Miller, 2004 These essays challenge the traditional picture of Christian origins Making use of social anthropology they move away from traditional assumptions about the foundations of Christianity to propose that its historical beginnings are best understood as reflexive social experiments

**The Earliest Christian Meeting Places** Edward Adams, 2013-10-24 Edward Adams challenges a strong consensus in New Testament and Early Christian studies that the early Christians met almost exclusively in houses This assumption has been foundational for research on the social formation of the early churches the origins and early development of church architecture and early Christian worship Recent years have witnessed increased scholarly interest in the early house church

Adams re examines the New Testament and other literary data as well as archaeological and comparative evidence showing that explicit evidence for assembling in houses is not nearly as extensive as is usually thought He also shows that there is literary and archaeological evidence for meeting in non house settings Adams makes the case that during the first two centuries the alleged period of the house church it is plausible to imagine the early Christians gathering in a range of venues rather than almost entirely in private houses His thesis has wide ranging implications *Theology in a Global Context* Hans Schwarz,2005-11 In this book Hans Schwarz leads us into the web of Christian theology s recent past from Kant and Schleiermacher to Mbiti and Zizoulas pointing out all the theologians of the last two hundred years who have had a major impact beyond their own context With an eye to the blending of theology and biography Schwarz draws the lines of connection between theologians their history and wider theological movements Publisher James The Just and Christian Origins Bruce David Chilton,Craig Alan Evans,1999 The lack of serious and sustained investigation of the historical figure of James the Just brother of Jesus is one of the curious oversights in modern critical study of Christian origins James the Just and Christian Origins addresses this problem The questions that surround this exceedingly important yet largely ignored figure are several and complicated Was he really the brother of Jesus How influential was he in the early church What was the nature of his relationship to the other apostles especially to Paul How did James understand Christianity s relationship to Judaism and to the people of Israel Out of this grows a very important question In its generative moment was Christianity in fact as well as in its self awareness a species of Judaism Contributors from several countries are currently engaged in collaborative study in James and early Jewish Christianity James the Just and Christian Origins is the first of several planned volumes to be published **The Social Setting of Pauline Christianity** Gerd Theissen,2004-09-21 Recent emphasis on the social matrix out of which the early church s documents arose marks a notable turn in the path of contemporary New Testament studies Although the terms goals and procedures of scholars vary considerably there is widespread agreement that much of the interesting and innovative work in the field is that of Gerd Theissen Four of his most formidable and sustained contributions treat Paul s correspondence with the Christian community at Corinth Together these four essays provide a composite picture of the social stratification at this ancient urban center and of the concrete organizational and ethical problems that that stratification engendered for the Christians common life A fifth essay helps to focus the critical questions of methodology that arise whenever one approaches ancient religious texts for information on issues which to the texts themselves are of peripheral concern A lucid introduction by the translator and a helpful bibliography of the author s major writings round out this significant exploration and interpretation of the social world of early Christianity **Origins and Method--Towards a New Understanding of Judaism and Christianity** Bradley H. McLean,1993-09-01 This collection of essays is presented in honour of John C Hurd on the occasion of his retirement as Professor of New Testament at Trinity College Toronto and in recognition of a distinguished career in the fields of Pauline studies and computing in the

humanities Given Professor Hurd's interest in Christian origins and methodology it is appropriate that the contributors to this volume deal with the origin and development of various aspects of Judaism and Christianity In particular they highlight how a greater attentiveness to method has resulted in a reshaping of our understanding of Christianity or Judaism The volume is divided into three parts New Understandings of Paul New Understandings of the New Testament and New Understandings of the Relationship between Judaism and Christianity Contributors include Walter Aufrecht Karl Donfried Robert Grant John Kloppenborg Gerd Ludemann and Wayne McCready
