Socialism Ethics:

The Ethics of Socialism Ernest Belfort Bax, 1889 **Ethics and Capitalism** John Douglas Bishop, 2000-01-01 The essays in *Ethics and Capitalism* address the question of ensuring ethical and just societies within a capitalist system without sacrificing productivity **Encyclopædia of Religion and Ethics: Sacrifice-Sudra** James Hastings, John Alexander Selbie, Louis Herbert Gray, 1920 Scope theology philosophy ethics of various religions and ethical systems and relevant portions of anthropology mythology folklore biology psychology economics and sociology **Our Destiny; the Influence of Nationalism on Morals and Religion** Laurence Gronlund, 1891 **Dictionary of Ethics, Theology and Society** Paul A. B. Clarke, Andrew Linzey, 2013-11-05 This Dictionary provides a unique and groundbreaking survey of both the historical and contemporary interrelations between ethics theology and society In over 250 separately authored entries a selection of the world's leading scholars from many disciplines and many denominations present their own views on a wide range of topics Arranged alphabetically entries cover all aspects of philosophy theology ethics economics politics and government Each entry includes a concise definition of the term a description of the principal ideas behind it analysis of its history development and contemporary relevance a detailed bibliography giving the major sources in the field The entire field is prefaced by an editorial introduction outlining its scope and diversity Selected entries include Animal Rights Capital Punishment Communism Domestic Violence Ethics Evil Government Homophobia Humanism Liberation Theology Politics Pornography Racism Sexism Society Vivisection Women's Ordination **The Ethics of Socialism** Ernest Belfort Bax, 1907 **Reading Sartre's Second Ethics** Elizabeth A. Bowman, Robert V. Stone, 2023-03-27 In *Reading Sartre's Second Ethics* Elizabeth A. Bowman and Robert V. Stone provide a comprehensive reconstructive and critical interpretation of Jean Paul Sartre's mature dialectical ethics The key Sartrean texts are two posthumously published lectures one delivered at the Gramsci Institute in Rome in 1964 the other scheduled to be delivered at Cornell University in 1965 but cancelled by Sartre in protest of U.S. foreign policy Though different in content method and intended audience Sartre gave both lectures the shared title *Morality and History* As Bowman and Stone argue these texts comprise a single systematic ethic in two parts The Cornell lecture focuses primarily on a regressive and phenomenological analysis of normativity and its ambiguous place in lived moral experience the Rome lecture focuses primarily on a progressive and dialectical synthesis of the ends or goals of historical conduct Taken together the two texts demonstrate that integral humanity is always possible because the means to it can always be freely invented **The Ethics of Socialism** Bax, 1893 *The Ethics of Socialism, Being Further Essays in Modern Socialist Criticism, Etc* Ernest Belfort Bax, 1889 *Encyclopaedia of Religion and Ethics* James Hastings, John Alexander Selbie, Louis Herbert Gray, 1928 **Ethics, Efficiency, and the Market** Allen E. Buchanan, 1985 This is a systematic evaluation of the main arguments for and against the market as an instrument of social organization balancing efficiency and justice It links the distinctive approaches of philosophy and economics to this evaluation **Constructing**

Marxist Ethics, 2015-02-04 Does Marxism possess an ethical impulse Is there a moral foundation that underpins the Marxist critique of capitalism and the vision for social progress The essays collected in Constructing Marxist Ethics Critique Normativity Praxis argue that there is such an ethical grounding for Marxist theory The essays each from different vantage points construct what a Marxian ethics should look like what kind of values should be at the heart of the Marxian enterprise Contributors are Dan Albanese Paul Blackledge Bob Cannon Tony Burns Ian Fraser Ruth Groff Wadood Hamad Christoph Henning Peter Hudis Lauren Langman George E McCarthy Sean Sayers Michael J Thompson and Lawrence Wilde *Ethics Out of Law* Dana Hollander, 2021-06-17 This is the first book in English to lay out the philosophical ethics and philosophy of law of Hermann Cohen one of the leading figures in both Neo Kantian and Jewish philosophy **The Palgrave Handbook of African Social Ethics** Nimi Wariboko, Toyin Falola, 2020-03-30 This Handbook provides a robust collection of vibrant discourses on African social ethics and ethical practices It focuses on how the ethical thoughts of Africans are forged within the context of everyday life and how in turn ethical and philosophical thoughts inform day to day living The essays frame ethics as a historical phenomenon best examined as a historical movement the dynamic ethos of a people rather than as a theoretical construct It thereby offers a bold incisive and fresh interpretation of Africa s ethical life and thought **Ethics of Industrial Man** Fred Blum, 2024-11-01 How do people actually experience God Jesus Christ the Kingdom and the Church Does this experience affect their awareness of capitalism socialism competition the relationship of markets to men and their participation in politics Does modern man have an ethical concern First published in 1970 Ethics of Industrial Man explores the interrelationship between people s experience of a deeper reality of life their awareness of society and their participation in it It is usually assumed that religion has lost its impact on the daily life of man This is true inasmuch as most people live their working lives divorced from religiously grounded ethics But the author shows that it ceases to be true if we explore the significance of the universal ground in which all religious awareness and every social order is rooted Using intensive interviews in Great Britain and the United States over a number of years the author gives empirical evidence that the ethical impulse is not absent but is thwarted by the absence of bridges between the socio economic sphere of life and people s ethical awareness Decisive in this connection is the confusion between what is universal and what is historically specific This confusion the author believes underlies the apathy the sense of powerlessness the prevalence of a false consciousness the decline of traditional religious forms It is he concludes the core of the ethical corrosion of our time **Traditional Ethics and Contemporary Society of China** Guojie Luo, 2023-04-28 Based on the ethical thinking of the pre Qin Dynasty this book discusses the formation and development of traditional Chinese ethics the refinement of the Confucian ethical normative system and the establishment of its orthodoxy as well as the deepening and maturation of feudal ethics The book is simple in style and clear in context It contains not only the essence of traditional Chinese morality but also the achievements of modern civilization It analyzes the implications of traditional Chinese ethics on the governance and moral construction of

modern society and can be used as a reference for governance and revitalization of the country and moral development

African Indigenous Ethics in Global Bioethics Leonard Tumaini Chuwa, 2014-07-08 This book educates whilst also challenging the contemporary schools of thought within philosophical and religious ethics In addition it underlines the fact that the substance of ethics in general and bioethics healthcare ethics specifically is much more expansive and inclusive than is usually thought Bioethics is a relatively new academic discipline However ethics has existed informally since before the time of Hippocrates The indigenous culture of African peoples has an ethical worldview which predates the western discourse This indigenous ethical worldview has been orally transmitted over centuries The earliest known written African text containing some concepts and content of ethics is the Declaration of Innocence written in 1500 B C found in an Egyptian text Ubuntu is an example of African culture that presents an ethical worldview This work interprets the culture of Ubuntu to explain the contribution of a representative indigenous African ethics to global bioethics Many modern scholars have written about the meaning of Ubuntu for African societies over centuries Some scholars have viewed Ubuntu as the greatest contribution of African cultures to other world cultures None of the scholars however has explored the culture of Ubuntu as providing a representative indigenous ethics that can contribute to global bioethics as discussed in this book The Ethics of Capitalism Daniel Halliday, John Thrasher, 2020-05-13 Can capitalism have moral foundations Though this question may seem strange in today's world of vast economic disparities and widespread poverty discussions originating with the birth of capitalism add a critical perspective to the current debate on the efficacy and morality of capitalist economies Authors Daniel Halliday and John Thrasher use this question to introduce classical political philosophy as a framework by which to evaluate the ethics of capitalism today They revisit and reconstruct historical eighteenth and nineteenth century defenses of capitalism as written by key proponents such as Adam Smith and John Stuart Mill They ask what these early advocates of market order would say about contemporary economies and argue for the importance of connecting these foundational defenses to discussions of economic systems and the roles they play in economic justice and injustice today The textbook covers longstanding problems that are as old as the discussion of capitalism itself such as wage inequality global trade and the connection between paid labor and human flourishing It also addresses new challenges such as climate change the welfare state and competitive consumption and provides topical global case studies Additionally it includes study questions at the end of each chapter and an author created companion website to help guide classroom discussion Socialism and the Ethics of Jesus Henry Clay Vedder, 1914 **ETHICS OF SOCIALISM** Ernest Belfort Bax, 2016-09-10 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and
