Women's Work Laurel Smith-Doerr, 2004 Women scientists working in small for profit companies are eight times more likely than their university counterparts to head a research lab Why Laurel Smith Doerr reveals that contrary to widely held assumptions strong career opportunities for women and minorities do not depend on the formal policies and long job ladders that large hierarchical bureaucracies provide In fact highly internally linked bio technology firms are far better workplaces for female scientists when compared to university settings or established pharmaceutical companies offering women richer opportunities for career advancement Based on quantitative analyses of more than two thousand life scientists careers and qualitative studies of scientists in eight biotech and university settings Smith Doerr s work shows clearly that the network form of organization rather than fostering old boy networks provides the organizational flexibility that not only stimulates innovation but also aids women s success

The Institutional Logics Perspective Patricia H. Thornton, William Ocasio, Michael Lounsbury, 2012-02-16

How do institutions influence and shape cognition and action in individuals and organizations and how are they in turn shaped by them Various social science disciplines have offered a range of theories and perspectives to provide answers to this question Within organization studies in recent years several scholars have developed the institutional logics perspective An institutional logic is the set of material practices and symbolic systems including assumptions values and beliefs by which individuals and organizations provide meaning to their daily activity organize time and space and reproduce their lives and experiences This approach affords significant insights methodologies and research tools to analyze the multiple combinations of factors that may determine cognition behaviour and rationalities In tracing the development of the institutional logics perspective from earlier institutional theory the book analyzes seminal research illustrating how and why influential works on institutional theory motivated a distinct new approach to scholarship on institutional logics The book shows how the institutional logics perspective transforms institutional theory It presents novel theory further elaborates the institutional logics perspective and forges new linkages to key literatures on practice identity and social and cognitive psychology It develops the microfoundations of institutional logics and institutional entrepreneurship proposing a set of mechanisms that go beyond meta theory integrating this work with macro theory on institutional logics into a cross levels model of cultural heterogeneity By incorporating current psychological understanding of human behaviour and linking it to sociological perspectives it aims to provide an encompassing framework for institutional analysis and to be an essential and accessible reference for scholars and advanced students of organizational behaviour organization and management theory business strategy and cultural sociology
