Rahman, Katherine A. Gordy, Shirin S. Deylami, 2022-12-02 Globalizing Political Theory is guided by the need to understand political theory as deeply embedded in local networks of power identity and structure and to examine how these networks converge and diverge with the global With the help of this book students of political theory no longer need to learn about ideas in a vacuum with little or no attention paid to how such ideas are responses to varying local political problems in

different places times and contexts Key features include Central Conceptual Framework Introducing readers to what it means to globalize political theory and to move beyond the traditional western canon and actively engage with a multiplicity of perspectives Organization Focused on key topics essential for an introductory class aimed at both globalizing political theory and showing how political theory itself is a globalizing activity Themes Colonialism and Empire Gender and Sexuality Religion and Secularism Marxism Socialism and Globalization Democracy and Protest and Race Ethnicity and Indigeneity Pedagogy Each chapter features theoretical concepts and definitions political and historical context key authors and biographical context textual evidence and exegesis from the foundational texts in that thematic area a list of discussion questions and a list of resources for further reading Committed to a multiplicity of perspectives and an active engagement between the global and the local Globalizing Political Theory connects directly with undergraduate and graduate level courses in political theory global political theory and non western political thought

*The Political Theory of Che Guevara* Renzo Llorente, 2018-02-09 Nearly half a century after his death Ernesto Che Guevara remains a compelling and controversial figure He was an original social theorist and many of his writings attest to an innovative interpretation of various concepts and commitments central to Marxist thought This is one of the first works to comprehensively consider his contribution to social and political theory for a student audience Firstly the book provides thorough and reliable accounts of the key theses concepts and commitments that give Che Guevara s theoretical and political orientation its distinctive character It addresses Guevara s views on topics such as work morality in socialism egalitarianism prefigurative politics internationalism and the process of disembargeoisement Secondly the study situates Guevara s ideas within the context of the Marxist theoretical tradition and on the other hand twentieth century Latin American social thought To this end it will explore both the affinities and dissimilarities between Guevara s views on certain fundamental questions and the views represented by such figures as Marx Lenin Herbert Marcuse and Jos Carlos Mari tegui Finally The Political Thought of Che Guevara will provide critical assessments of Che s key ideas many of which remain relevant to contemporary debates in socialist theory

**Socialism and Man in Cuba, and Other Works** Ernesto Guevara, 1968

**Global Justice** Ernesto Che Guevara, 2024-06-25 Three speeches on corporate globalism and imperialism by one of the most widely known guerilla fighters political theorists and organizers Che Guevara In this collection of three speeches Ernesto Che Guevara offers a revolutionary view of a world in which human solidarity and understanding replace imperialist aggression and exploitation First in a sharp speech given in Algeria on February 24 1965 at the Afro Asia Economic Seminar Che speaks about the nature of capitalism and the revolutionary struggle that would open the way for a new socialist society Guevara s 1965 essay *Socialism and Man in Cuba* is a milestone in twentieth century emancipatory social thought Finally *Message to the Tricontinental* is one of Che s more well known works which outlines the tactics and strategies that should be followed in revolutionary struggle This collection of writings merges Che s philosophy politics and economics in his all encompassing

coherent revolutionary vision His ideas and his struggle strike a chord in the current search for global justice      **The Cuban Revolution as Socialist Human Development** Henry Veltmeyer, Mark Rushton, 2011-11-11 The book argues that the Cuban Revolution warrants a closer look as a model of socialist human development A re reading of the Cuban Revolution from this angle engages unresolved issues in the theory of socialist humanism and the notion of human development popularized by the United Nations Development Programme i e predicated on capitalism UNDP economists and other agencies of international cooperation for development give a human face to a capitalist development process that is anything but humane Socialism in Cuba has taken a very different form socialist human development than it did elsewhere in the twentieth century The Cuban Revolution s unique characteristics enabled it to survive adverse conditions a near perfect storm that still threaten its evolution      *Gender and the Self in Latin American Literature* Emma Staniland, 2015-10-05 This book explores six texts from across Spanish America in which the coming of age story Bildungsroman offers a critique of gendered selfhood as experienced in the region s socio cultural contexts Looking at a range of novels from the late twentieth century Staniland explores thematic concerns in terms of their role in elucidating a literary journey towards agency that is towards the articulation of a socially and personally viable female gendered identity mindful of both the hegemonic discourses that constrain it and the possibility of their deconstruction and reconfiguration Myth exile and the female body are the three central themes for understanding the personal social and political aims of the Post Boom women writers whose work is explored in this volume Isabel Allende Laura Esquivel Angeles Mastretta Sylvia Molloy Cristina Peri Rossi and Zo Valds Their adoption and adaptation of an originally eighteenth century and European literary genre is seen here to reshape the global canon as much as it works to reshape our understanding of gendered identities as socially constructed culturally contingent and open ended      **The Politics of Che Guevara** Samuel Farber, 2016-05-18 This reexamination of Ernesto Che Guevara s thoughts on socialism democracy and revolution is a must read for today s activists or anyone longing to fight for a better world Fifty years after his death Guevara remains a symbol to legions of young rebels and revolutionaries This unique book provides a way to critically engage with Guevara s economic views his ideas about revolutionary agency and his conduct as guerrilla commander and government administrator in Cuba Samuel Farber was born and raised in Cuba He has written extensively on Cuba and the Cuban Revolution and is author of *Cuba Since the Revolution of 1959*      *Cuba's Forgotten Decade* Anna Clayfield, Emily J. Kirk, Isabel Story, 2018-08-24 The 1970s have largely been overlooked in scholarly studies of the Cuban Revolution or at the very least dismissed simply as a period of Sovietization characterized by widespread bureaucratization institutionalization and adherence to Soviet orthodoxy Consequently scant research exists that examines the major changes that took place across the decade and their role in determining the course of the Revolution This book provides for the first time a comprehensive assessment of the 1970s which challenges prevailing interpretations Drawing from multidisciplinary perspectives and exploring a range of areas including politics international relations culture education

and healthcare its contributing authors demonstrate that the decade was a time of intense transformation which proved pivotal to the development of the Revolution Indeed many of the ideas approaches policies and legislation developed and tested during the 1970s maintain a very visible legacy in contemporary Cuba In highlighting the complexity of the 1970s this volume ultimately aims to contribute to a greater understanding of the Cuban Revolution and how it chooses to face the challenges of the twenty first century **The Cinema of Sara Gómez** Susan Lord,María Caridad Cumaná,2021-07-06

Throughout the 1960s until her untimely death in 1974 Afro Cuban filmmaker Sara G mez engaged directly and courageously with the social political economic and cultural transformations promised by the Cuban Revolution G mez directed numerous documentary films in 10 prolific years She also made *De cierta manera* One way or another her only feature length film Her films navigate complex experiences of social class race and gender by reframing revolutionary citizenship cultural memory and political value Not only have her inventive strategies become foundational to new Cuban cinema and feminist film culture but they also continue to inspire media artists today who deal with issues of identity and difference *The Cinema of Sara G mez* assembles history criticism biography methodology and theory of G mez s work in scholarly writing interviews with friends and collaborators the film script of *De cierta manera* and a detailed and complete filmography Featuring striking images this anthology reorients how we tell Cuban cinema history and how we think about the intersections of race gender and revolution By addressing G mez s entire body of work *The Cinema of Sara G mez* unpacks her complex life and gives weight to her groundbreaking cinema *How Not to be Governed* Jimmy Casas Klausen,James R. Martel,2011-01-01

*How Not to Be Governed* explores the contemporary debates and questions concerning anarchism in our own time The authors address the political failures of earlier practices of anarchism and the claim that anarchism is impracticable by examining the anarchisms that have been theorized and practiced in the midst of these supposed failures The authors revive the possibility of anarchism even as they examine it with a critical lens Rather than breaking with prior anarchist practices this volume reveals the central values and tactics of anarchism that remain with us practiced even in the most unlikely and impossible contexts **Creating the New Man** Yinghong Cheng,2008-12-31

The idea of eliminating undesirable traits from human temperament to create a new man has been part of moral and political thinking worldwide for millennia During the Enlightenment European philosophers sought to construct an ideological framework for reshaping human nature But it was only among the communist regimes of the twentieth century that such ideas were actually put into practice on a nationwide scale In this book Yinghong Cheng examines three culturally diverse sociopolitical experiments the Soviet Union under Lenin and Stalin China under Mao and Cuba under Castro in an attempt to better understand the origins and development of the new man The book s fundamental concerns are how these communist revolutions strove to create a new morally and psychologically superior human being and how this task paralleled efforts to create a superior society To these ends it addresses a number of questions What are the intellectual roots of the new man concept How was this idealistic and utopian

goal linked to specific political and economic programs How do the policies of these particular regimes based as they are on universal communist ideology reflect national and cultural traditions Cheng begins by exploring the origins of the idea of human perfectibility during the Enlightenment His discussion moves to other European intellectual movements and then to the creation of the Soviet Man the first communist new man in world history Subsequent chapters examine China s experiment with human nature starting with the nationalistic debate about a new national character at the turn of the twentieth century and Cuban perceptions of the new man and his role in propelling the revolution from a nationalist to a socialist and finally a communist movement The last chapter considers the global influence of the Soviet Chinese and Cuban experiments Creating the New Man contributes greatly to our understanding of how three very different countries and their leaders carried out problematic and controversial visions and programs It will be of special interest to students and scholars of world history and intellectual social and revolutionary history and also development studies and philosophy

**Cuban Studies 41** Louis Perez, Catherine Krull, Soraya Castro Marino, 2011-01-30 Cuban Studies 41 includes essays on the ideology behind United States foreign policy toward Cuba a gendered study of Cubans who migrate to other countries fifty years of Cuban medical diplomacy the fifty year relationship between Havana and Moscow national cultural policy and the visual arts in the aftermath of the Grey Years and a look at the global influence of Havana cigars
