**The Ungovernable Society** Grégoire

Chamayou,2021-01-28 Rebellion was in the air Workers were on strike students were demonstrating on campuses discipline was breaking down No relation of domination was left untouched the relation between the sexes the racial order the hierarchies of class relationships in families workplaces and colleges The upheavals of the late 1960s and early 1970s quickly spread through all sectors of social and economic life threatening to make society ungovernable This crisis was also the birthplace of the authoritarian liberalism which continues to cast its shadow across the world in which we now live To ward off the threat new arts of government were devised by elites in business related circles which included a war against the trade unions the primacy of shareholder value and a dethroning of politics The neoliberalism that thus began its triumphal march was not however determined by a simple state phobia and a desire to free up the economy from government interference On the contrary the strategy for overcoming the crisis of governability consisted in an authoritarian liberalism in which the liberalization of society went hand in hand with new forms of power imposed from above a strong state for a free economy became the new magic formula of our capitalist societies The new arts of government devised by ruling elites are still with us today and we can understand their nature and lasting influence only by re examining the history of the conflicts that brought them into being
