## **Social Structure Of Islam Vol 12 Orientalism:**

**Orientalism: Early Sources** ,2000 *Islamic Law and Society in the Sudan* Carolyn Fluehr-Lobban,2013-10-15 Few studies exist which deal with Islamic law in practice and this is among the first such studies in the English language for Islamic Africa It is significant that the present study was completed just prior to the extension of Islamic law as the sole governing law in the Sudan in 1983 for it captures many essentials of the Shari'a as it has been applied for decades prior to this important change Numerous movements for reform and change are discussed in the book which reflect the contemporary debate in the Sudan over the position of Shari'a in society

**Orientalism and Imperialism** Andrew Wilcox,2018-07-12 Using the work of Edward Said as a point of departure this book dissects the concept of Orientalism through the lens of 19th century missionary impressions of Kurdistan Wilcox argues that dominant interpretations of Said's work have a tendency to present Orientalism as an essentialist practice and instead offers an alternative manifestation in which the Oriental is perceived as the mutable product of cultural forces The relationship between missionaries and imperialism has long been a contentious issue with many scholars highlighting their apparent ambiguity This study reveals how Protestant missionaries can be identified as anti imperialist in their rhetoric of ecumenical independence yet through their preconceptions of Oriental inferiority they contributed to a more subtle undermining of local forms of knowledge and identity Wilcox argues that this apparent ambiguity is in part a consequence of the ways in which the term imperialism is frequently used to allude to diverse and even contradictory meanings therefore it is not so much the missionaries who are ambiguous as the ways in which they are judged by today's multivalent standards The analysis also makes clear the complex discursive processes which can undermine the actions of altruistic individuals By drawing threads from this 19th century example into the current geopolitical foreground of Middle East West relations this book not only sheds light upon a little known historical case study but also illuminates larger questions of the present and future encouraging a more vigorous examination of contemporary Orientalist prejudices

Islam and the Orientalist World-system Khaldoun Samman,Mazhar Al-Zo'by,2015-11-17 Featuring Immanuel Wallerstein Joseph Massad Marnia Lazreg and other well known and emerging new authors this book seeks a more accurate understanding of Islam and Islamic societies role and relations to global cultural and economic realities The book confronts a trend today of analyzing Islam as a cultural system that stands outside of and even predates modernity The authors see this trend as part of a racist discourse unaware of the realities of contemporary Islam Islamic societies today are products of the world capitalist system and cannot be understood as being separate from its forces The authors offer a more carefully constructed and richer portrait of Islamic societies today and forcefully challenge the belief that Islam is not part of nor much affected by the modern world system

*Social Theory, Volume II* Roberta Garner,Black Hawk Hancock,2014-05-29 The third edition of this popular reader reflects considerable changes The framework for understanding theory as a set of conversations over time is maintained and deepened but Volume II now

*Social and Gender Inequality in Oman* Khalid M. Al-Azri, 2013 Looking at the social political and legal changes in Oman since 1970 this book challenges the Islamic and tribal traditional cultural norms relating to marriage divorce and women's rights which guide social and legal practice in the modern Omani state The book argues that despite the establishment of legal instruments guaranteeing equality for all citizens the fact that the state depends upon Islamic and tribal elites for its legitimacy invalidates these guarantees in practice Two particular features of the legal and cultural regulation of marriage and marital rights are focused on the perceived requirement for kafa or equality in marriage between so called high and low socio economic status peoples is examined and the institution of talaq which grants greater rights to men than to women in appeals for divorce This book addresses highly complex subjects with great rigor in terms of empirical research and engagement with theory sociological and political as well as theological and legal It is an interesting investigation of the divisions of authority between the state

### **A Post-Exotic Anthropology of Soqatra, Volume II**

Serge D. Elie, 2020-06-22 This two volume book offers a panoramic explanatory narrative of Soqatra Island's rediscovery based on the global significance of its endemic biodiversity. The first volume *A Post Exotic Anthropology of Soqatra A Mesography of an Indigenous Polity in Yemen* initiated the analytical inventory of the four key vectors of Soqatra's transition process through a discussion of the first two economic disarticulation and political incorporation. This volume *A Post Exotic Anthropology of Soqatra Cultural Environmental Annexation of an Indigenous Community* completes the analytical inventory by exploring the other two pivotal vectors of transition cultural modernization and environmental annexation. These two vectors encompass the critical sociocultural spheres and environmental domains in which Soqatra's transformation process is unfolding. The origin of these vectors is situated within Soqatra's long history of exogenous mediations by external actors and their symbolic appropriation of the island into an imaginative geography. The legacy is a symbolic curse which has made Soqatra into an ideal playground for fantasist cultural or environmental experiments. Accordingly, this volume undertakes first a systematic inventory of the communal effects engendered within the domains of cultural modernization dissonant linguistic attitudes alienating consumption practices divergent religious affiliations and differentiating economic aspirations. Second, it anatomizes the process of environmental annexation through the reconstruction of the formulation and implementation process of a biodiversity conservation and sustainable development experiment in which the island and its residents are appropriated into an anachronistic paradigm a pastoral ecotopia as a blueprint of their future.

### **Orientalism and Conspiracy**

Arndt Graf, Schirin Fathi, Ludwig Paul, 2010-11-30 The relationship between Islam and the West has frequently been subject to misunderstanding and mistrust and recent events in the international arena have only deepened this perceived divide culturally and politically. The West often views the Islamic world and the Islamic world the West through a prism of mutual suspicion. In such conditions conspiracy theories can flourish on both sides of the cultural fence but these highly complex and important global phenomena have been the subject of surprisingly little investigation. *Orientalism and Conspiracy* explores fully for the first time the relationship between the sometimes controversial concept of Orientalism as developed by Edward Said and contemporary conspiracy theories and includes Robert Irwin's fascinating survey of the role of secret societies in orientalist mythology. The authors offer a comprehensive and ground breaking study of the conspiracy theory and Islam. It is essential reading for those seeking to understand historical and contemporary relationships between the East and West as well as the enduring and controversial legacy of the concept of Orientalism.

In this wide ranging intellectually vigorous study Said traces the origins of orientalism to the centuries long period during which Europe dominated the Middle

**Orientalism Revisited** Ian Netton, 2012-12-12 The publication of Edward Said's Orientalism in 1978 marks the inception of orientalism as a discourse Since then Orientalism has remained highly polemical and has become a widely employed epistemological tool Three decades on this volume sets out to survey analyse and revisit the state of the Orientalist debate both past and present The leitmotiv of this book is its emphasis on an intimate connection between art land and voyage Orientalist art of all kinds frequently derives from a consideration of the land which is encountered on a voyage or pilgrimage a relationship which until now has received little attention Through adopting a thematic and prosopographical approach and attempting to locate the fundamentals of the debate in the historical and cultural contexts in which they arose this book brings together a diversity of opinions analyses and arguments

**Islamic Urban Studies** Masashi Haneda, 2013-10-28 The term Islamic cities has been used to refer to cities of the Islamic world centring on the Middle East Academic scholarship has tended to link the cities of the Islamic world with Islam as a religion and culture in an attempt to understand them as a whole in a unified and homogenous way Examining studies books articles maps bibliographies of cities which existed in the Middle East and Central Asia in the period from the rise of Islam to the beginning of the 20th century this book seeks to examine and compare Islamic cities in their diversity of climate landscape population and historical background Coordinating research undertaken since the nineteenth century and comparing the historiography of the Maghrib Mashriq Turkey Iran and Central Asia Islamic Urbanism provides a fresh perspective on issues that have exercised academic concern in urban studies and highlights avenues for future research
