Stone Bone Jade:

Stone, Bone & Jade Donn Salt, 1992 **Stone, Bone, and Jade** Donn Salt, 1992 **Projectile Technology** Heidi Knecht, 2013-06-29

Artifacts linked to projectile technologies traditionally have provided the foundations for time space systematics and cultural historic frameworks in archaeological research having to do with foragers. With the shift in archaeological research objectives to processual interpretations, projectile technologies continue to receive marked attention but with an emphasis on the implications of variability in such areas as design, function, and material as they relate to the broader questions of human adaptation. The reason that this particular domain of foraging technology persists as an important focus of research I think comes in three parts. A projectile technology was a crucial part of most foragers' strategies for survival; it was functionally specific and it generally was fabricated from durable materials likely to be detected archaeologically. Being fundamental to meat acquisition and the principal source of calories, projectile technologies were typically afforded greater time investment, formal modification, and elaboration of attributes than others. Moreover, such technologies tend to display greater standardization because of constraints on size, morphology, and weight that are inherent to the delivery system. The elaboration of attributes and standardization of form gives projectile technologies time and space sensitivity that is greater than most other foraging technologies. And such sensitivity is immensely valuable in archaeological research.

The Customs History in Remote Antiquity Period and The Three Dynasties (Xia, Shang and Zhou Dynasty) Li Shi, The book is the volume of *The Customs History in Remote Antiquity Period and The Three Dynasties: Xia, Shang and Zhou Dynasty* among a series of books of *Deep into China Histories*. The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty. c. 1600-1046 BC and the *Bamboo Annals* 296 BC describe a Xia dynasty c. 2070-1600 BC before the Shang but no writing is known from the period. The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization. However, Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history, China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization. The Zhou dynasty 1046-256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature, and philosophy first developed during those troubled times. In 221 BC, Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death and was supplanted by the longer-lived Han dynasty 206 BC-220 AD. Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In

the 21 centuries from 206 BC until AD 1912 routine administrative tasks were handled by a special elite of scholar officials Young men well versed in calligraphy history literature and philosophy were carefully selected through difficult government examinations China's last dynasty was the Qing 1644 1912 which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949 Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood the most recent being the Chinese Civil War 1927 1949 China was occasionally dominated by steppe peoples most of whom were eventually assimilated into the Han Chinese culture and population Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China

History Of Medicine In Chinese Culture, A (In 2 Volumes) Boying Ma, 2020-02-20 This book set covers the last 3000 years of Chinese Medicine as a broadly flowing river from its source to its mouth It takes the story from the very beginnings in proto scientific China to the modern age with a wealth of historical and cultural detail It is unique in presenting many anecdotes sayings and excerpts from the traditional classics The content is organized into four parts Part one focuses on the medical activities in Chinese primitive society and the characteristic features of the witchcraft stage of medicine Part two traces the progress of Chinese medicine as it entered the stage of natural philosophy It also discusses how other aspects of philosophy religion and politics influenced Chinese medical theory and practice at the time Chinese medicine having a kind of social existence was also impacted by the natural and social environment and multiple cultural factors Some of these factors are discussed in Part three The last part concludes by examining the cultural process of Chinese medicine in history and offers a glimpse into the future of Chinese Medicine

Violence, Kinship and the Early Chinese State Roderick Campbell, 2018-05-03 Situated between myth and history the Shang has been hailed both as China's first historical dynasty and as one of the world's primary civilizations This book is an up to date synthesis of the archaeological palaeographic and transmitted textual evidence for the Shang polity at Anyang c 1250 1050 BCE Roderick Campbell argues that violence was not the antithesis of civilization at Shang Anyang but rather its foundation in war and sacrifice He explores the social economy of practices and beliefs that produced the ancestral order of the Shang polity From the authority of posthumously deified kings to the animalization of human sacrificial victims the ancestral ritual complex structured the Shang world through its key institutions of war sacrifice and burial Mediated by hierarchical lineages participation in these practices was basic to being Shang This volume which is based on the most up to date evidence offers comprehensive and cutting edge insight into the Chinese Bronze Age civilization
