A Learning Community in the Primary Classroom Jere Brophy, Janet Alleman, Barbara Knighton, 2010-07-02 This richly detailed description and analysis of exemplary teaching in the primary grades looks at how a teacher establishes her classroom as a collaborative learning community how she plans curriculum and instruction that features powerful ideas and applications to life outside of school and how working within this context she motivates her students to learn with a sense of purpose and thoughtful self regulation The supporting analyses which ground the teacher's practice in principles from curriculum and instruction educational psychology and related sources of relevant theory and research are designed to allow teacher readers to develop coherent understanding and appreciation of the subtleties of her practice and how they can be applied to their own practice Resulting from a lengthy collaboration among an educational psychologist a social studies educator and a classroom teacher the aspects and principles of good teaching this book details are widely applicable across elementary schools across the curriculum and across the primary grade levels To help readers understand the principles and adapt them to their particular teaching situations an Appendix provides reflection questions and application activities

Wise Social Studies in an Age of High-Stakes Testing Elizabeth Anne Yeager, O. L. Davis, 2005-08-01 The chapters in this volume illustrate how teachers are bringing creativity higher order thinking and meaningful learning activities into particular school settings despite pressures of standards and testing We chose the word wise for the title of this book and we use it frequently to describe the pedagogical practices we have identified The words powerful and ambitious are used as well The larger point as Keith C Barton makes in his chapter is that there is no necessary connection between content standards and high stakes tests on the one hand and low level rote instruction on the other He reminds us as Thornton 1991 and Wiggins 1987 previously have argued that teachers play a crucial role in mediating educational policy and their intentions and interpretations have at least as much influence on classroom practice as does the content of standards and high stakes tests Barton also asserts that this makes it all the more crucial to identify the wisdom of practice that enables teachers to engage students in powerful educational experiences

Motivating Students to Learn Kathryn Wentzel, 2020-09-23 Written specifically for teachers in training *Motivating Students to Learn* offers a wealth of research based principles on student motivation for use in the classroom Positioning the teacher as the decisive motivator the book is grounded in the realities of contemporary schools curriculum goals and peer dynamics Twelve rich chapters offer extrinsic and intrinsic approaches to guide daily practice guidelines for adapting to group and individual differences and ways to reach discouraged or disaffected students This

Motivating Students to Learn Jere E. Brophy, 2010-05-26 Written specifically for teachers this book offers a wealth of research based principles for motivating students to learn Its focus on motivational principles rather than motivation theorists or theories leads naturally into discussion of specific classroom strategies Throughout the book these principles and strategies are tied to the realities of contemporary schools and classrooms The author employs an eclectic approach to motivation that shows how to effectively integrate the use of extrinsic and intrinsic strategies Guidelines are provided for adapting motivational principles to group and individual differences and for doing repair work with students who have become discouraged or disaffected learners

Motivating Students to Learn Kathryn R. Wentzel, 2014-02-18 Written specifically for teachers *Motivating Students to Learn* offers a wealth of research based principles on the subject of student motivation for use by classroom teachers Now in its fourth edition this book discusses specific classroom strategies by tying these principles to the realities of contemporary schools curriculum goals and classroom dynamics The authors lay out effective extrinsic and intrinsic strategies to guide teachers in their day to day practice provide guidelines for adapting to group and individual differences and discuss ways to reach students who have become discouraged or disaffected learners This edition features new material on the roles that classroom goal setting developing students interest and teacher student and peer relationships play in student motivation It has been reorganized to address six key questions that combine to explain why students may or may not be motivated to learn By focusing more closely on the teacher as the motivator this text presents a wide range of motivational methods to help students see value in the curriculum and lessons taught in the classroom

Teaching the Best Practice Way Harvey Daniels, Marilyn Bizar, 2005 Everyone talks about best practice teaching but what does it actually look like in the classroom How do working teachers translate complex curriculum standards into simple workable classroom structures that embody exemplary instruction and still let kids find joy in learning In *Teaching the Best Practice Way* Harvey Daniels and Marilyn Bizar present seven basic teaching structures that make classrooms more active experiential collaborative democratic and cognitive while simultaneously meeting best practice standards across subject areas and throughout the grades Each section begins with an essay outlining one key method providing its historical background and research results and then describing the structure s vital features Next several teachers representing different grade levels and school communities explain how they adopted the basic model adapted it to their students needs and made it their own Fully updating and expanding *Methods that Matter* Stenhouse 1998 *Teaching the Best Practice Way* adds the stories of twenty more celebrated teachers including James Beane Donna Ogle Franki Sibberson and others from around the country A brand new chapter focuses on reading as thinking detailing the ways teachers can nurture strategic readers readers who not only deeply understand the printed materials they encounter in school but who also bring these cognitive strategies to their reading of film art music and their experience of

the world The book also shares new research studies that validate the principles and activities of best practice teaching along with lists of recommended materials that support each of the seven methods Unique in the field Teaching the Best Practice Way speaks to all teachers K 12 with stories examples and practical classroom materials for the teachers of all children This is the book for teachers schools and districts that believe the big ideas about teaching really do cross all grade levels and subject areas Education professors will also find this an ideal resource for use in methods courses
