Social Theory and Political Practice (RLE Social Theory) Brian Fay, 2014-08-27 This book examines the question of how our knowledge of social life affects and ought to affect our way of living it In so doing it critically discusses two epistemological models of social science the positivist and the interpretive from the viewpoint of the political theories which it is argued are implicit in these models moreover it proposes a third model the critical which is organised around an explicit account of the relation between social theory and practical life The book has the special merit of being a good overview of the principal current ideas about the relation between social theory and political practice as well as an attempt at providing a new and more satisfactory account of this relationship To accomplish this task it synthesises work from the analytic philosophy of social science with that of the neo Marxism of the Frankfurt school **Social Theory and Political Practice**

Turner, 2016-09-26 A comprehensive new collection covering the principal traditions and critical contemporary issues of social theory Builds on the success of *The Blackwell Companion to Social Theory* second edition with substantial revisions entirely new contributions and a fresh editorial direction Explores contemporary areas such as actor network theory social constructionism human rights and cosmopolitanism Includes chapters on demography science and technology studies and genetics and social theory Emphasizes key areas of sociology which have had an important impact in shaping the discipline as a whole Social Theory and Political Practice Brian Fay, 1975 *Studies in Social and Political Theory (RLE Social Theory)* Anthony Giddens, 2014-08-21 The studies which comprise this book are essentially organized around a critical encounter with European social theory in its classical period i.e. from the middle years of the nineteenth century until the First World War and have the aim of working out some of the implications of that encounter for the position and prospects of the social sciences today The issues involved relate to the following series of problems method and epistemology social development and transformation the origins of sociology in nineteenth century social theory and the status of social science as critique In each of these areas Giddens develops views that challenge existing orthodoxies and connects these ideas to a reconstruction of social theory in the contemporary era

Structure, Interaction and Social Theory (RLE Social Theory) Derek Layder, 2014-08-21 A central problem in contemporary social theory is that of providing an account of social interaction that does justice both to the self monitoring capacities of the individuals involved and to the society that frames the interaction This book attempts to resolve this problem arguing for an objectivist or structuralist account which does not undervalue the importance of the indexical and negotiated aspects of interaction and which takes seriously the Marxist rationalist critique of empiricism and humanism and the associated idea that society should be treated as a supra individual preconstituted and constraining object of scientific analysis First Dr Layder pinpoints certain of the strengths and weaknesses of various schools of thought social psychology scrutinized in both its sociological and psychological forms sociology the Marxist rationalist approach Whilst rejecting the mechanistic or naively deterministic theories which are often associated with an objectivist stance he argues that the productive activities of situated actors must be understood as existing in an articulated relationship with and within sets of preconstituted contextual constraints This thesis is illustrated conceptually by the development of a framework which distinguishes two types and levels of social structure with different modes of production and reproduction and empirically by

an analysis of aspects of interaction in the occupation of acting *Social Theory and Education* Raymond Allen Morrow, Carlos Alberto Torres, 1995-03-09 This book summarizes and critiques theories of social and cultural reproduction as they relate to sociology of education **Taking Sides in Social Research** Martyn Hammersley, 2005-08-12 In the past it was generally taken for granted that the goal of social research was the production of objective knowledge and that this required a commitment to value neutrality In more recent times however both these ideals have come to be challenged and it is often argued that all research is inevitably political in its assumptions and effects In this major contribution to the debate Martyn Hammersley assesses the arguments from the classic and still influential contributions of C Wright Mills Howard Becker and Alvin Gouldner to the present day He concludes that the case for partisanship is not convincing and that an intelligent and sceptical commitment to the principles of objectivity and value neutrality must remain an essential feature of research **Praxeological Political Analysis** Michael Jonas, Beate Littig, 2016-11-03 With the interest in practice theory and praxeology on the rise praxeology can be considered an emerging new methodological as well as theoretical paradigm which successfully overcomes epistemological dichotomies of conventional approaches The articles in this volume serve as starting points for rendering contemporary practice theory approaches useful for the analysis of political events and processes without reducing the political aspect a priori to the formal policy sphere In this context Praxeological Political Analysis demonstrates that praxeological research is now increasingly addressing issues which are considered virulent in for instance the consumer sustainability or political spheres Following on from this key focus on political analysis this title also seeks to expand the current status of primarily political science adaptations of practice theory approaches to the analysis of predominantly narrowly defined political practices Written with an explicit focus on diverse political aspects and dimensions in the performative enactment of social practices this title will appeal to post graduate students and scholars interested in sociology of politics social and public policy development in social theory and political research methods **Directory of European political scientists** European Consortium for Political Research, University of Essex.
