**The Social Structure of the Early Christian Communities** Dimitris Kyrtatas,2020-05-05 The Social Structure of the Early Christian Communities deals with a small number of topics which in one way or another have long attracted the attention of students of early Christianity Above all it is an attempt to investigate the social origins and the social positions of the early Christians Recent studies are arriving at the conclusion contrary to long held views that the primitive Christian communities those which emerge after the first chapters of Acts did not consist of the dregs of the populace However in spite of the important work which is being done on the subject few of the recent books concerned with such sociological issues go far beyond the New Testament age What still requires investigation is the composition of the early communities from the first years of the mission to the Gentiles down to the age of Constantine when large sections of the population from all social classes started joining the Christian churches

The Germanization of Early Medieval Christianity James C. Russell, 1996-06-20 While historians of Christianity have generally acknowledged some degree of Germanic influence in the development of early medieval Christianity Russell goes further arguing for a fundamental Germanic reinterpretation of Christianity This first full scale treatment of the subject follows a truly interdisciplinary approach applying to the early medieval period a sociohistorical method similar to that which has already proven fruitful in explicating the history of Early Christianity and Late Antiquity The encounter of the Germanic peoples with Christianity is studied from within the larger context of the encounter of a predominantly world accepting Indo European folk religiosity with predominantly world rejecting religious movements While the first part of the book develops a general model of religious transformation for such encounters the second part applies this model to the Germano Christian scenario Russell shows how a Christian missionary policy of temporary accommodation inadvertently contributed to a reciprocal

Germanization of Christianity

**Enslaved Leadership in Early Christianity** Dr. Katherine A. Shaner, 2018-03-01

Enslaved persons were ubiquitous in the first and second century CE Roman Empire and early Christian texts reflect this fact Yet the implications of enslaved presence in religious practices are under examined in early Christian and Roman history Enslaved Leadership in Early Christianity argues that enslaved persons roles in civic and religious activities were contested in many religious groups throughout ancient cities including communities connected with Paul s legacy This power struggle emerges as the book examines urban spaces inscriptions images and literature from ancient Ephesos and its environs Enslaved Leadership breaks new ground in analyzing archaeology and texts asking how each attempts to persuade viewers readers and inhabitants of the city Thus this book paints a complex picture of enslaved life in Asia Minor a picture that illustrates how enslaved persons enacted roles of religious and civic significance that potentially upended social hierarchies privileging wealthy slave holding men Enslaved persons were religious specialists priests and leaders in cultic groups including early Christian groups Yet even as the enslaved engaged in such authoritative roles Roman slavery was not a

benign institution nor were all early Christians kinder and more egalitarian to slaves Both early Christian texts such as Philemon 1 Timothy Ignatius letters and the archaeological finds from Asia Minor defend construct and clarify the hierarchies that kept enslaved persons under the control of their masters Enslaved Leadership illustrates a historical world in which control of slaves must continually be asserted Yet this assertion of control raises a question Why does enslaved subordination need to be so frequently re established particularly through violence the threat of social death and assertions of subordination

*Radical Religious Communities*, 2025-06-30 The twenty first century has demonstrated that radicalism remains a vital analytical concept in the study of modern religion and politics However its application to earlier periods has been met with more ambivalence This volume challenges that trend by examining religio political subversives near the close of the Middle Ages as radical within their historical and intellectual contexts spanning several centuries and cultures with a focus on Central Europe In doing so it seeks to bridge entrenched geographical chronological and methodological divides fostering broader discussions on the comparative relevance of radicalism in pre modernity

**Soldiering for God** John F. Shean, 2010-08-23 This new study argues that the religious attitude of the Roman army was a crucial factor in the Christianization of the Roman world Specifically by the end of the third century there was a significant Christian presence within the army which was ready to act in the interests of the faith Conditions at this time were thus ripe for the coming to power of a Christian emperor when Constantine converted to Christianity he could rely upon the enthusiastic support of his Christian soldiers Constantine strengthened his Christian base by initiating policies which accelerated the Christianization of the army The continuation of these policies by Christian Roman emperors eventually allowed them to use the military as a vehicle for the suppression of paganism and heretical

Christian sects      Paul and the Politics of Difference Jae Won Lee, 2015-02-26 Paul lies at the core of the constant debate about the opposition between Christianity and Judaism both in biblical interpretation and public discourse The so called new perspective on Paul has not offered a significant break from the formidable paradigm of Christian universalism versus Jewish particularism in Pauline scholarship This book liberates Paul from the Western logic of identity and its dominant understanding of difference Drawing attention to the currency of discourses on difference in contemporary theories as well as in biblical studies the author critically examines the hermeneutical relevance of a contextual and relational understanding of difference He applies it to interpret the dynamics of Jew Gentile difference reflected particularly in meal practices Gal 2 1 21 and Rom 14 1 15 13 of early Christian communities Paul and the Politics of Difference argues that by deconstructing the hierarchy of social relations underlying the Jew Gentile difference in different community situations Paul promotes a politics of difference This affirms a preferential option for the socially weak solidarity with the weak Paul s politics of difference is invoked as the potential for liberation in a vision of egalitarian justice in the face of contemporary globalism s proliferation of difference

sexuality and religion emerges as a persistent theme Analyzing the monastic Jewish Therapeutae and various Christian communities Kraemer demonstrates the paradoxical liberation which women achieved by rejection of sexuality the body and the female In the epilogue Kraemer pursues the disturbing implications such findings have for contemporary women Based on an astonishing variety of primary sources Her Share of the Blessings is an insightful work that goes beyond the limitations of previous scholarship to provide a more accurate portrait of women in the Greco Roman world      **Revelation and**

**Concealment of Christ** Saeed Hamid-Khani,2021-03-16 The elusive disposition of John s language has been noted by biblical scholars throughout the history of New Testament studies The Fourth Gospel is seen as so simple to grasp and yet often pointing beyond itself and beckoning the reader to read deeper Various socio linguistic studies have explained this feature as the reflection of the sectarian tendencies in the Johannine Christianity In his study Saeed Hamid Khani questions these approaches as inadequate In turn he examines John s language within an exegetical and theological framework He argues that the Sitz im Leben of Johannine language was an environment in which the Hebrew Scriptures were the dominant conceptual force for both the Jews and the Christians In this context he argues that the essential function of John s enigmatic language is wedded to the Evangelist s purpose in writing the Gospel namely a steadfast focus upon setting forth that Jesus is the Christ according to the witness of Israel s Scriptures It is here in these echoes and thematic allusions to the Scriptures that we find the answer to the function and significance of John s unique language i e Jesus is the Messiah the Saviour of the world and he is the visible image of the invisible God the embodiment of the self revelation of God according to the Scriptures However these truths are concealed from the undiscerning and are only revealed by the spirit of God to those who are born of God      *Sacrifice in Modernity: Community, Ritual, Identity* ,2016-09-27 In Sacrifice in Modernity Community Ritual Identity it is demonstrated how sacrificial themes remain an essential element in our post modern society      *Living in*
