and nonstate cyber actions Almost every aspect of commercial maritime activities has become digitized and interconnected and thus vulnerable to cyber intrusions sabotage viruses and destruction In an era when 85 percent of global trade and 70 percent of all liquid fuels travel by sea cyber effects on ships port handling equipment shipping companies maritime suppliers and other maritime industries can cripple manufacturing industries and retail businesses on a global basis Neither navies nor commercial shipping can sail away from cyber threats Initially naval leaders had difficulty accepting and preparing for cyber warfare which is largely viewed as a problem on land and from which ships were perceived as disconnected As a consequence effectively integrating cyber operations into its naval warfighting planning has proven challenging not only for the U S Navy but for allied and adversary navies as well The U S Navy created Fleet Cyber Command FCC with the U S Navy s Tenth Fleet as its cyber operational arm and the Navy s component contributing to U S Cyber Command USCYBERCOM However thus far those efforts appear not to have served the Navy or USCYBERCOM as well as anticipated Cyber Warfare and Navies outlines the various threats that cyber warfare poses to naval and commercial maritime operations as well as the abilities of modern navies to defend against those threats It explains how navies are organized and equipped for cyber operations and the concepts and doctrine adopted by those navies and provides recommendations on how to improve maritime cyber operations The book covers not just the U S Navy U S Marine Corps and U S Coast Guard but also the navies of allies opponents China Russia and others The book also explores the relationship between the U S Navy Marine Corps Coast Guard and USCYBERCOM
