I was counting down the seconds as I watched the clock. I didn't even hear what the teacher was saying. All I knew was I was ready to leave. It was Friday. I heard some chatter in the background, but I didn't listen. All I could think about was how good the food would be that night. I would order a thick juicy hamburger and some fries with extra ketchup. All of the waiters loved me at Jake's Hamburger. Stop. My parents had promised to take me there. Finally, the bell rang. I jumped up and ran to my locker. A lot of papers flew out. I just stuffed them back in, grabbed my things, and ran down the hallway. "Sarah," I heard my teacher call, "Don't forget about," as I ran out of the door. On Monday, I was back at school. "Oh, no, we are having a test," I thought. How could I have known? The teacher handed out the tests. I didn't know any of the answers to the multiplication or division problems.

1. Where was I when I was watching the clock?

2. Where were my parents taking me that night?

3. What was Sarah's teacher probably trying to tell her?

4. Do you think Sarah did well on the test? Why or why not?

5. What class was Sarah probably in when she was watching the clock?

Understanding and Teaching Reading Comprehension Jane Oakhill, Kate Cain, Carsten Elbro, 2014-08-21 The ultimate aim of reading is not the process but to understand what we read and comprehension can take place at many different levels There has been an increasing emphasis on the importance of reading comprehension in recent years but despite this there is very little written on this vital topic accessible to trainee and practicing teachers The Handbook of Reading Comprehension presents an overview of recent findings on reading comprehension and comprehension problems in children It provides a detailed examination of the characteristics of children who have reading comprehension difficulties and examines ways in which comprehension can be supported and improved It is accessibly written for students and professionals with no previous background in the psychology of reading or reading problems This indispensable handbook asks the question what is comprehension The authors consider comprehension of different units of language understanding single words sentences and connected prose and outline what readers and listeners have to do to successfully understand an extended text This book also considers comprehension for different purposes in particular reading for pleasure and reading to learn and explores how reader characteristics such as interest and motivation can influence the comprehension process Different skills contribute to successful reading comprehension These include word reading ability vocabulary knowledge syntactic skills memory and discourse level skills such as the ability to make inferences knowledge about text structure and metacognitive skills The authors discuss how each one contributes to the development of reading comprehension skill and how the development of these skills or their precursors in pre readers provides the foundation for reading comprehension development Areas covered include Word reading and comprehension Development of comprehension skills Comprehension difficulties Assessment Teaching for improvement Throughout the text successful experimental and classroom based interventions will be highlighted practical tips for teachers and summary boxes detailing key points and explaining technical terms will be included in each chapter
