Pick up this book today to rock the interview and get your dream Licensed clinical social worker Job *Interviewing and Communication in Social Work* Crispin P. Cross, 1974 Interviewing and communication are central to the work of the social worker the psychotherapist and many other specialists yet little attempt has been made to explore their interrelationship and complexity The clear interplay between the two is discussed in this book with special reference to social work Its publication should be particularly welcome at this time in view of the enormous progress that has been made in the professionalization of social work and in the application of communication techniques to an increasing number of different areas in modern society Dr Cross has drawn upon his wealth of experience in the fields of psychology sociology and social work in organizing and presenting this collection of papers all of which were specially written for this volume The book emphasizes the important role that communication plays in the interviewing process especially but not only in social work and shows that there are important sociological and psychological factors involved in that process that require far more attention than they have received in the past The first five chapters deal with these essentially theoretical issues the rest of the book is concerned with their practical application in social work These essays should demonstrate to the social work student as well as to his more experienced colleague that interviewing and communication together provide the overall framework within which casework can be undertaken Such a demonstration should also be of real value to students of sociology personnel management and vocational guidance It should also appeal to the general reader with an interest in the interviewing process in modern society
