*Social Realism: Art as a Weapon* David Shapiro, 1973 In an introductory essay David Shapiro appraises the roots and achievements of Social Realism providing an overall framework within which the source material that follows can be understood Was Social Realism only a response to the economic collapse of the 1930s or was it part of a continuing American art tradition A primary selection of documents ranging from Hugo Gellert's exultant *We Capture the Walls* 1932 to Oliver Larkin's retrospective *Common Cause* 1949 fixes the period's social and aesthetic background It includes spirited contributions by Diego Rivera Meyer Schapiro Stuart Davis and others A second selection of documents focuses on five major Social Realists Philip Evergood William Gropper Jacob Lawrence Jack Levine and Ben Shahn for closer study This section includes individual biographical outlines personal statements by the artists and representative critical analyses of their work The book concludes with an especially compiled list of major Social Realists an extended bibliography and a detailed index Includes ten reproductions From book jacket *The Social and the Real: Political Art of the 1930s in the Western Hemisphere*, 2006 *Pollock and After* Francis Frascina, 2000 This revised edition features ten new articles and is fully updated to take account of new critical approaches to post war American art *Marxism and 20th-Century English-Canadian Novels* John Z. they struggled to reconcile social protest and aesthetic distance Their canvases prints and drawings registered attitudes toward laborers as bodies without minds often shared by the wider culture In choosing a visual language to reconnect workers to the larger society they tried to tell the worker from the work with varying success Drawing on a wealth of social documents and visual narratives Labor s Canvas engages in a bold revisionism Hapke examines how FAP iconography both chronicles and reframes working class history She demonstrates how the New Deal s artistically rendered workforce history reveals the cultural contradictions about laboring people evident even in the depths of the Great Depression not the least in the imaginations of the FAP artists themselves
