List of members in v 1 [The Routledge Handbook of Non-Ideal Theory](#) Hilkje C. Hänel, Johanna M. Müller, 2024-10-15

Made popular by John Rawls ideal theory in political philosophy is concerned with putting preferences and interests to one side to achieve an impartial consensus and to arrive at a just society for all In recent years ideal theory has drawn increasing criticism for its idealised picture of political philosophy and its inability to account for the challenges posed by inequalities of for example race gender and class and by structural injustices stemming from colonialism and imperialism The Routledge Handbook of Non Ideal Theory is the first handbook or reference source on this important and fast growing debate Comprised of 34 chapters by an international team of contributors the Handbook is divided into three clear parts Methodological Challenges Intersections Applied Issues and Contemporary Challenges Within these sections key topics are addressed including the question of whether non ideal theory is methodologically linked to ideal theory its intersection with feminist philosophy critical race theory decolonial theory and critical theory its characteristic features the role of the non ideal theorist its relation to activism and its application in the context of disability and health studies climate justice global injustices colonialism and many more As well as a comprehensive introduction which provides important background to the debate between ideal and non ideal theory the Handbook also features a contribution by the late philosopher Charles Mills on non ideal theory as ideology The Routledge Handbook of Non Ideal Theory is essential reading for students and scholars of political philosophy ethics and political theory and will also be of interest to those studying and researching related subjects such as gender race and social justice [Readings in the Philosophy of Technology](#) David M. Kaplan, 2004 Readings in the

Philosophy of Technology is a collection of the important works of both the forerunners of philosophy of technology and contemporary theorists addressing a full range of topics on technology as it relates to ethics politics human nature computers science and the environment

International Encyclopedia of Social Policy Tony Fitzpatrick, Huck-ju Kwon, Nick Manning, James Midgley, Gillian Pascall, 2013-07-04 Available in paperback for the first time this milestone work offers an in depth treatment of all aspects of the discipline and practice of social policy globally Supported by a distinguished international advisory board the editors have compiled almost 900 000 words across 734 entries written by 284 leading specialists to provide authoritative coverage of concepts policy actors welfare institutions and services along a series of national regional and transnational dimensions Also included are biographical entries on major policy makers and shapers The editors have particularly striven to provide strong coverage of differing geographical and cultural traditions so that the

variety of social policy as both an academic discipline and a domain of governance is reflected Contributors draw in and make the necessary connections with social policy s associated disciplines to provide a rich picture of this vast and highly diverse field Comprehensive and authoritative the Encyclopedia has sought to open up rather than to foreclose the numerous areas in which there is on going research debate and sometimes serious disagreement and divergence in theory and practice To this end entries attempt to introduce a core or common ground of understanding before moving on to a wider discussion of debates regarding different conceptual and geographical approaches The whole is integrated by cross referencing and each entry includes a bibliography for further reading There is a full index The International Encyclopedia of Social Policy provides the most substantial mapping of the international study and practice of social policy to date and will stand as a vital storehouse of knowledge for many years to come

Where Ideas Go to Die Michael McDevitt (Professor of journalism),2020 Ideas die at the hands of journalists This is the controversial thesis offered by Michael

McDevitt in a sweeping examination of anti intellectualism in American journalism A murky presence anti intellectualism is not acknowledged by reporters and editors It is not easily measured by scholars as it entails opportunities not taken context not provided ideas not examined Where Ideas Go to Die will be the first book to document how journalism polices intellect at a time when thoughtful examination of our society s news media is arguably more important than ever Through analysis of media encounters with dissent since 9 11 McDevitt argues that journalism engages in a form of social control routinely suppressing ideas that might offend audiences McDevitt is not arguing that journalists are consciously or purposely controlling ideas but rather that resentment of intellectuals and suspicion of intellect are latent in journalism and that such sentiment manifests in the stories journalists choose to tell or not to tell In their commodification of knowledge journalists will for example clarify ideas to distill deviance dismiss nuance as untranslatable and funnel productive ideas into static partisan binaries Anti intellectualism is not unique to American media Yet McDevitt argues that it is intertwined with the nation s cultural history and consequently baked into the professional training that occurs in classrooms and newsrooms He offers both a critique of our nation s media system and a way forward to a media landscape in which journalists recognize the prevalence of anti intellectualism and take steps to avoid it and in which journalism is considered an intellectual profession
