Social Theory Psychoanalysis And Racism:

Social Theory, Psychoanalysis and Racism Simon Clarke, 2017-03-04 Sociological explanations of racism tend to concentrate on the structures and dynamics of modern life that facilitate discrimination and hierarchies of inequality. In doing so they often fail to address why racial hatred arises as opposed to how it arises as well as to explain why it can be so visceral and explosive in character. Bringing together sociological perspectives with psychoanalytic concepts and tools, this text offers a clear, accessible and thought-provoking synthesis of varieties of theory with the aim of clarifying the complex character of racism, discrimination and social exclusion in the contemporary world. **Routledge Handbook of Psychoanalytic**

Political Theory Yannis Stavrakakis, 2019-09-05 The emerging field of psychoanalytic political theory has now reached a stage in its development and rapid evolution that deserves to be registered, systematically defined and critically evaluated. The Handbook consists of 35 chapters offering original, comprehensive and critical reviews of this field of study. The chapters are divided into five thematic sections: **Figures** discusses the work of major psychoanalytic theorists who have influenced considerably the development of psychoanalytic political theory; **Traditions** genealogically recounts and critically reassesses the many attempts throughout the 20th century of experimenting with the articulation between psychoanalysis and political theory in a consistent way; **Concepts** asks what are the concepts that psychoanalysis offers for appropriation by political theory; **Themes** presents concrete examples of the ways in which psychoanalytic political theory can be productively applied in the analysis of racism, gender, nationalism, consumerism etc; **Challenges**; **Controversies** captures the ways in which psychoanalytic political theory can lead the way towards theoretical and analytical innovation in many disciplinary fields dealing with cutting edge issues. The Routledge Handbook of Psychoanalytic Political Theory will serve as a scholarly reference volume for all students and researchers studying political theory, psychoanalysis and the history of ideas. **Theories of Race and Ethnicity** Karim Murji, John Solomos, 2015-01-08

Narratives about Jews among Muslims in Norway Vibeke Moe Bjørnbekk, 2024-06-17 What is the nature of Muslim Jewish relations in Europe today Based on qualitative interview data this book explores narratives about Jews among Muslims in Norway Drawing on culturally embedded narratives as well as personal experiences interviewees reflect on the relationship between Jews and Muslims The interreligious exchange

between Islam and Judaism is as old as Islam Today the Arab Israeli conflict has become an important frame of reference in the public discourse on Muslim Jewish relations The narratives presented in this book delineate shifting community boundaries and identifications that transcend dichotomised notions of Muslims versus Jews The analysis shows how Jewish history in Europe and the history of modern antisemitism serve as interpretative keys in the narratives used for explaining the situation of the Muslim minority today Furthermore the book demonstrates how interviewees perceptions of society s attitudes toward Muslim and Jewish experiences also strongly influence their perceptions of Muslim Jewish relations

Jewish Culture in the Age of Globalisation Cathy Gelbin,Sander Gilman,2016-02-05 This interdisciplinary anthology explores the impact of current globalization processes on Jewish communities across the globe The volume explores the extent to which nationalized constructs of Jewish culture and identity still dominate Jewish self expressions as well as the discourses about them in the rapidly globalizing world of the twenty first century Its contributions address the ways in which Jewishness is now understood as transcending the old boundaries and ideologies of nation states and their continental reconfigurations such as Europe or North America but also as crossing the divides of Ashkenazi Sephardi and Mizrahi Jews as well as the confines of Israel and the Diaspora Which new paradigms of Jewish self location within the evolving and conflicting global discourses about the nation race the Holocaust and other genocides anti Semitism colonialism and postcolonialism gender and sexual identities open up in the current era of globalisation and to what extent might transnational notions of Jewishness such as European Jewish identity create new discursive margins and centers Chapters explore the impact of the Arab Israeli conflict on cross cultural relations between Jews and other racialized groups in the

Diaspora and discuss the ways in which recent discourses such as postcolonialism and transnationalism might relate to global Jewish cultures The intent of the volume is to begin a process of investigation into twenty first century Jewish identity This book was originally published as a special issue of the European Review of History *Power, Politics and the Emotions* Shona Hunter, 2015-06-05 How can we rethink ideas of policy failure to consider its paradoxes and contradictions as a starting point for more hopeful democratic encounters Offering a provocative and innovative theorisation of governance as relational politics the central argument of *Power Politics and the Emotions* is that there are sets of affective dynamics which complicate the already materially and symbolically contested terrain of policy making This relational politics is Shona Hunter's starting point for a more hopeful but realistic understanding of the limits and possibilities enacted through contemporary governing processes Through this idea Hunter prioritises the everyday lived enactments of policy as a means to understand the state as a more differentiated and changeable entity than is often allowed for in current critiques of neoliberalism But Hunter reminds us that focusing on lived realities demands a melancholic confrontation with pain and the risks of social and physical death and violence lived through the contemporary neoliberal state This is a state characterised by the ascendancy of neoliberal whiteness a state where no one is innocent and we are all responsible for the multiple intersecting exclusionary practices creating its unequal social orderings The only way to struggle through the central paradox of governance to produce something different is to accept this troubling interdependence between resistance and reproduction and between hope and loss Analysing the everyday processes of this relational politics through original empirical studies in health social care and education the book develops an innovative interdisciplinary theoretical synthesis which engages with and extends work in political science cultural theory critical race and feminist analysis critical psychoanalysis and post material sociology
