## **Social Dynamics Models And Methods Quantitative Studies In Social Relations:**

Social Dynamics Models and Methods Nancy Brandon Tuma, 1984-08-28 Social Dynamics Models and Methods focuses on sociological methodology and on the practice of sociological research This book is organized into three parts encompassing 16 chapters that deal with the basic principles of social dynamics The first part of this book considers the development of models and methods for causal analysis of the actual time paths of change in attributes of individual and social systems This part also discusses the applications in which the use of dynamic models and methods seems to have enhanced the capacity to formulate and test sociological arguments These models and methods are useful for answering questions about the detailed structure of social change processes The second part explores the formulation of the continuous time models of change in both quantitative and qualitative outcomes and the development of suitable methods for estimating these models from the kinds of data commonly available to sociologists The third part describes a stochastic framework for analyzing both qualitative and quantitative outcome of social changes This part also discusses the sociologists perspective on the empirical study of social change processes This text will be of great value to sociologists and sociological researchers *Handbook of Sociological Theory* Jonathan H. Turner, 2006-05-17 Sociology is experiencing what can only be described as hyperdifferentiation of theories there are now many approaches competing for attention in the intellectual arena From this perspective we should see a weeding out of theories to a small number but this is not likely to occur because each of the many theoretical perspectives has a resource base of adherents As a result theories in sociology do not compete head on with each other as much as they coexist This seminal reference work was brought together with an eye to capturing the diversity of theoretical activity in sociology specifically the forefront of theory Contributors describe what they themselves are doing right now rather than what others have done in the past The goal of this volume is to allow prominent theorists working in a variety of traditions who wouldn't usually come together to review their work The chapters in this volume represent a mix of theoretical orientations and strategies but these theories are diverse and represent the prominent theoretical discussions in sociology today Some areas included are Section I Theoretical Methodologies and Strategies Section II The Cultural Turn in Sociological Theorizing Section III Theorizing Interaction Processes Section IV Theorizing from the Systemic and Macrolevel Section V New Directions in Evolutionary Theorizing Section VI Theorizing on Power Conflict and Change Section VII Theorizing from Assumptions of Rationality This handbook will be of interest to those wanting a broad spectrum and overview of late 20th early 21st century sociological theory *Experimental Social Programs and Analytic Methods* Alexander Basilevsky, Derek Hum, 2013-10-22 Experimental Social Programs and Analytic Methods An Evaluation of the U S Income Maintenance Projects examines the statistical and econometric research on work disincentive effects reported by a series of social experiments that explore the economic and social consequences of a guaranteed income program This book provides a comparative description of the several experimental designs and labor supply results including a general

discussion of methodological issues common to the social experiments The Conlisk Watts model for sample assignment and labor supply findings from both an econometric and statistical perspective are also elaborated This text likewise presents an updated survey of the work response findings from the American negative income tax experiments This publication is intended for professionals and students in econometrics labor economics statistics and quantitative research but is also valuable to policy analysts and others concerned with social welfare reform and public administration An Economic Analysis of Crime and Justice Peter Schmidt, Ann D. Witte, 2013-10-22 An Economic Analysis of Crime and Justice Theory Methods and Applications presents the applications of economic theory and econometric methods to various problems in criminology The book is divided into three parts Part I discusses models of criminal recidivism The second part tackles the economic model of crime Part III estimates cost functions for prisons Specific chapters in the book cover topics on statistical analysis of qualitative outcomes analysis of two measures of criminal activity the arrest rate and the conviction rate and long run estimate of cost function for a group of Federal Correctional Institutions Economists correctional administrators and criminal justice professionals will find the book a great source of information and insight *Status Enhancement and Fertility* John D. Kasarda, John O. G. Billy, Kirsten West, 2013-09-03 Status Enhancement and Fertility Reproductive Responses to Social Mobility and Educational Opportunity provides a theoretical framework in which research findings on the socioeconomic determinants of fertility may be integrated Starting with an introductory chapter on the substantive scope of the book separate chapters provide a detailed review appraisal and synthesis of the complex research literature on social mobility and fertility examine various statistical methodologies and suggest some fruitful avenues future research might pursue and discuss the role of education in enhancing the status of women and the main intervening variables that link education to reproductive behavior Subsequent chapters examines female labor force participation the value of children infant and child mortality age at marriage and first birth and family planning knowledge and practice The final chapter discusses policy issues derived from models and assessments presented in the preceding chapters This book may be used as an upper division or graduate level text in population courses **Social Science Microsimulation** Klaus G.
