Stoker Greenwoods Navy:

Stoker Greenwood's Navy Sydney Greenwood,1983-01-01 *Naval Eyewitnesses* James Goulty,2022-11-04 Goulty tells the story from the perspective of the ordinary sailor or officer who was there *The Northern Mariner* Although many books have been written about naval actions during the Second World War histories and memoirs in particular few books have attempted to encompass the extraordinary variety of the experience of the war at sea That is why James Goulty s vivid survey is of such value Sailors in the Royal Navy and the Merchant Navy experienced a war fought on a massive scale on every ocean of the world in a diverse range of vessels from battleships aircraft carriers and submarines to merchant ships and fishing boats Their recollections are as varied as the ships they served in and they take the reader through the entire maritime war as it was perceived at the time by those who had direct personal knowledge of it Throughout the book the emphasis is on the experience of individuals their recruitment and training their expectations and the reality they encountered on active service in many different offensive and defensive roles including convoy duty and coastal defence amphibious operations hunting U boats and surface raiders mine sweeping and manning landing and rescue craft A particularly graphic section describes in the words of the sailors themselves what action against the enemy felt like and the impact of casualties seamen who were wounded or killed on board or were lost when their ships sank A fascinating inside view of the maritime warfare emerges which may be less heroic than the image created by some post war accounts but it gives readers today a much more realistic impression of the whole gamut of wartime life at sea **Churchill's Navy** Brian Lavery,2016-06-02 In this remarkable book now reissued in paperback Brian Lavery examines every aspect of the Royal Navy both ashore and at sea during the Second World War and casts a lucid eye over the strengths and weaknesses of an organisation that was put under acute strain during the period yet rose to the challenge with initiative and determination Divided into twelve sections the book delves into the structure of naval power from the Board of Admiralty and shore commands to officers and crews their recruitment and training daily life and discipline The roles of the Reserves Merchant Navy Royal Marines and Wrens within this structure are also explained Developments in ship design and technology as well as advances in intelligence sensors and armament are all discussed and set in context The different divisions are dealt with one by one including the Submarine Service Fleet Air Arm Coastal Forces and Combined Operations The text is complemented by over 300 illustrations and the personal accounts of those who served **The Navy List** ,1918 Royal Navy Roll of Honour - Between the Wars, 1918-1939 Don Kindell,2009 Alphabetical and chronological listings of men from the Royal Navy who lost their lives between the First and Second World Wars **Royal Navy Roll of Honour - World War 1, by Date and Ship/Unit** Don Kindell,2009 World War 1 Roll of Honour of Royal Navy Royal Marines and Royal Naval Division men and women lost including Dominions and Empire 1914 18 Listed by Date and Ship Unit Complements the separately issued volume arranged by Name Compiled from original sources including Admiralty Death Ledgers and

Admiralty Communiques Foreword by Capt Christopher Page RN Rtd Head Naval Historical Branch of the Naval Staff
Downloaded version available from www.naval-history.net is searchable The Challenges of Command Robert L. Davison, 2016-04-01 In the period leading up to the First World War Britain's naval supremacy was challenged by an arms race with Germany fuelled not only by military and geo strategic rivalries but an onrush of technological developments As this book demonstrates steam turbines bigger guns mechanical computing devices and ever increasing tonnage meant that the Royal Navy was forced to confront many long cherished beliefs and sensitive social and political issues By looking at key continuities over the period of 1880-1919 the study explores how the service and its officers attempted to deal with fundamental changes in professional requirements and how cultural and social values underwent a transformation in the run up to the First World War In particular the book looks at how the executive officer corps was presented with a revolution in naval affairs As the Navy was transformed into an industrialized workplace officers were challenged by an alteration in the culture of command as arrangements carried over from the days of sail began to breakdown under the practical requirements of a steam and steel fleet The book charts the ebb and flow of the debate and the various ideas put forward to deal with the structural challenges faced by the Royal Navy The writings of reformers and commentators such as Fisher Beresford Corbett Laughton and Mahan provide the background to the specific problems faced and are analysed both in relation to the nature of the reforms implemented and more crucially the performance of the Senior Service during the First World War *World War II in Europe, Africa, and the Americas, with General Sources* Loyd Lee, 1997-08-21 A broadly interdisciplinary work this handbook discusses the best and most enduring literature related to the major topics and themes of World War II Military historiography is treated in essays on the major theaters of military operations and the related themes of logistics and intelligence while political and diplomatic history is covered in chapters on international relations resistance movements and collaboration The volume analyzes themes of domestic history in essays on economic mobilization the home fronts and women in the military and civilian life The book also covers the Holocaust This handbook approaches each topic from a global viewpoint rather than focusing on individual national communities Except for nonprint material the literature research and sources surveyed are primarily those available in English The volume is aimed at both experts on the war and the general academic community and will also be useful to students and serious laymen interested in the war
