Hrg. 107-854, November 12, 2002, ***, 2003 **The Evolution of Chinese Filiality** Deborah Lynn Porter, 2022-03-10 This unique book brings a fresh interdisciplinary approach to the analysis of ancient Chinese history creating a historical model for the emergence of cultural mainstays by applying recent dramatic findings in the fields of neuroscience and cultural evolution The centrality in Chinese culture of a deep reverence for the lives of preceding generations filial piety is conventionally attributed to Confucius 551 479 B C who viewed hierarchical family relations as foundational for social order Here Porter argues that Confucian conceptions of filiality themselves evolved from a systemized set of behaviors and thoughts a mental structure which descended from a specific Neolithic mindset and that this psychological structure was contoured by particular emotional conditions experienced by China s earliest farmers Using case study analysis from Neolithic sky observers to the dynastic cultures of the Shang and Western Zhou the book shows how filial piety evolved as a structure of feeling a legacy of a cultural predisposition toward particular moods and emotions that were inherited from the ancestral past Porter also brings new urgency to the topic of ecological grief linking the distress central to the evolution of the filial structure to its catalyst in an environmental crisis With a blended multidisciplinary approach combining social neuroscience cultural evolution cognitive archaeology and historical analysis this book is ideal for students and researchers in neuropsychology religion and Chinese culture and history

and Utopia reconstructs the life and political trajectory of this leader whom the people called Tasorentsi the name the Ashaninka give to the world transforming gods and divine emissaries that come to this earth to aid the Ashaninka in times of crisis Fernando Santos Granero follows Tasorentsi's transformations as he evolved from being a debt peon and quasi slave to being a slave raider inspirer of an Ashaninka movement against white mestizo rubber extractors and slave traffickers paramount chief of a multiethnic anti colonial and anti slavery uprising and enthusiastic preacher of an indigenized version of Seventh Day Adventist doctrine whose world transforming message and personal influence extended well beyond Peru's frontiers Drawing on an immense body of original materials ranging from archival documents and oral histories to musical recordings and visual works Santos Granero presents an in depth analysis of chief Tasorentsi's political discourse and actions He demonstrates that despite Tasorentsi's constant self reinventions the chief never forsook his millenarian beliefs anti slavery discourse or efforts to liberate his people from white mestizo oppression Slavery and Utopia thus convincingly refutes those who claim that the Ashaninka proclivity to messianism is an anthropological invention **Supreme Emperor Deng**

Critical Zones Bruno Latour, Peter Weibel, 2020-10-13 Artists and writers portray the disorientation of a world facing climate change. This monumental volume drawn from a 2020 exhibition at the ZKM Center for Art and Media portrays the disorientation of life in world facing climate change. It traces this disorientation to the disconnection between two different definitions of the land on which modernizing humans live: the sovereign nation from which they derive their rights and another one hidden from which they gain their wealth: the land they live on and the land they live from. Charting the land they will inhabit they find not a globe not the iconic blue marble but a series of critical zones: patchy heterogeneous discontinuous. With short pieces longer essays and more than 500 illustrations the contributors explore the new landscape on which it may be possible for humans to land: what it means to be on Earth whether the critical zone the Gaia or the terrestrial. They consider geopolitical conflicts and tools redesigned for the new geopolitics of life forms. The thought exhibition described in this book can open a fictional space to explore the new climate regime: the rest of the story is unknown. Contributors include Dipesh Chakrabarty Pierre Charbonnier Emanuele Coccia Vinciane Despret Jerome Gaillarde Donna Haraway Joseph Leo Koerner Timothy Lenton Richard Powers Simon Schaffer Isabelle Stengers Bronislaw Szerszynski Jan A Zalasiewicz Siegfried Zielinski.
