Stop Nuclear War A Handbook:

Stop Nuclear War! David P. Barash, Judith Eve Lipton, 1982-01-01 Briefly looks at the nuclear arms race and tells concerned citizens how to contact politicians plan meetings and demonstrations and take other actions to help prevent the world's destruction

Payback David P. Barash, Judith Eve Lipton, 2011-02-01 Someone has a bad day at work and goes home and yells at his wife or kicks the dog A student gets a bad grade on an essay and takes it out on her boyfriend But this pattern isn't limited to people A baboon attacked by a higher ranking individual is liable to respond by attacking a lower ranking animal or even a bush In Payback evolutionary psychologist David Barash and psychiatrist Judith Lipton show how the act of passing pain to others evolved how and why it occurs and some of its surprising manifestations along with suggestions for avoiding these behaviors Moreover the book has remarkable reach ranging from day to day psychology to international headlines but also illuminating much of anthropology psychiatry and history while providing surprising insights into literature theology and our conception of justice

Horrendous Death and Health Daniel Leviton, 1991 Some kinds of death are caused by people deliberately or accidentally This work argues that horrendous death by war homicide poverty and other man made means is the greatest public health problem of our time and can only be defeated by strong cooperative action

The Nuclear Freeze Debate Paul M Cole, William J Taylor Jr, 2019-06-26 From a local ballot initiative in Massachusetts the nuclear weapons freeze movement has grown during the last three years into an important national issue By 1983 Congress had been asked to consider more than two dozen freeze resolutions and more than 25% of the voters in the U S had the opportunity to vote on state wide and regional freeze initiatives This book explores the issues behind the current debate over nuclear weapons and the freeze movement from a wide range of perspectives The contributors assess the goals and implications of the freeze movement examine its origins in religious and secular pacifism explain the amendments to the original freeze proposal introduced in Congress and discuss the reaction and policies of the Reagan administration The nuclear freeze movement is placed in an international context with discussions of recent arms negotiations European views of U S policies and the possible effects of a freeze on NATO allies and on U S national security The book includes a comprehensive annotated bibliography

The ^AOxford Handbook of U.S. National Security Derek S. Reveron, Nikolas K. Gvosdev, John A. Cloud, 2018-05-01 The Oxford Handbook of U S National Security frames the context institutions and processes the U S government uses to advance national interests through foreign policy government institutions and grand strategy Contributors examine contemporary national security challenges and the processes and tools used to improve national security

Textbook Of

Transpersonal Psychiatry And Psychology Bruce W Scotton, Allan B. Chinen, John R. Battista, 2009-06-16 This important new book brings together the work of top scholars and clinicians at leading universities and medical centers on the benefits and risks of transpersonal therapy After comparing a variety of multicultural approaches Zen Buddhism existential phenomenology and Christian mysticism among many others the book offers a wealth of information on specific disorders and the application of transpersonal psychology techniques such as visualization breathwork and past lives regression With solid scholarship wide scope and accessible style Textbook of Transpersonal Psychiatry and Psychology will become the standard work for students researchers clinicians and lay readers interested in extending psychiatry and psychology into sciences that describe the functioning of the human mind thereby building bridges between those disciplines and spirituality

Energy, Resources, And The Long-term Future John Scales Avery, 2007-07-26 The world is rapidly approaching the end of the fossil fuel era This timely book reviews the historical background for this crisis and provides a comprehensive discussion of its important aspects It contrasts the Utopian writings of Condorcet Godwin and Adam Smith with the more pessimistic views of Malthus and Ricardo It then discusses the characteristics of mainstream industrialism as well as the ecological counterculture The final chapters of the book study the present position regarding both non renewable and renewable resources and the problem of reducing the economic trauma that will result from the depletion of fossil fuels especially the future impact of high petroleum prices on agriculture in relation to global population growth Readers will gain an understanding of the dangers and opportunities of future developments in science as well as the steps that must be taken to achieve a stable sustainable global society

The Need for a New Economic System John Scales Avery, 2016-02-07 It is clear that our present economic system is unsustainable Never ending exponential industrial growth on a finite planet is a logical absurdity We are already using resources at a rate which it would take 1 6 planet earths to replace We are already undermining the ecological systems which support all of life Our present economic system has led to an unbelievable degree of economic inequality To maintain this inequality both between nations and within nations military force is used and democracy is replaced by oligarchy The future of human civilization is endangered both by the threat of thermonuclear war and by the threat of catastrophic climate change and both of the twin threats are results of our present economic system This book documents in detail the serious economic problems of today s world and it also proposes sustainable solutions

Civilization's Crisis: A Set Of Linked Challenges John Scales Avery, 2017-04-20 Modern civilization faces a broad spectrum of daunting problems but rational solutions are available for them all This book explores the following issues 1 Threats to the environment and climate change 2 a growing population and vanishing resources 3 the global food and refugee crisis 4 intolerable economic inequality 5 the threat of nuclear war 6 the military industrial complex and 7 limits to growth These problems are closely interlinked and their possible solutions are discussed in this book
